Pop-Up and Ip Blocker Guide: Learning the Basics Bill Stonehem,2016-06-30 Pop-ups or as they are more formally known, pop-up windows, are internet browser windows that automatically appear without your permission. They can vary in size but traditionally do not cover the entire screen. Some of them may tend to open on top of the current internet window while the others will open underneath the current window. Most browsers will give the option to control the pop-ups through their setup panel that is usually found in the options area. When pop-ups have been disabled, there will be an information bar that will indicate that the pop-up is being prevented from opening.
