One Small Step MA Binfield,2019-12-10 Where love is concerned, the smallest steps are often the hardest to take—especially when you’ve guarded your heart as carefully as Iris Miller has. Still bruised from a relationship that crashed and burned, and all the meaningless hookups that followed, Iris has given up on love and buttoned her feelings up tight. But when Cameron Hansen joins Iris’s law firm and her soccer team, and even starts hanging out in her favorite bookstore, everything gets turned upside down. Beautiful, open, and forward, Cam is impossible to ignore, and Iris is surprised to find herself intrigued. Cam’s straight, happily engaged, and simply looking for a friend—or so it seems. London’s bitterly cold winter makes winning their soccer championship almost as difficult as keeping their feelings in check, being honest with each other, and trying not to fall in love. Iris and Cam are about to discover the meaning of taking chances and following your heart, even if it means getting hurt.

Cost of Honor Radclyffe,2019-11-12 Secret Service Agent Oakes Weaver is in the midst of the biggest assignment of her career—leading the advance team for President Andrew Powell’s impending trip to Philadelphia where everyone expects he will be nominated to run for a second term. The last thing she needs is a tragedy among the president’s inner circle that might not be an accident, or the sudden recruitment of Ari Rostof, a woman who might be a lot more than she seems. But Oakes doesn’t get a say in policy. She only has to secure the president’s safety—at all costs. First Daughter Blair Powell and her spouse, Cameron Roberts, are among the reelection campaign members accompanying President Andrew Powell to Philadelphia. While the president may be protected by his Secret Service agents, those close to him are literally in the kill zone, and his adversaries will stop at nothing to further their cause—even mass murder.

Baby Be Mine in Texas Eve Gaddy,2017-06-27 She needs a

husband When hard-working Redfish, Texas, cop Maggie Barnes finds an abandoned infant next to her cruiser, she thinks she's found the answer to her dream of motherhood. Except to stand the best chance of adopting baby Grace, she needs a husband. Who else to turn to but her best friend, Tucker Jones? Though the confirmed bachelor had no plans for a wife, much less a family, he can't say no to Maggie. Especially after she insists the marriage will only be temporary, until she knows the baby is hers. The only flaw in this plan for a short-term, platonic marriage? A long-term, simmering attraction that fires into a boil as hot and uncontrollable as the Texas summer sun. And a "temporary" union may not be nearly enough to quench the flames.

When the River Rises Rachel Ember, 2022-07-29 Cam has always had a soft spot for dangerous guys. Not that he gets much action, dangerous or otherwise—he never managed to outgrow his baby fat, and the most interesting thing about him is his 4.0 GPA. When Jake shows up, tall, brooding, and in leather, he seems to have stepped straight out of Cam's fantasies. Except he's not there as a suitor, but as a bossy bodyguard sent by Cam's crime boss aunt. Her enemies don't care that Cam has no interest in the family business, so Cam reluctantly agrees to go into hiding—not realizing Jake's safe house is a thousand miles away on a remote Nebraska farm, where Jake sheds his leather jacket and handgun for a cowboy hat and a horse. Maybe Cam has no choice but to trust Jake with his safety. But as the summer wears on in this strange land of wild mustangs, old grudges, and thunderstorms, he doesn't dare trust Jake with his heart.

A Marriage Made in Texas Eve Gaddy, 2017-04-19 Second chance romance? Five years ago Dr. Jay Kincaid hit it off with fascinating single mom Gail Summers at his brother's wedding in Redfish, Texas. doctor. Still, a no-strings-attached affair with charming, smoking-hot Jay is just the treat she deserves...isn't it? It is...until an unexpected pregnancy brings their red-hot liaison to a halt. Determined to be there for Gail and their unborn child, Jay proposes, and reluctantly, Gail accepts. Farmed and Dangerous Maddie Day, 2015-05-26 When a bad biddy bites the dust after biting into poisoned produce, a Massachusetts organic farmer must clear her name in this cozy mystery. Cam is finding the New Year in Westbury just as hectic as the old one. Her sometimes rocky relationship with Chef Jake Ericsson is in a deep freeze, she's struggling to provide the promised amount of food to the subscribers in her first winter CSA, and her new greenhouse might just collapse from the weight of the snow. Supplying fresh ingredients for a dinner at the local assisted living facility seems like the least of her worries—until one of the elderly residents dies after eating some of her produce. Cantankerous Bev Montgomery had many enemies, from an unscrupulous real estate developer who coveted her land to an aggrieved care provider fed up with her verbal abuse. But while the motives in this case may be plentiful, the trail of poisoned

produce leads straight back to Cam. Not even her budding romance with police detective Pete Pappas will keep him from investigating her. As the suspects gather, a blizzard buries the scene of the crime under a blanket of snow, leaving Cam stranded in the dark with a killer who gives new meaning to the phrase “dead of winter.” Praise for ‘Til Dirt Do Us Part “There are plenty of farming-based cozies on the market today, but this one stands out.”—Booklist “Engaging. Serpent Galaxy David McElwrath, 2016-09-19 This book's storyline is that of reptilians from the Andromeda Galaxy. The first earth ship to meet the reptilians was not a human ship but an advanced ship of the ancient and advanced race of the Vlar. The Vlar were a very high technology ancient race who expected to have no fear of the Snakes. However, the race of reptilians that were rapidly conquering all civilizations with which they came into contact were now a threat to all races, whatever their level of technology. A century ago, the Vlar never expected to be worried about the Snakes, as all civilizations called them. Their conquests had become so rapid and so had their takeover of advanced civilizations and their technology that they were now a threat to every being in the galaxy. The Vlar gave the earth humans some of their high-tech ships as a kind of last effort since they held the earth humans in such low regard. The Vlar thought of the earth humans as warlike, backward, and vicious animals who killed their own kind. However, there were very few options left open to the Vlar, so they gave the earth humans a few of their ships. The Snakes had millions of high-tech ships that carried thousands of Snake soldiers at several times the speed of light. The Vlar gave the earth humans a few dozen Vlar ships. The Snakes were over seven feet tall and weighed over five hundred pounds. They were equipped with fangs and claws like the Tyrannosaurus rex of old earth history. They liked to fight with hands or blade weapons to see the blood flow. They were cannibals in addition to being carnivores. They considered it honorable to eat your defeated foe, and they were not above eating their own children. The Snakes

used massed ships in the millions to just roll over all the people they intended to conquer. It was expected of any failed Snake expeditions to commit suicide. The Snakes occupied over 1,400 planets and were continuing to conquer more as time went by. Apparently, none could stand before the Snakes. Could the small blue planet called earth have a chance to survive?
