To Serve and Protect Bruce L. Benson,1998-08 In his provocative analysis, Benson (economics, Florida State U.; The Independent Institute, Oakland, CA) argues for contracting out and other controversial private justice options as preferable to government's pervasive and misguided criminal justice role. Why the timing may be right is the theme of the preface by Marvin Wolfgang, Director of the U. of Pennsylvania's Sellin Center for Studies in Criminology and Criminal Law. The Austrian School of the series title favors less government economic control. Annotation copyrighted by Book News, Inc., Portland, OR

Protecting Those Who Serve Institute of Medicine,Committee on Strategies to Protect the Health of Deployed U.S. Forces,2000-11-04 Since the Gulf

War ended in 1991, various constituencies, including a significant number of veterans, speculate that unidentified risk factors led to chronic, medically unexplained illnesses, and these constituencies challenge the depth of the military's commitment to protect the health of deployed troops. Despite general concurrence in findings to support these claims, few changes have been made at the field level. The most important recommendations remain unimplemented, despite the compelling rationale for urgent action. *Protecting Those Who Serve* illuminates these recommendations and government-developed plans that remain inactive due to a lack of authority within the Department of Defense, while describing the dangers that may result from failure to protect our forces in the field.

Serve 'N' Protect Tee O'Fallon, 2021-09-20 Ambushed and left for dead, U.S. Secret Service K-9 Officer Markus York is on the mend and laying low in a safe house while his team tracks down his attacker. But Markus isn't good at sitting still. Even with his K-9, Ghost, for company, he gets restless and decides now is the perfect time to do some repairs around the house...and inadvertently tears open his wounds. Fresh out of a bad relationship that ended after a car accident left her with limited mobility, freelance accountant Cassidy Morgan has sworn off men. At least, that's the plan. Until a frantically barking dog leads her to a neighbor's house where she finds a mysterious man out cold and bleeding on the floor...and mumbling things like "no, they'll find me" when she tries to call an ambulance. Yeah, that's not at all concerning. Despite Markus's surly attitude, Cassidy senses there's something else at work beneath his rugged, keep-your-distance exterior. Whatever it is, it's sexy as hell. With someone still trying to kill him, Markus doesn't want an innocent to get hurt, let alone take care of him. If only his dog wasn't crazy in love with her. If only the chemistry between Markus and Cassidy didn't explode whenever they were in the same room. If only Cassidy wasn't a target now, too.

Protect and Defend Richard North Patterson, 2003-08-12 On a cold day in January, President-elect Kerry Kilcannon takes the oath of office—and within days makes his first, most important move: appointing a new Chief Justice of the Supreme Court. Kilcannon's choice is a female judge with a brilliant record. And a secret. While the Senate spars over Caroline Masters's nomination, an inflammatory abortion rights case is making its way toward the judge—and will explode into the headlines. Suddenly, the most divisive issue in America turns the President's nomination into all-out war. And from Judge Masters to a conservative, war-hero senator facing a crisis of conscience and a fifteen-year-old girl battling for her future, no one will be safe.

To Protect and Serve VK Powell, 2008-03-01 To protect or serve—a choice no detective should ever be forced to make. Lieutenant Alex Troy is

caught in the paradox of her life—to hold steadfast to her professional oath or to protect the woman she loves. Assigned to the Vice/Narcotics Division, Alex is given the dangerous but career-building mission of catching notorious and elusive drug lord Sonny Davis. She has to assemble the perfect team of officers to pursue the man suspected of killing numerous coeds—and a friend of Alex's—with the poison he peddles. Keri Morgan is young, enthusiastic, and alive in ways that Alex can barely remember, and Keri has a reason of her own to want Sonny Davis dead. Before justice can be served, Alex and Keri are caught in a web of love, duty, vengeance, and desire that will change both their lives.

I'm Supposed to Protect You from All This Nadja Spiegelman, 2017-08-01 A Vogue Best Book of the Year What Ferrante did for female friends—exploring the tumult and complexity their relationships could hold—Spiegelman sets out to do for mothers and daughters. She's essentially written *My Brilliant Mom*. —Slate A memoir of mothers and daughters—and mothers as daughters—traced through four generations, from Paris to New York and back again. For a long time, Nadja Spiegelman believed her mother was a fairy. More than her famous father, Maus creator Art Spiegelman, and even more than most mothers, hers—French-born New Yorker art director Françoise Mouly—exerted a force over reality that was both dazzling and daunting. As Nadja's body changed and “began to whisper to the adults around me in a language I did not understand,” their relationship grew tense. Unwittingly, they were replaying a drama from her mother's past, a drama Nadja sensed but had never been told. Then, after college, her mother suddenly opened up to her. Françoise recounted her turbulent adolescence caught between a volatile mother and a playboy father, one of the first plastic surgeons in France. The weight of the difficult stories she told her daughter shifted the balance between them. It had taken an ocean to allow Françoise the distance to become her own person. At about the same age, Nadja made the journey in reverse, moving to Paris determined to get to know the woman her mother had fled. Her grandmother's memories contradicted her mother's at nearly every turn, but beneath them lay a difficult

history of her own. Nadja emerged with a deeper understanding of how each generation reshapes the past in order to forge ahead, their narratives both weapon and defense, eternally in conflict. Every reader will recognize herself and her family in *I'm Supposed to Protect You From All This*, a gorgeous and heartbreaking memoir that helps us to see why sometimes those who love us best hurt us most.

Rapp tracks Mukhtar across Europe to America, where they are pitted against each other. But only one of them can survive . . . Intervention in Libya Karin Wester,2020-03-19 An original reconstruction of the evolution of and international diplomatic response to the 2011 Libyan crisis, which draws on a diverse range of sources including in-depth interviews with politicians and diplomats to understand the real-world application of

the UN's 'Responsibility to Protect' principle.

Humanitarian Intervention and the Responsibility to Protect Cristina Gabriela Badescu, 2010-11-23 This book explores attempts to develop a more acceptable account of the principles and mechanisms associated with humanitarian intervention, which has become known as the 'Responsibility to Protect' (R2P). Cases of genocide and mass violence have raised endless debates about the theory and practice of humanitarian intervention to save innocent lives. Since the humanitarian tragedies in Rwanda, Burundi, Bosnia, Kosovo and elsewhere, states have begun advocating a right to undertake interventions to stop mass violations of human rights from occurring. Their central concern rests with whether the UN's current regulations on the use of force meet the challenges of the post-Cold War world, and in particular the demands of addressing humanitarian emergencies. International actors tend to agree that killing civilians as a necessary part of state formation is no longer acceptable, nor is standing by idly in the face of massive violations of human rights. And yet, respect for the sovereign rights of states remains central among the ordering principles of the international community. How can populations affected by egregious human rights violations be protected? How can the legal constraints on the use of force and respect for state sovereignty be reconciled with the international community's willingness and readiness to take action in such instances? And more importantly, how can protection be offered when the Security Council, which is responsible for authorizing the use of force when threats to international peace and security occur, is paralyzed? The author addresses these issues, arguing that R2P is the best framework available at present to move the humanitarian intervention debate forward. This book will be of interest to students of the responsibility to protect, war and conflict studies, human security, international organisations, security studies and IR in general.

Planetary Health Samuel Myers, Howard Frumkin, 2020-08-13 Human health depends on the health of the planet. Earth's natural systems—the air, the water, the biodiversity, the climate—are our life support systems. Yet climate change, biodiversity loss, scarcity of land and freshwater, pollution and other threats are degrading these systems. The emerging field of planetary health aims to understand how these changes threaten our health and how to protect ourselves and the rest of the biosphere. Planetary Health: Protecting Nature to Protect Ourselves provides a readable introduction to this new paradigm. With an interdisciplinary approach, the book addresses a wide range of health impacts felt in the Anthropocene, including food and nutrition, infectious disease, non-communicable disease, displacement and conflict, and mental health. It also presents strategies to combat environmental changes and its ill-effects, such as controlling toxic exposures, investing in clean energy, improving urban design, and more. Chapters are authored by widely

recognized experts. The result is a comprehensive and optimistic overview of a growing field that is being adopted by researchers and universities around the world. Students of public health will gain a solid grounding in the new challenges their profession must confront, while those in the environmental sciences, agriculture, the design professions, and other fields will become familiar with the human consequences of planetary changes. Understanding how our changing environment affects our health is increasingly critical to a variety of disciplines and professions. Planetary Health is the definitive guide to this vital field.

Who Do You Serve, Who Do You Protect? Maya Schenwar, Joe Macaré, Alana Yu-lan Price, 2016-05-30 Essays and reports examining the reality of police violence against Black and brown communities in America. What is the reality of policing in the United States? Do the police keep anyone safe and secure other than the very wealthy? How do recent police killings of young Black people in the United States fit into the historical and global context of anti-blackness? This collection of reports and essays (the first collaboration between Truthout and Haymarket Books) explores police violence against Black, brown, indigenous, and other marginalized communities, miscarriages of justice, and failures of token accountability and reform measures. It also makes a compelling and provocative argument against calling the police. Contributions cover a broad range of issues including the killing by police of Black men and women, police violence against Latino and indigenous communities, law enforcement's treatment of pregnant people and those with mental illness, and the impact of racist police violence on parenting. There are also specific stories such as a Detroit police conspiracy to slap murder convictions on young Black men using police informant, and the failure of Chicago's much-touted Independent Police Review Authority, the body supposedly responsible for investigating police misconduct. The title *Who Do You Serve, Who Do You Protect?* is no mere provocation: the book also explores alternatives for keeping communities safe. Contributors include William C. Anderson, Candice Bernd, Aaron Cantú, Thandi Chimurenga, Ejeris Dixon, Adam Hudson, Victoria Law, Mike Ludwig, Sarah Macaraeg, and Roberto Rodriguez. Praise for *Who Do You Serve, Who Do You Protect?* "With heartbreaking, glass-sharp prose, the book catalogs the abuse and destruction of Black, native, and trans bodies. And then, most importantly, it offers real-world solutions." —Chicago Review of Books "A must-read for anyone seeking to understand American culture in the present day." —Xica Nation "This brilliant collection of essays, written by activists, journalists, community organizers and survivors of state violence, urgently confronts the criminalization, police violence and anti-Black racism that is plaguing urban communities. It is one of the most important books to emerge about these

critical issues: passionately written with a keen eye towards building a world free of the cruelty and violence of the carceral state.” —Beth Richie, author of Arrested Justice: Black Women, Violence, and America’s Prison Nation
