The true story of the puzzle is told here for the first time: - The real inventor and his patent application records were found. - The story of how the puzzle came to be manufactured. - Proof that the 15 Puzzle is mathematically impossible to solve. - How a young New Yorker solved it. - The worldwide puzzle craze that it created.

The Puzzle Instinct Marcel Danesi,2002-06-19 One of the most famous anagrams of all time was constructed in the Middle Ages. The unknown author contrived it as a Latin dialogue between Pilate and Jesus. Jesus' answer to Pilate's question What is truth is phrased as an ingenious anagram of the letters of that very question: Pilate: Quid est veritas? (What is truth?) Jesus: Est virqui adest. (It is the man before you.) The origin of anagrams is shrouded in mystery. One thing is clear, however -- in the ancient world, they were thought to contain hidden messages from the gods. Legend has it that even Alexander the Great (356--323 b.c.) believed in their prophetic power. -- from Chapter Two The most obvious explanation for the popularity of puzzles is that they provide a form of constructive entertainment. But in The Puzzle Instinct Marcel Danesi contends that the fascination with puzzles throughout the ages suggests something much more profound. Puzzles serve a deeply embedded need in people to make sense of things. Emerging at the same time in human history as myth, magic, and the occult arts, the puzzle instinct, he claims, led to discoveries in mathematics and science, as well as revolutions in philosophical thought. Puzzles fill an existential void by providing small-scale experiences of the large-scale questions that Life poses. The puzzle instinct is, arguably, as intrinsic to human nature as is humor, language, art, music, and all the other creative faculties that distinguish humanity from all other species.
