Something Worth Saving Sandi Ward,2018-12-18 “The family pets see so much more than anyone realizes in this family drama . . . Told with empathy and hope” by the author of *What Holds Us Together* (Booklist). A boy and his cat. It’s an unconventional friendship, perhaps, but for Charlie and Lily, it works beautifully. It was Charlie who chose Lily from among all the cats in the shelter. He didn’t frown, the way other humans did, when he saw her injured back leg, the legacy of a cruel previous owner. Instead, Charlie insisted on rescuing her. Now Lily wants to do the same for Charlie. She’s the only one who’s seen the bruises on Charlie’s body. If she knew who was hurting him, she’d scratch their eyes out. But she can’t fix this by herself. Lily needs to get the rest of the family to focus on Charlie—not easy when they’re wrapped up in their own problems. Charlie’s mother kicked his father out weeks ago and has a new boyfriend who seems charming, but is still a stranger. Oldest son Kevin misses his father desperately. Victoria, Charlie’s sister, also has someone new in her life, and Lily is decidedly suspicious. Even Charlie’s father, who Lily loves dearly, is behaving strangely. Lily knows what it’s like to feel helpless. But she also knows that you don’t always have to be the biggest or the strongest to fight fiercely for the ones you love . . . “Powerful and smartly written, Ward explores the intricate workings of family life with a compassionate touch and unflinching honesty.”—Lisa Duffy, author of *My Kind of People*

Saving Us Katharine Hayhoe,2021-09-21 United Nations Champion of the Earth, climate scientist, and evangelical Christian Katharine Hayhoe changes the debate on how we can save our future in this nationally bestselling “optimistic view on why collective action is still possible—and how it can be realized” (The New York Times). Called “one of the nation’s most effective communicators on climate change” by The New York Times, Katharine Hayhoe knows how to navigate all sides of the conversation on our changing planet. A Canadian climate scientist living in Texas, she negotiates distrust of data, indifference to imminent threats, and resistance to proposed solutions with ease. Over the past fifteen years Hayhoe has found that the most important thing we can do to address climate change is talk about it—and she wants to teach you how. In *Saving Us*, Hayhoe argues that when it comes to changing hearts and minds, facts are only one part of the equation. We need to find shared values in order to connect our unique identities to collective action. This is not another doomsday narrative about a planet on fire. It is a multilayered look at science, faith, and human psychology, from an icon in her field—recently named chief scientist at The Nature Conservancy. Drawing on interdisciplinary research and personal stories, Hayhoe shows that small conversations can have astonishing results. *Saving Us* leaves us with the tools to open a dialogue with your loved ones about how we all can play a role in pushing forward for change.

Saving the World Julia Alvarez,2007-04-27 Latina novelist Alma Huebner is suffering from writer's block and is years past the completion date for yet another of her bestselling family sagas. Her husband, Richard, works for a humanitarian organization dedicated to the health and prosperity of developing countries and wants her help on an extended AIDS assignment in the Dominican Republic. But Alma begs off joining him: the publisher is breathing down her neck. She promises to work hard and follow him a bit later. The truth is that Alma is seriously sidetracked by a story she has stumbled across. It's the story of a much earlier medical do-gooder, Spaniard Francisco Xavier Balmis, who in 1803 undertook to vaccinate the populations of Spain's American colonies against smallpox. To do this, he required live carriers of the vaccine. Of greater interest to Alma is Isabel Sendales y Gómez, director of La Casa de Expósitos, who was asked to select twenty-two orphan boys to be the vaccine carriers. She agreed— with the stipulation that she would accompany the boys on the proposed two-year voyage. Her strength and courage inspire Alma, who finds herself becoming obsessed with the details of Isabel's adventures. This resplendent novel-within-a-novel spins the disparate tales of two remarkable women, both of whom are swept along by machismo. In depicting their confrontation of the great scourges of their respective eras, Alvarez exposes the conflict between altruism and ambition.

Saving Grandma Frank Schaeffer,2004-07-20 When Grandma comes to the Becker's home to recover from an operation, the Beckers find it very difficult to do the Lord's work because Grandma, with her ill-temper and bad mouth, ruins the spiritual atmosphere of the home, in the final volume of the Calvin Becker trilogy. Saving Israel Boaz Dvir,2023-06-14 The incredible true story of a WWII veteran’s renegade operation to help Israel defend itself during the First Arab-Israeli War. Shortly after Israel was created in 1948, it faced the threat of invasion by five well-equipped neighboring armies. Though the United States opposed supplying arms to either side of the conflict, American World War II veteran Al Schwimmer was determined to do whatever it takes to help Israel defend herself. Schwimmer created factitious airlines, bought decommissioned airplanes from the government, and sent his pilots to pick up rifles, bullets, and fighter planes from the only country willing to break the international arms embargo: communist Czechoslovakia. Schwimmer and his team risked their lives, freedom, and US citizenship to prevent what they viewed as an imminent genocide. They evaded the FBI and State Department, gained the support of the mafia, smuggled weapons—mostly Nazi surplus—across hostile territories, and went into combat in the Middle East. This book vividly tells the story of this little-known yet historically significant mission.

Saving God Mark Johnston,2009-07-06 In this book, Mark Johnston argues that God needs to be saved not only from the distortions of the undergraduate atheists (Richard Dawkins, Christopher Hitchens, and Sam Harris) but, more importantly, from the idolatrous tendencies of religion itself. Each monotheistic religion has its characteristic ways of domesticating True Divinity, of taming God's demands so that they do not radically threaten our self-love and false righteousness. Turning the monotheistic critique of idolatry on the monotheisms themselves, Johnston shows that much in these traditions must be condemned as false and spiritually debilitating. A central claim of the book is that supernaturalism is idolatry. If this is right, everything changes; we cannot place our salvation in jeopardy by tying it essentially to the supernatural cosmologies of the ancient Near East. Remarkably, Johnston rehabilitates the ideas of the Fall and of salvation within a naturalistic framework; he then presents a conception of God that both resists idolatry and is wholly consistent with the deliverances of the natural sciences. Princeton University Press is publishing *Saving God* in conjunction with Johnston's forthcoming book *Surviving Death*, which takes up the crux of supernaturalist belief, namely, the belief in life after death.

Saving Community Journalism Penelope Muse Abernathy, 2014-04-29 America's community newspapers have entered an age of disruption. Towns and cities continue to need the journalism and advertising so essential to nurturing local identity and connection among citizens. But as the business of newspaper publishing collides with the digital revolution, and as technology redefines consumer habits and the very notion of community, how can newspapers survive and thrive? In *Saving Community Journalism*, veteran media executive Penelope Muse Abernathy draws on cutting-edge research and analysis to reveal pathways to transformation and long-term profitability. Offering practical guidance for editors and publishers, Abernathy shows how newspapers can build community online and identify new opportunities to generate revenue. Examining experiences at a wide variety of community papers--from a 7,000-circulation weekly in West Virginia to a 50,000-circulation daily in California and a 150,000-circulation Spanish-language weekly in the heart of Chicago--*Saving Community Journalism* is designed to help journalists and media-industry managers create and implement new strategies that will allow them to prosper in the twenty-first century. Abernathy's findings will interest everyone with a stake in the health and survival of local media.

Saving Face Maya Hu-Chan, 2020-06-09 "Maya Hu-Chan shares a blueprint for becoming a more empathetic, self-aware, and inclusive leader. *Saving Face* guides us to consider different perspectives, to think first and speak last, and to respect others above all else." —Frances Hesselbein, former CEO, Girl Scouts of the USA, and Presidential Medal of Freedom recipient Organizations now need to attract, retain, and motivate teams and employees across distance, time zones, and cultural differences. Building authentic and lasting human relations may be the most important calling for leaders in this century. According to management and global leadership specialist Maya Hu-Chan, the concept of "saving face" can help any leader preserve dignity and create more empathetic cross-cultural relationships. "Face" represents one's self-esteem, self-worth, identity, reputation, status, pride, and dignity. Saving face is often understood as saving someone from embarrassment, but it's also about developing an understanding of the background and motivations of others to discover the unique facets we all possess. Without that understanding, we risk causing others to lose face without even knowing it. Hu-Chan explains saving face through anecdotes and practical tools, such as her BUILD leadership model (Benevolence, Understanding, Interacting, Learning, and Delivery). This book illustrates how we can give face to create positive first impressions, avoid causing others to lose face, and, most importantly, build trust and lasting relationships inside and outside the workplace.

Saving Yellowstone Megan Kate Nelson, 2022-03-01 From historian and critically acclaimed author of *The Three-Cornered War* comes the captivating story of how Yellowstone became the world's first national park in the years after the Civil War, offering "a fresh, provocative study...departing from well-trodden narratives about conservation and public recreation" (Booklist, starred review). Each year nearly four million people visit Yellowstone National Park—one of the most popular of all national parks—but few know the fascinating and complex historical context in which it was established. In late July 1871, the geologist-explorer Ferdinand Hayden led a team of scientists through a narrow canyon into Yellowstone Basin, entering one of the last unmapped places in the country. The survey's discoveries led to the passage of the Yellowstone Act in 1872, which created the first national park in the world. Now, author Megan Kate Nelson examines the larger context of this American moment, illuminating Hayden's survey as a national project meant to give Americans a sense of achievement and unity in the wake of a destructive civil war. *Saving Yellowstone* follows Hayden and two other protagonists in pursuit of their own agendas: Sitting Bull, a Lakota leader who asserted his peoples' claim to their homelands, and financier Jay Cooke, who wanted to secure his national reputation by building the Northern Pacific Railroad through the Great Northwest. Hayden, Cooke, and Sitting Bull staked their claims to Yellowstone at a critical moment in Reconstruction, when the Ulysses S. Grant Administration and the 42nd Congress were testing the reach and the purpose of federal power across the nation. "A readable and unfailingly interesting look at a slice of Western history from a novel point of view" (Kirkus Reviews), *Saving Yellowstone* reveals how Yellowstone became both a subject of fascination and a metaphor for the nation during the Reconstruction era. This "land of wonders" was both beautiful and terrible, fragile and powerful. And what lay beneath the surface there was always threatening to explode.

Saving Sailing Nicholas D. Hayes, 2009-10 *Saving Sailing* makes an eloquent case for the revival of family sailing -- and similar uses of free time for lifelong pastimes that enrich our lives. The issue: participation in sailing is declining in America, down more than 40% since 1997 and 70% since 1979. In this wide-ranging book, researcher and avid sailor Nicholas Hayes explains why. The book shows how pressures on free time have increased, and how, in response, many Americans have turned to less rewarding forms of passive or overly structured activities and away from lifelong, family-based, multi-generational recreation. *Saving Sailing* builds a case for choosing how to spend free time better, seeking quality experiences with families and friends through lifelong pastimes like sailing. The main challenge, he suggests, is to develop an active system of mentoring, especially between generations. The lessons are broader than sailing, with useful ideas for all parents, for anyone seeking to strengthen the social fabric of American communities, and for those involved in programming for youth and adult activities. Author Nick Hayes is a market researcher and partner at the consulting firm FiveTwelve Group, and is active in the Milwaukee sailing scene. He has studied sailing, sailors, and sailing clubs for years, and interviewed more than 1,200 sailors worldwide since 2003 for this book. He lives in Milwaukee, Wisconsin.
