IJEOMA OLUO

- 📖 **So You Want to Talk About Race** Ijeoma Oluo,2019-09-24 In this #1 New York Times bestseller, Ijeoma Oluo offers a revelatory examination of race in America. Protests against racial injustice and white supremacy have galvanized millions around the world. The stakes for transformative conversations about race could not be higher. Still, the task ahead seems daunting, and it’s hard to know where to start. How do you tell your boss her jokes are racist? Why did your sister-in-law hang up on you when you had questions about police reform? How do you explain white privilege to your white, privileged friend? In *So You Want to Talk About Race*, Ijeoma Oluo guides readers of all races through subjects ranging from police brutality and cultural appropriation to the model minority myth in an attempt to make the seemingly impossible possible: honest conversations about race, and about how racism infects every aspect of American life. Simply put: Ijeoma Oluo is a necessary voice and intellectual for these times, and any time, truth be told. —Phoebe Robinson, New York Times bestselling author of *You Can’t Touch My Hair*
- 📖 **The Nature of Race** Ann Morning,2011-06-24 What do Americans think race means? What determines one’s race—appearance, ancestry, genes, or culture? How do education, government, and business influence our views on race? To unravel these complex questions, Ann Morning takes a close look at how scientists are influencing ideas about race through teaching and textbooks. Drawing from in-depth interviews with biologists, anthropologists, and undergraduates, Morning explores different conceptions of race—finding for example, that while many sociologists now assume that race is a social invention or construct, anthropologists and biologists are far from such a consensus. She discusses powerful new genetic accounts of race, and considers how corporations and the government use scientific research—for example, in designing DNA ancestry tests or census questionnaires—in ways that often reinforce the idea that race is biologically determined. Widening the debate about race beyond the pages of scholarly journals, *The Nature of Race* dissects competing definitions in straightforward language to reveal the logic and assumptions underpinning today’s claims about human difference.
- 📖 **Race** J. Kameron Carter,2008-08-28 J. Kameron Carter argues that black theology’s intellectual impoverishment in the church and the academy is the result of its theologically shaky presuppositions, which are based largely on liberal Protestant convictions, and he critiques the work of such noted scholars as Albert Raboteau, Charles Long and James Cone.
- 📖 **Race** Marc Aronson,2007-11-06 From historian Marc Aronson comes a thought-provoking, revelatory young adult nonfiction history of the origins of racism. Race. You know it at a glance: he’s black; she’s white. They’re Asian; we’re Latino. Racism. I’m better; she’s worse. Those people do those kinds of things. We all know it’s wrong to make these judgments, but they come faster than thought. Why? Where did those feelings come from? Why are they so powerful? Why have millions been enslaved, murdered, denied their rights because of the color of their skin, the shape of their eyes? This astounding book traces the history of racial prejudice in Western culture back to ancient Sumer and beyond. Greeks divided the world into civilized and barbarian, medieval men wrote about the traits of monstrous men until, finally, Enlightenment scientists scrap all those mythologies and come up with a new one: charts spelling out the traits of human races. Throughout most of human history, slavery had nothing to do with race. In fact, the idea of race itself did not exist in the West before the 1600s. But once the idea was established and backed up by “scientific” theory, its influence grew with devastating consequences, from the appalling lynchings in the American South to the catastrophe known as the Holocaust in Europe.
- 📖 **Pet’s Talk About Race** Julius Lester,2020-07-14 This wonderful book should be a first choice for all collections and is strongly recommended as a springboard for discussions about differences.” —School Library Journal (starred review) In this acclaimed book, the author of the Newbery Honor book *To Be a Slave* shares his own story as he explores what makes each of us special. A strong choice for sharing at home or in the classroom. Karen Barbour’s dramatic, vibrant paintings speak to the heart of Lester’s unique vision, truly a celebration of all of us. This stunning picture book introduces race as just one of many chapters in a person’s story (School Library Journal). Lester’s poignant picture book helps children learn, grow, discuss, and begin to create a future that resolves differences (Children’s Literature). Julius Lester said: I write because our lives are stories. If enough of these stories are told, then perhaps we will begin to see that our lives are the same story. The differences are merely in the details. I am a story. So are you. So is everyone.
- 📖 **Race Matters, 25th Anniversary** Cornel West,2017-12-05 The twenty-fifth-anniversary edition of the groundbreaking classic, with a new introduction. First published in 1993, on the one-year anniversary of the Los Angeles riots, *Race Matters* became a national best seller that has gone on to sell more than half a million copies. This classic treatise on race contains Dr. West’s most incisive essays on the issues relevant to black Americans, including the crisis in leadership in the black community, black conservatism, black-Jewish relations, myths about black sexuality, and the legacy of Malcolm X. The insights Dr. West brings to these complex problems remain relevant, provocative, creative, and compassionate. In a new introduction for the twenty-fifth-anniversary edition, Dr. West argues that we are in the midst of a spiritual blackout characterized by imperial decline, racial animosity, and unchecked brutality and terror as seen in Baltimore, Ferguson, and Charlottesville. Calling for a moral and spiritual awakening, Dr. West finds hope in the collective and visionary resistance exemplified by the Movement for Black Lives, Standing Rock, and the Black Freedom Tradition. Now more than ever, *Race Matters* is an essential book for all Americans, helping us to build a genuine multiracial democracy in the new millennium.
- 📖 **So You Want to Talk About Race** Ijeoma Oluo,2018-01-16 In this New York Times bestseller, Ijeoma Oluo offers a hard-hitting but user-friendly examination of race in America. Widespread reporting on aspects of white supremacy--from police brutality to the mass incarceration of African Americans--have made it impossible to ignore the issue of race. Still, it is a difficult subject to talk about. How do you tell your roommate her jokes are racist? Why did your sister-in-law take umbrage when you asked to touch her hair--and how do you make it right? How do you explain white privilege to your white, privileged friend? In *So You Want to Talk About Race*, Ijeoma Oluo guides readers of all races through subjects ranging from intersectionality and affirmative action to model minorities in an attempt to make the seemingly impossible possible: honest conversations about race and racism, and how they infect almost every aspect of American life. Oluo gives us--both white people and people of color--that language to engage in clear, constructive, and confident dialogue with each other about how to deal with racial prejudices and biases.--National Book Review Generous and empathetic, yet usefully blunt . . . it’s for anyone who wants to be smarter and more empathetic about matters of race and engage in more productive anti-racist action.--Salon (Required Reading)
- 📖 **Women, Race, & Class** Angela Y. Davis,2011-06-29 From one of our most important scholars and civil rights activist icon, a powerful study of the women’s liberation movement and the tangled knot of oppression facing Black women. “Angela Davis is herself a woman of undeniable courage. She should be heard.”—The New York Times Angela Davis provides a powerful history of the social and political influence of whiteness and elitism in feminism, from abolitionist days to the present, and demonstrates how the racist and classist biases of its leaders inevitably hampered any collective ambitions. While Black women were aided by some activists like Sarah and Angelina Grimke and the suffrage cause found unwavering support in Frederick Douglass, many women played on the fears of white supremacists for political gain rather than take an intersectional approach to liberation. Here, Davis not only contextualizes the legacy and pitfalls of civil and women’s rights activists, but also discusses Communist women, the murder of Emmitt Till, and Margaret Sanger’s racism. Davis shows readers how the inequalities between Black and white women influence the contemporary issues of rape, reproductive freedom, housework and child care in this bold and indispensable work.
- 📖 **Race** Peter Wade,2015-07-02 An introduction to race that compares diverse historical and regional contexts, illustrated with numerous examples from daily life.
- 📖 **“Race” and Racism** R. Perry,2007-10-15 ‘Race’ and racism examines the origins and development of racism in North America. It addresses the inception and persistence of the concept of ‘race’ and discusses the biology of human variance, addressing the fossil record of human evolution, the relationship between creationism and science, population genetics, ‘race’-based medicine, and other related issues. The book explores the diverse ways in which people in a variety of cultures have perceived, categorized, and defined one another without reference to any concept of ‘race.’ It follows the history of American racism through slavery, the perceptions and treatment of Native Americans, Jim Crow laws, attitudes toward Irish and Southern European immigrants, the internment of Japanese Americans during World War II, the civil rights era, and numerous other topics.
- 📖 **The Birth of Whiteness** Daniel Bernardi,1996 As indelible components of the history of the United States, race and racism have permeated nearly all aspects of life: cultural, economic, political, and social. In this first anthology on race in early cinema, fourteen scholars examine the origins, dynamics, and ramifications of racism and Eurocentrism and the resistance to both during the early years of American motion pictures. Any discussion of racial themes and practices in any arena inevitably begins with the definition of race. Is race an innate and biologically determined essence or is it a culturally constructed category? Is the question irrelevant? Perhaps race exists as an ever-changing historical and social formation that, regardless of any standard definition, involves exploitation, degradation, and struggle. In his introduction, Daniel Bernardi writes that early cinema has been a clear partner in the hegemonic struggle over the meaning of race and that it was steadfastly aligned with a Eurocentric world view at the expense of those who didn’t count as white. The contributors to this work tackle these problems and address such subjects as biological determinism, miscegenation, Manifest Destiny, assimilation, and nativism and their impact on early cinema. Analyses of *The Birth of a Nation*, *Romona*, *Nanook of the North* and *Madame Butterfly* and the directorial styles of D. W. Griffith, Oscar Micheaux, and Edwin Porter are included in the volume.
- 📖 **The Idea of Race in Latin America, 1870-1940** Richard Graham,Thomas E. Skidmore,Aline Helg,Alan Knight,1990-04 From the mid-nineteenth century until the 1930s, many Latin American leaders faced a difficult dilemma regarding the idea of race. On the one hand, they aspired to an ever-closer connection to Europe and North America, where, during much of this period, scientific thought condemned nonwhite races to an inferior category. Yet, with the heterogeneous racial makeup of their societies clearly before them and a growing sense of national identity impelling consideration of national futures, Latin American leaders hesitated. What to do? Whom to believe? Latin American political and intellectual leaders’ sometimes anguished responses to these dilemmas form the subject of *The Idea of Race in Latin America*. Thomas Skidmore, Aline Helg, and Alan Knight have each contributed chapters that succinctly explore various aspects of the story in

Brazil, Argentina, Cuba, and Mexico. While keenly alert to the social and economic differences that distinguish one Latin American society from another, each author has also addressed common issues that Richard Graham ably draws together in a brief introduction. Written in a style that will make it accessible to the undergraduate, this book will appeal as well to the sophisticated scholar.

 **RACE** Alan H. Goodman, Yolanda T. Moses, Joseph L. Jones, 2019-12-06 The second edition of the bestselling title on modern notions of race, providing timely examination of perspectives on race, racism, and human biological variation In this fully updated second edition of this popular text on the study of race, Alan Goodman, Yolanda Moses, and Joseph Jones take a timely look at modern ideas surrounding race, racism, and human diversity, and consider the ways that ideas about race have changed over time. New material in the second edition covers recent history and emerging topics in the study of race. The second edition has also been updated to account for advancements in the study of human genetic variation, which provide further evidence that race is an entirely social phenomenon. RACE compels readers to carefully consider their own ideas about race and the role that race plays in the world around them. Examines the ways perceptions of race influence laws, customs, and social institutions in the US and around the world Explores the impact of race and racism on health, wealth, education, and other domains of life Includes guest essays by noted scholars, a complete bibliography, and a full glossary Stands as an ideal text for courses on race, racism, and cultural and economic divides Combines insights and examples from science, history, and personal narrative Includes engaging photos, illustrations, timelines, and diagrams to illustrate important concepts

 **W. E. B. Du Bois, 1868-1919** David Levering Lewis, 1993 A definitive biography of the African-American author and scholar describes DuBois's formative years, the evolution of his philosophy, and his roles as a founder of the NAACP and architect of the American civil-rights movement

 **RACE (Large Print 16pt)** Studs Terkel, 2010-10 First published in 1992 at the height of the furor over the Rodney King incident, Studs Terkel's RACE was an immediate bestseller. In a rare and revealing look how at how people in America truly feel about race, Terkel brings out the full complexity of the thoughts and emotions of both blacks and whites, uncovering a fascinating narrative of changing opinions. Preachers and street punks, college students and Klansmen, interracial couples, the nephew of the founder of apartheid, and Emmett Till's mother are among those whose voices appear in RACE. In all, nearly one hundred Americans talk openly about attitudes that few are willing to admit in public; feelings about affirmative action, gentrification, secret prejudices, and dashed hopes.

 **BLUE-CHIP BLACK** Karyn R. Lacy, 2007-07-03 Publisher Description

 **ACTING WHITE?** Devon W. Carbado, Mitu Gulati, 2013-02-19 What does it mean to act black or act white? Is race merely a matter of phenotype, or does it come from the inflection of a person's speech, the clothes in her closet, how she chooses to spend her time and with whom she chooses to spend it? What does it mean to be really black, and who gets to make that judgment? In *Acting White?*, leading scholars of race and the law Devon Carbado and Mitu Gulati argue that, in spite of decades of racial progress and the pervasiveness of multicultural rhetoric, racial judgments are often based not just on skin color, but on how a person conforms to behavior stereotypically associated with a certain race. Specifically, racial minorities are judged on how they perform their race. This performance pervades every aspect of their daily life, whether it's the clothes they wear, the way they style their hair, the institutions with which they affiliate, their racial politics, the people they befriend, date or marry, where they live, how they speak, and their outward mannerisms and demeanor. Employing these cues, decision-makers decide not simply whether a person is black but the degree to which she or he is so. Relying on numerous examples from the workplace, higher education, and police interactions, the authors demonstrate that, for African Americans, the costs of acting black are high, and so are the pressures to act white. But, as the authors point out, acting white has costs as well. Provocative yet never doctrinaire, *Acting White?* will boldly challenge your assumptions and make you think about racial prejudice from a fresh vantage point.

 **RACE AND SPORT** Charles Kenyatta Ross, 2004 An examination of the connection between race and sport in America

 **WHITE MEN ON RACE** Joe R. Feagin, Eileen O'Brien, 2003 These men, mostly baby boomers ranging in age from their thirties to their sixties, reside in a variety of U.S. cities and states. Some are at or near the top of powerful economic and government organizations and are members of the national governing class, while most are a tier or two below that top level and are influential in their regions or local communities. Most are executives in corporations, influential officials and administrators, academics, physicians, attorneys, and businesspeople.

 **MAN'S MOST DANGEROUS MYTH** Ashley Montagu, 1997 This new edition contains Montagu's most complete explication of his theory and a thorough updating of previous editions.
