Atala and René François-René vicomte de Chateaubriand,1901

René Magritte Catherine Defeyt,Francisca Vandepitte,2023-07-04 The first book-length material study of the works of Belgian Surrealist René Magritte. René Magritte (1898–1967) is the most famous Belgian artist of the twentieth century and a celebrated representative of the Surrealist movement. Much has been written about his practices, artistic community, and significance within the history of modernism, but little has been documented regarding his process. This volume examines fifty oil paintings made by Magritte between 1921 and 1967, now held at the Royal Museums of Fine Arts of Belgium. This technical study of his works using noninvasive scientific imaging and chemical analysis reveals the artist's painting materials, his habit of overpainting previous compositions, and the origins and mechanisms of surface and pigment degradation. Of interest to conservators, scientists, curators, and enthusiasts of twentieth-century art, this book expands our understanding of Magritte the artist and provides new and useful findings that will inform strategies for the future care of his works.

René Girard's Mimetic Theory Wolfgang Palaver,2013-01-01 A systematic introduction into the mimetic theory of the French-American literary theorist and philosophical anthropologist René Girard, this essential text explains its three main pillars (mimetic desire, the scapegoat mechanism, and the Biblical "difference") with the help of examples from literature and philosophy. This book also offers an overview of René Girard's life and work, showing how much mimetic theory results from existential and spiritual insights into one's own mimetic entanglements. Furthermore it examines the broader implications of Girard's theories, from the mimetic aspect of sovereignty and wars to the relationship between the scapegoat mechanism and the question of capital punishment. Mimetic theory is placed within the context of current cultural and political debates like the relationship between religion and modernity, terrorism, the death penalty, and gender issues. Drawing textual examples from European literature (Cervantes, Shakespeare, Goethe, Kleist, Stendhal, Storm, Flaubert, Dostoevsky, Proust) and philosophy (Plato, Camus, Sartre, Lévi-Strauss, Derrida, Vattimo), Palaver uses mimetic theory to explore the themes they present. A highly accessible book, this text is complemented by bibliographical references to Girard's widespread work and secondary literature on mimetic theory and its applications, comprising a valuable bibliographical archive that provides the reader with an overview of the development and discussion of mimetic theory until the present day.

René Schickele and Alsace Áine McGillicuddy,2011 Born into a German-French bilingual environment, the once renowned German-language author Ren Schickele (1883-1940) grew up in the Alsace region - today located in eastern France - during its annexation to the German Empire when links to French culture were frowned upon. In the aftermath of the First World War the situation was reversed when Alsace was reclaimed by the French Republic. In both these phases of its troubled history, Schickele insisted on the importance of Alsace's right to retain its double cultural heritage between the borders of its powerful rival neighbours and on its potential, as mediator between France and Germany, to promote peace in Europe. These issues are addressed in a critical discussion of a range of Schickele's works. His controversial wartime drama Hans im Schnakenloch affords a wry but penetrating insight into issues of identity in Alsace under German rule up to the war, while his socio-political essays and a novel trilogy, Das Erbe am Rhein, were written against the backdrop of the malaise alsacien and life under French rule. The historical background to the work is examined in detail as it is intimately bound up with the issues of cultural identity that Schickele explores in his writings.

Visual Power and Fame in René d'Anjou, Geoffrey Chaucer, and the Black Prince S. Gertz,2010-04-26 Reading semiotically against the backdrop of medieval mirrors of princes, Arthurian narratives, and chronicles, this study examines how René d Anjou (1409-1480), Geoffrey Chaucer s House of Fame (ca. 1375-1380), and Edward the Black Prince (1330-1376) explore fame s visual power. While very different in approach, all three individuals reject the classical suggestion that fame is bestowed and understand that particularly in positions of leadership, it is necessary to communicate effectively with audiences in order to secure fame. This sweeping study sheds light on fame s intoxicating but deceptively simple promise of elite glory.

Albert René Kevin Shillington,2014 Albert Rene is a towering figure of modern Seychelle, an archipelago in the Indian Ocean, east of mainland Southeast Africa and northeast of the island of Madagascar. He arouses intense emotions in both admirers and opponents. This first full-length biography analyzes Rene's early years, his political awakening, and his struggle for full electoral support in the face of strong opposition. Frustrated by the slow pace of Seychelle's economic development and the extent of social division along racial lines, Albert Rene took the fateful decision to seize power by coup d'etat in 1977. It is a dramatic story, which includes an attempted invasion by South African mercenaries. In 1992-93, Rene finessed a change from a one-party socialist state to multi-party rule. He bequeathed to his successor a transformed nation that had shed its oppressive racial hierarchy and had attained the highest social and economic indicators within the African region. Underlying the political drama is the story of the compassion and romance of the all too human man that is Albert Rene. The book adds authority to this account by the depth of research through archives and contemporary newspapers, as well as extensive interviews covering both his political and personal life, the latter including interviews with all three of Albert Rene's wives. *** A saga of political drama, struggle, and ultimately hope...fascinating from cover to

cover, and highly recommended especially for public and college library biography collections. -- Midwest Book Review, Library Bookwatch, The Biography Shelf, October 2014 [Subject: Biography, Politics, History, African Studies]Ã?Â?Ã?Â?Ã?Â?Â?

René Magritte René Magritte,2016-09-22 Available for the first time in an English translation, this selection of René Magritte's writings gives non-Francophone readers the chance to encounter the many incarnations of the renowned Belgian painter—the artist, the man, the aspiring noirist, the fire-breathing theorist—in his own words. Through whimsical personal letters, biting apologia, appreciations of fellow artists, pugnacious interviews, farcical film scripts, prose poems, manifestos, and much more, a new Magritte emerges: part Surrealist, part literalist, part celebrity, part rascal.While this book is sure to appeal to admirers of Magritte's art and those who are curious about his personal life, there is also much to delight readers interested in the history and theory of art, philosophy and politics, as well as lovers of creativity and the inner workings of a probing, inquisitive mind unrestricted by genre, medium, or fashion.

King René's Daughter Henrik Hertz,1892

Atala and René François-René de Chateaubriand,1980 Chateaubriand was the giant of French literature in the early nineteenth century. Drawing on eighteenth-century English romanticists, on explorers in America, and on Goethe's Werther, he had a profound effect on French writers from Victor Hugo and Lamartine to George Sand and Flaubert. A quixotic and paradoxical personality, he combined impressive careers as a brilliant prose-poet, a spiritual guide, a high-ranking diplomat, and an enterprising lover. Atala and René are his two best-known works, reflecting not only his own joys, aspirations, and despair, but the emerging tastes of a new literary era. Atala is the passionate and tragic love story of a young Indian couple wandering in the wilderness, enthralled by the beauties of nature, drawn to a revivified Christianity by its esthetic charm and consoling beneficence, and finally succumbing to the cruelty of fate. Perhaps even more than Werther or Childe Harold, René embodies the romantic hero, and is not wholly foreign to the disorientation of youth today. Solitary, mysterious, ardent, and poetic, he is in open revolt against a society whose values he rejects. Without question this archetype played a large part in determining the course of French literature up to the 1850's.
