John Derian Picture Book John Derian, 2016-10-04 New York Times Bestseller Named one of the Best Gift Books of the Year by Entertainment Weekly, InStyle, House Beautiful, T: The New York Times Style Magazine, Better Homes & Gardens, Luxe Interiors + Design, People StyleWatch, Garden & Gun, The Los Angeles Times, The Chicago Tribune, New York Magazine, and more John Derian's home goods empire reaches far and wide—in addition to the four John Derian stores he owns in New York and Massachusetts, his products are sold by more than 600 retailers worldwide, including Neiman Marcus, ABC, and Gump's in the United States; Conran and Liberty in the UK; and Astier de Villatte in Paris. It all started with his now-iconic collectible plates decoupaged with 19th-century artwork sourced from old and rare books, a process that credited him with elevating the decoupage technique into fine art. Over the past 25 years, the brand has expanded greatly to include home and general design gifts and products. Now, for the first time ever, comes the book John Derian fans have been waiting for. Culled from the thousands of images that have appeared in his biannual collections, here is an astoundingly beautiful assortment of nearly 300 full-bleed images in their original form. From intensely colored flowers and birds to curious portraits, hand-drawn letters, and breathtaking landscapes, the best of John Derian is here. The result is an oversized object of desire, a work of art in and of itself, that brilliantly walks the line between commerce and art, and that is destined to become the gift book of the season.

Picture Lillian Ross, 2019-04-30 A classic look at Hollywood and the American film industry by The New Yorker's Lillian Ross, and named one of the Top 100 Works of U.S. Journalism of the Twentieth Century. Lillian Ross worked at The New Yorker for more than half a century, and might be described not only as an outstanding practitioner of modern long-form journalism but also as one of its inventors. *Picture*, originally published in 1952, is her most celebrated piece of reportage, a closely observed and completely absorbing story of how studio politics and misguided commercialism turn a promising movie into an all-around disaster. The charismatic and hard-bitten director and actor John Huston is at the center of the book, determined to make Stephen Crane's *The Red Badge of Courage*—one of the great and defining works of American literature, the first modern war novel, a book whose vivid imagistic style invites the description of cinematic—into a movie that is worthy of it. At first all goes well, as Huston shoots and puts together a two-hour film that is, he feels, the best he's ever made. Then the studio bosses step in and the audience previews begin, conferences are held, and the movie is taken out of Huston's hands, cut down by a third, and finally released—with results that please no one and certainly not the public: It was an expensive flop. In *Picture*, which Charlie Chaplin aptly described as “brilliant and sagacious,” Ross is a gadfly on the wall taking note of the operations of a system designed to crank out mediocrity.

A Picture Book of George Washington David A. Adler, 2018-01-01 A lively fife and drum playing Yankee-Doodle-Andy welcome the listener...A narrative tone that is sincere and respectful and a slow, even pace afford the young listener time to absorb facts. - AudioFile Magazine

Picture This, 2016-08-16 Molly Bang's brilliant, insightful, and accessible treatise is now revised and expanded for its 25th anniversary. Bang's powerful ideas—about how the visual composition of images works to engage the emotions, and how the elements of an artwork can give it the power to tell a story—remain unparalleled in their simplicity and genius. Why are diagonals dramatic? Why are curves calming? Why does red feel hot and blue feel cold? First published in 1991, *Picture This* has changed the way artists, illustrators, reviewers, critics, and readers look at and understand art.

The Perfect School Picture Deborah Diesen, 2019-07-02 It's picture day, and the boy at the center of this charming story wants to make sure his picture is perfect. It seems as though everything's going wrong for

him—he has bedhead, a stained shirt, and a big scowl on his face. But when he goes up for his picture, he thinks about his terrible appearance, and he smiles—because he secretly wants his picture to be the worst ever taken! But just as he smiles, the photo is snapped, and his plan is ruined when he takes a totally adorable picture. Perfectly paired with the larger-than-life silliness of Dan Santat's illustrations, this is a sweet and funny picture book about a classic school moment. PraiseThe narrator's over-the-top voice makes reading aloud a must . . . high-energy comedy that involves only minor destruction.— Publishers Weekly

The Book with No Pictures B. J. Novak,2014-09-30 A #1 New York Times bestseller, this innovative and wildly funny read-aloud by award-winning humorist/actor B.J. Novak will turn any reader into a comedian—a perfect gift for any special occasion! You might think a book with no pictures seems boring and serious. Except . . . here's how books work. Everything written on the page has to be said by the person reading it aloud. Even if the words say . . . BLORK. Or BLUURF. Even if the words are a preposterous song about eating ants for breakfast, or just a list of astonishingly goofy sounds like BLAGGITY BLAGGITY and GLIBBITY GLOBBITY. Cleverly irreverent and irresistibly silly, *The Book with No Pictures* is one that kids will beg to hear again and again. (And parents will be happy to oblige.)

The Book of Rules Brian Gehrlein,2021-11-16 An interactive picture book with dynamic illustrations, in which readers have to follow the rules or risk a run-in with a monster—with a gentle approach to mindfulness along the way. Beware! This book has rules. You must follow all the rules. If you break the rules . . . Dennis the monster will eat you. And you don't want to be Dennis-food—do you? With a laugh-out-loud, interactive style, *The Book of Rules* invites you to get your sillies out before it's time to focus and listen to directions. And you better get started, because Dennis can't wait to eat—or, um—meet you!

Big Picture, Small Screen John Hill,Martin McLoone,1996 This work features contributions from academics and media professionals who ask: what is the history of involvement between film and television in the US, Europe, Britain and Ireland; what are the sources of television finance for film; and what are the consequences for the type of film made?

Picture Perception in Animals Joel Fagot,2013-06-17 Animal researchers commonly present pictures to their subjects, usually birds or monkeys, in order to infer how natural objects are perceived and conceptualised, or to discover the brain mechanisms underlying these abilities. This unique book questions the premise of this experimental approach and asks whether or not pictures can be considered as ecologically valid and realistic stimuli for animals. Leading researchers in comparative psychology and neuroscience address such questions as: Can animals recognise objects of scenes in pictures despite variations in viewpoints?; How do animals perceive faces? and Is there an equivalence, in animals' minds, between pictures and the objects they represent?. The result is an authoritative and cutting-edge survey of current knowledge in the field, which underlines the advantages, limits and risks of using pictures to infer cognitive abilities or brain mechanisms in animal studies. *Picture Perception in Animals* will be essential reading for comparative psychologists, anthropologists, and neuroscientists working in picture perception.

Jeff Wall and the Concept of the Picture Naomi Merritt,2020-12-30 This book grapples with fundamental questions about the evolving nature of pictorial representation, and the role photography has played in this ongoing process. These issues are explored through a close analysis of key themes that underpin the photography practice of Canadian artist Jeff Wall and through examining important works

that have defined his oeuvre. Wall's strategic revival of 'the picture' has had a resounding influence on the development of contemporary art photography, by expanding the conceptual and technical frameworks of the medium and introducing a self-reflexive criticality. Naomi Merritt brings a new and original contribution to the scholarship on one of the most significant figures to have shaped the course of contemporary art photography since the 1970s and shines a light on the multilayered connections between photography and art. This book will be of interest to scholars in the history of photography, art and visual culture, and contemporary art history.

Motion Picture Directing: The Facts and Theories of the Newest Art Peter Milne, 2021-05-19 A motion picture is an incredibly effective medium for delivering drama, specifically in the evocation of emotion. This art is highly complicated, requiring contributions from nearly all the other arts and countless technical skills. Appearing at the end of the 19th century, this new art form became one of the most famous and influential media of the 20th century and after. 'Motion Picture Directing' is a helpful piece by American screenwriter Peter Milne to reduce the complexity of this art by making several things easy to understand. The author writes wonderfully about the developments, the abilities, characteristics, and essential qualities after spending nearly ten years in the motion picture industry as a critic and writer. He gives valuable insights into the various methods and techniques that were used during that time in the field. It proves helpful to budding directors and the skilled ones as an introduction to the history of directing.

The Language of Pictures in Print Media Advertising Wilfried Pichler, 2002-03-07

Inhaltsangabe: Abstract: Today we observe a development in which the role of language is steadily decreasing whereas the impact of pictures is increasing. This goes hand in hand with a development in which information relies more and more on visual concepts. More and more language takes the part of

explaining how to read the visual presentations, more and more language takes the part of providing the background information which is necessary to understand the meaning of the visual foreground. Kress and van Leeuwen (1998) argue that Today, we seem to move towards a decrease of control over language (e.g. the greater variety of accents allowed on the public media, the increasing problems in enforcing normative spelling), and towards an increase in codification and control over the visual (e.g. the use of image banks from which ready-made images can be drawn for the construction of visual texts, and, generally, the effect of computer imaging technology). Although we may be aware of this tendency, we have not been taught in school how to read visual concepts and so most of us share some degree of illiteracy concerning a critical reading of information presented by images. This is remarkable because we all agree about their influence on our lives but at the same time when we do not develop analytical tools for describing what kinds of strategies, what kinds of concepts are working in visual presentations of information. We tend to overlook the importance of visual concepts simply because we generally do not know enough about their code. This paper analyses photos and language which are parts of ads, which have definitely been designed for transferring messages because they have been made to advertise one specific product. Images and the text of advertisements never are casual products like family pictures. Although the photo in the family album is coded its coding is less elaborated than the coding of pictures in ads. We have to keep in mind that many people, experts in advertising, experts in public relations were involved in the process of designing an ad before we can look at the final result. This is why ads are definitely conceptually designed because they are meant to create a specific meaning in the viewer's mind. It is a truism that no visual concept, no photo of an ad was chosen by chance. Photographs and language of ads are more likely to have been carefully constructed and selected according to the meaning they are supposed to create. This is [...]
