Fire Shelters Weaken Transmissions from Hand-held Radios Ted Etter, 2003 Wildland firefighters who try to use their hand-held radios inside fire shelters will be unlikely to communicate with their supervisors and may not even be able to communicate with other firefighters inside fire shelters just 50 feet away. Transmissions from the older VHF (very high frequency, 30 to 300 MHz) Bendix-King radios were not weakened as badly as those from the newer UHF (ultra high frequency, 300 to 3,000 MHz) Motorola Astro XTS 3000 radios. The standard fire shelter being carried by wildland firefighters did not weaken the transmissions as much as the New Generation Fire Shelter that is just beginning to be carried by wildland firefighters. The tech tip includes a table showing exactly how much the transmissions were weakened in different situations. Essentially, firefighters could shout and be heard as far as if they used their new UHF radios inside a fire shelter.

As

the radio industry enters its second century of existence, it continues to be a dominant mass medium with almost total listenership saturation despite rapid technological advancements that provide alternatives for consumers. Lasting influences such as on-air personalities, audience behavior, fan relationships, and localism are analyzed as well as contemporary issues including social and digital media. Other essays examine the regulatory concerns that continue to exist for public radio, commercial radio, and community radio, and discuss the hindrances and challenges posed by government regulation with an emphasis on both American and international perspectives. Radio's impact on cultural hegemony through creative programming content in the areas of religion, ethnic inclusivity, and gender parity is also explored. The Storz Stations in St. Louis, Omaha, New Orleans, Minneapolis-St. Paul, Kansas City, Oklahoma City and Miami are profiled in this book, as are various Storz air personalities and executives. A detailed chapter examines the unique Storz Station sound, revealing the complexity of what detractors portrayed as a simplistic format. Another covers Storz advertising in radio trade magazines, which cemented the company's image as the format's most successful station group and Top 40 as the dominant programming of the day.
