The Wild Men of the East Selamat Munap, 2009-06 A coup followed independence. An emergency rule was declared. The junta turned into a family dictatorship. Gringo, aka Roberto Moktar Moncada Villanueva, a swashbuckling, ambitious, and ruthless mestizo of Arab-Malay and Spanish extraction, gunrunner and procurer of mercenaries for the coup, rose to prominence and riches as the dictatorship consolidated. In time he grew even richer; he was also to spread his wing outside backwater Samudera... Anwar, former student leader steeped in democratic ideals now a government functionary, also rose with the coup. This novel is about the inevitable fragility of the friendships and ideals in the face of greed, ambition and the lust for power as typified by Anwar, who does not hesitate to betray lifelong friendships and shared ideals. It is also about man's natural weakness, propensity for folly, fallibility and corruptibility that often makes it inevitable for predators and wild men of greed, ambition and acquisitiveness like the super-villain Gringo to thrive and prosper even where principled men and idealistic leaders ought to hold sway and be in control.

**Narrative Landmines** Daniel Leonard Bernardi,Pauline Hope Cheong,Chris Lundry,Scott W. Ruston,2012-03-12 Islamic extremism is the dominant security concern of many contemporary governments, spanning the industrialized West to the developing world. Narrative Landmines explores how rumors fit into and extend narrative systems and ideologies, particularly in the context of terrorism, counter-terrorism, and extremist insurgencies. Its concern is to foster a more sophisticated understanding of how oral and digital cultures work alongside economic, diplomatic, and cultural factors that influence the struggles between states and non-state actors in the proverbial battle of hearts and minds. Beyond face-to-face communication, the authors also address the role of new and social media in the creation and spread of rumors. As narrative forms, rumors are suitable to a wide range of political expression, from citizens, insurgents, and governments alike, and in places as distinct as Singapore, Iraq, and Indonesia—the case studies presented for analysis. The authors make a compelling argument for understanding rumors in these contexts as “narrative IEDs,” low-cost, low-tech weapons that can successfully counter such elaborate and expansive government initiatives as outreach campaigns or strategic communication efforts. While not exactly the same as the advanced technological systems or Improvised Explosive Devices to which they are metaphorically related, narrative IEDs nevertheless operate as weapons that can aid the extremist cause.
