Vivian Maier John Maloof,2012-10-30 Please note that all blank pages in the book were chosen as part of the design by the publisher. A good street photographer must be possessed of many talents: an eye for detail, light, and composition; impeccable timing; a populist or humanitarian outlook; and a tireless ability to constantly shoot, shoot, shoot, shoot and never miss a moment. It is hard enough to find these qualities in trained photographers with the benefit of schooling and mentors and a community of fellow artists and aficionados supporting and rewarding their efforts. It is incredibly rare to find it in someone with no formal training and no network of peers. Yet Vivian Maier is all of these things, a professional nanny, who from the 1950s until the 1990s took over 100,000 photographs worldwide—from France to New York City to Chicago and dozens of other countries—and yet showed the results to no one. The photos are amazing both for the breadth of the work and for the high quality of the humorous, moving, beautiful, and raw images of all facets of city life in America's post-war golden age. It wasn't until local historian John Maloof purchased a box of Maier's negatives from a Chicago auction house and began collecting and championing her marvelous work just a few years ago that any of it saw the light of day. Presented here for the first time in print, *Vivian Maier: Street Photographer* collects the best of her incredible, unseen body of work.

The Blind Photographer Julian Rothenstein,2016-09-06 The blind photographer cannot see a butterfly perched perfectly still on a flower, a bowl of sweet-smelling fruit, or a child's rattle on a darkened floor, but the mind's eye is sharply focused. How then, do blind or partially sighted people capture such extraordinary images? The photographs in this revelatory book suggest a deeper truth: that blindness is itself a kind of seeing, and that those who can see are often blind to the strangeness and beauty of the world around them. As the blind photographer Evgen Bavcar writes, Photography must belong to the blind, who in their daily existence have learned to become the masters of camera obscura. Through the photographs of more than fifty blind or partially sighted people from around the world, this exhilarating book—the first to explore this phenomenon in all its vibrancy and diversity—will make you see differently.

Making a Photographer Rebecca A. Senf,2020-02-08 An unprecedented and eye-opening examination of the early career of one of America's most celebrated photographers One of the most influential photographers of his generation, Ansel Adams (1902–1984) is famous for his dramatic photographs of the American West. Although many of Adams's images are now iconic, his early work has remained largely unknown. In this first monograph dedicated to the beginnings of Adams's career, Rebecca A. Senf argues that these early photographs are crucial to understanding Adams's artistic development and offer new insights into many aspects of the artist's mature oeuvre. Drawing on copious archival research, Senf traces the first three decades of Adams's photographic practice—beginning with an amateur album made during his childhood and culminating with his Guggenheim-supported National Parks photography of the 1940s. Highlighting the artist's persistence in forging a career path and his remarkable ability to learn from experience as he sharpened his image-making skills, this beautifully illustrated volume also looks at the significance of the artist's environmentalism, including his involvement with the Sierra Club.

The Heart of the Photograph David Duchemin,2020-03-17

Learn to ask better, more helpful questions of your work so that you can create stronger and more powerful photographs.

Photographers often look at an image—one they've either already created or are in the process of making—and ask themselves a simple question: "Is this a good photograph?" It's

an understandable question, but it's really not very helpful. How are you supposed to answer that? What does "good" even mean? Is it the same for everyone?

What if you were equipped to ask better, more constructive questions of your work so that you could think more intentionally and creatively, and in doing so, bring more specific action and vision to the act of creating photographs? What if asking stronger questions allowed you to establish a more effective approach to your image-making? In *The Heart of the Photograph: 100 Questions for Making Stronger, More Expressive Photographs*, photographer and author David duChemin helps you learn to ask better questions of your work in order to craft more successful photographs—photographs that express and connect, photographs that are strong and, above all, photographs that are truly yours.

From the big-picture questions—What do I want this image to accomplish?—to the more detail-oriented questions that help you get there—What is the light doing? Where do the lines lead? What can I do about it?—David walks you through his thought process so that you can establish your own. Along the way, he discusses the building blocks from which compelling photographs are made, such as gesture, balance, scale, contrast, perspective, story, memory, symbolism, and much more. *The Heart of the Photograph* is not a theoretical book. It is a practical and useful book that equips you to think more intentionally as a photographer and empowers you to ask more helpful questions of you and your work, so that you can produce images that are not only better than "good," but as powerful and authentic as you hope them to be.

Georgia O'Keeffe, Photographer Lisa Volpe, Ariel Plotek, 2021-11-16 A groundbreaking introduction to the photographic work of an iconic modern artist The pathbreaking artist Georgia O'Keeffe (1887-1986) is revered for her iconic paintings of flowers, skyscrapers, animal skulls, and Southwestern landscapes. Her photographic work, however, has not been explored in depth until now. After the death of her husband, the photographer Alfred Stieglitz, in 1946, photography indeed became an important part of O'Keeffe's artistic production. She trained alongside the photographer Todd Webb, revisiting subjects that she had painted years before--landforms of the Southwest, the black door in her courtyard, the road outside her window, and flowers. O'Keeffe's carefully composed photographs are not studies of detail or decisive moments; rather, they focus on the arrangement of forms. This is the first major investigation of O'Keeffe's photography and traces the artist's thirty-year exploration of the medium, including a complete catalogue of her photographic work. Essays by leading scholars address O'Keeffe's photographic approach and style and situate photography within the artist's overall practice. This richly illustrated volume significantly broadens our understanding of one of the most innovative artists of the twentieth century.

Karsh David Travis, 2012-06-15 The renowned photographer reveals the stories behind his iconic images in this definitive collection of portraits and personal reflections. Portrait photographer Yousuf Karsh captured some of the twentieth century’s most influential personalities—from Winston Churchill to Muhammad Ali, Albert Einstein, Mother Theresa, and many others—in photographs that became as recognizable as their subjects. *Karsh: Beyond the Camera* presents a chronological overview of the photographer’s work, paired with his own reflections about each image and the time he spent one-on-one with the subject. Edited by veteran curator David Travis, *Karsh: Beyond the Camera* is a fascinating study of the photographer’s technical and stylistic development over the course of his career. Drawing on extensive interviews between Karsh and his long-time assistant, Jerry Fielder, it also shares a rare and intimate look at the man’s life from surviving the Armenian genocide to becoming one of the world’s most sought-after portrait photographers. “Famously reticent about his work, this is a rare invitation to learn the stories behind Karsh’s most famous meetings with great men and women, and of his aesthetic choices when met with the challenge of capturing them as they were.” —Publishers Weekly
