Sharing Cities 2020 Iris Wang,Hideaki Ninomiya,Benjamin Gussen,2020-11-26

This book provides valuable insights into how cities are innovating in the field of the sharing economy through case studies. Each chapter explains how different cities have employed the sharing economy to solve their sui generis problems. The concept of Sharing Cities is getting considerable traction with grassroots groups and city governments around the world. Starting with the earliest Sharing City, Seoul, under the efforts of different Sharing Economy Associations and Organizations, more and more cities are being transformed. This book aims to highlight the positive changes that the sharing economy brings to cities and will be a valuable reference to those working in this emerging field.

Sharing Democracy Michael L. Ferguson,2012-10-18

Democratic theorists frequently assume that the people must have something in common, or else democracy will fail. This produces an ironically anti-democratic tendency to emphasize the passive possession of commonality. Sharing Democracy counters this tendency with a radical vision of democracy grounded instead in the active exercise of political freedom.

Spectrum Sharing Constantinos B. Papadias,Tharmalingam Ratnarajah,Dirk T.

M. Slock,2020-03-13 Combines the latest trends in spectrum sharing, both from a research and a standards/regulation/experimental standpoint Written by noted professionals from academia, industry, and research labs, this unique

book provides a comprehensive treatment of the principles and architectures for spectrum sharing in order to help with the existing and future spectrum crunch issues. It presents readers with the most current standardization trends, including CEPT / CEE, eLSA, CBRS, MulteFire, LTE-Unlicensed (LTE-U), LTE WLAN integration with Internet Protocol security tunnel (LWIP), and LTE/Wi-Fi aggregation (LWA), and offers substantial trials and experimental results, as well as system-level performance evaluation results. The book also includes a chapter focusing on spectrum policy reinforcement and another on the economics of spectrum sharing. Beginning with the historic form of cognitive radio, Spectrum Sharing: The Next Frontier in Wireless Networks continues with current standardized forms of spectrum sharing, and reviews all of the technical ingredients that may arise in spectrum sharing approaches. It also looks at policy and implementation aspects and ponders the future of the field. White spaces and data base-assisted spectrum sharing are discussed, as well as the licensed shared access approach and cooperative communication techniques. The book also covers reciprocity-based beam forming techniques for spectrum sharing in MIMO networks; resource allocation for shared spectrum networks; large scale wireless spectrum monitoring; and much more. Contains all the latest standardization trends, such as CEPT / ECC, eLSA, CBRS, MulteFire, LTE-Unlicensed (LTE-U), LTE WLAN integration with Internet Protocol security tunnel (LWIP) and LTE/Wi-Fi aggregation (LWA) Presents a number of emerging technologies for future spectrum sharing

(collaborative sensing, cooperative communication, reciprocity-based beamforming, etc.), as well as novel spectrum sharing paradigms (e.g. in full duplex and radar systems) Includes substantial trials and experimental results, as well as system-level performance evaluation results Contains a dedicated chapter on spectrum policy reinforcement and one on the economics of spectrum sharing Edited by experts in the field, and featuring contributions by respected professionals in the field world wide Spectrum Sharing: The Next Frontier in Wireless Networks is highly recommended for graduate students and researchers working in the areas of wireless communications and signal processing engineering. It would also benefit radio communications engineers and practitioners.

**Access and Benefit Sharing of Genetic Resources, Information and Traditional Knowledge** Charles Lawson, Michelle Rourke, Fran

Humphries, 2022-10-14 Addressing the management of genetic resources, this book offers a new assessment of the contemporary Access and Benefit Sharing (ABS) regime. Debates about ABS have moved on. The initial focus on the legal obligations established by international agreements like the United Nations Convention on Biological Diversity and the form of obligations for collecting physical biological materials have now shifted into a far more complex series of disputes and challenges about the ways ABS should be implemented and enforced. These now cover a wide range of issues, including: digital sequence information, the repatriation of resources, technology transfer, traditional knowledge and cultural expressions, open access to information and knowledge, naming conventions, farmers' rights, new schemes for accessing pandemic viruses sharing DNA sequences, and so on. Drawing together perspectives from an interdisciplinary range of leading and emerging international scholars, this book offers a new approach to the ABS landscape; as it breaks from the standard regulatory analyses in order to explore alternative solutions to the intractable issues for the Access and Benefit Sharing of genetic resources. Addressing these modern legal debates from a perspective that will appeal to both ABS scholars and those with broader legal concerns in the areas of

intellectual property, food, governance, Indigenous issues, and so on, this book will be a useful resource for scholars and students as well as those in government and in international institutions working in relevant areas.

*House Sharing and Young Adults* Vicky Clark, Keith Tuffin, 2022-12-27 *House Sharing and Young Adults* offers unique insight into the dynamics of successful house sharing among young adults and questions some of the myths fostered by the negative stereotyping of housemates. Illustrated with research from interviews with young adults, it explores co-residence, interpersonal relationships and young people's development. Beginning with an overview of the concept and history of house sharing among young adults, Clark and Tuffin's volume also examines the reasons for the lack of research into the area up until recently. It explores key questions, including how young adults choose housemates, what makes a desirable housemate, avoiding complications, the psychological advantages of house sharing, how conflict arises, and the impact of house sharing on adult development. The authors challenge the stigma of shared domesticity, demonstrating the potential of house sharing to enhance well-being through companionship while acknowledging the potential pitfalls caused by tension in intimate settings. *House Sharing and Young Adults* will be essential reading for both undergraduate and

postgraduate students of social psychology, developmental psychology, sociology and anthropology, as well as those interested in group dynamics, housing demographics and discrimination.

**Sharing Research Data to Improve Public Health in Africa** National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Committee on Population, 2015-09-18 Sharing research data on public health issues can promote expanded scientific inquiry and has the potential to advance improvements in public health. Although sharing data is the norm in some research fields, sharing of data in public health is not as firmly established. In March 2015, the National Research Council organized an international conference in Stellenbosch, South Africa, to explore the benefits of and barriers to sharing research data within the African context. The workshop brought together public health researchers and epidemiologists primarily from the African continent, along with selected international experts, to talk about the benefits and challenges of sharing data to improve public health, and to discuss potential actions to guide future work related to public health research data sharing. **Sharing Research Data to Improve Public Health in Africa** summarizes the presentations and discussions from this workshop.

Safety and Security in Hotels and Home Sharing Chelsea A. Binns, Robin J. Kempf, 2020-11-09 This brief comparatively reviews the security and safety

features of hotels and home sharing services. It reviews crime data, laws, and applicable theories – such as defensible space, rational choice, and routine activity theories - to determine how responsibility for crime control and accident prevention in these industries is allotted. This analysis identifies key policy questions about the role of the home sharing hosts and guests in ensuring their own safety and security, which will be of interest to policy makers, researchers and practitioners in criminal justice and law enforcement, as well as those involved in the home sharing and hotel industries.

**Active Balancing of Bike Sharing Systems** Jan Brinkmann, 2020-02-05 This book reports on an operational management approach to improving bike-sharing systems by compensating for fluctuating demand patterns. The aim is to redistribute bikes within the system, allowing it to be “actively” balanced. The book describes a mathematical model, as well as data-driven and simulation-based approaches. Further, it shows how these elements can be combined in a decision-making support system for service providers. In closing, the book uses real-world data to evaluate the method developed and demonstrates that it can successfully anticipate changes in demand, thus supporting efficient scheduling of transport vehicles to manually relocate bikes between stations.

**Enhancing Access to and Sharing of Data Reconciling Risks and Benefits for Data Re-use across Societies** OECD, 2019-11-26 This report examines the

opportunities of enhancing access to and sharing of data (EASD) in the context of the growing importance of artificial intelligence and the Internet of Things. It discusses how EASD can maximise the social and economic value of data re-use and how the related risks and challenges can be addressed. It highlights the trade-offs, complementarities and possible unintended consequences of policy action – and inaction. It also provides examples of EASD approaches and policy initiatives in OECD countries and partner economies.

**Trade Mark Law and Sharing Names** Ilanah Simon Fhima, 2009-01-01 There are a number of points throughout the trade mark system where multiple undertakings share the same name, either unwillingly, or by consent. In this timely book, expert contributors address this controversial issue and identify the various points at which names are shared. This unique book uses both historical and interdisciplinary perspectives, as well as more traditional legal methodology, to examine the practical and theoretical implications of such name sharing for the parties involved. It analyses what can be learned from the sharing process about the nature of the trade mark system and the interests which it protects. General themes relating to the nature and purpose of trade mark law are also discussed. The contributors focus on UK and European law and their detailed treatment of specific trade mark topics

will prove invaluable to postgraduate law students and academics specialising in intellectual property. Legal practitioners will appreciate the up-to-date consideration of concepts important in both contentious and non-contentious trade mark practice and in-house counsel for brand owners will benefit from the expert guidance offered on issues relevant to protecting their trade marks.

### **A Cloud Computing Framework For Sharing Of Cloud Resources And Attacks Information Amongst Cloud Networks** Abdul Waqas,Zulkefli Mohammed

Yusof,Asadullah Shah,2017-03-13 Cloud computing has emerged as a new paradigm for hosting and delivering computing resources over the Internet. This research proposed a cross-cloud communication framework (C3F) for enabling communication among clouds with minimal management burden. Further, it enabled the borrowing and lending of resources among clouds whenever required to fulfil the client requests. It also facilitated to share the information of attacks and intruding entities to cater with same attacks on different clouds. The framework was deployed using web-based prototype development to test and validate the cross-cloud communication. The prototype was developed using open source technologies. Moreover, algorithms were developed using low level description technique for the processes of resource borrowing and lending and, sharing of attacks information. The algorithms were analyzed to test their asymptotic running time complexity, and programmed in accordance with prototype of the study for testing and validation. The results showed

high success rate of 94.4% for sharing of resources among clouds with mean allocation time of 12 microseconds. It was observed that 94.4% of the time clients' requests were fulfilled successfully after borrowing the resources from cloud network. An average of 100% results were collected for protecting multiple clouds from same attack by sharing the attacks and intruders information among clouds in different situations. It is therefore concluded that cross-cloud communication framework can benefit for sharing of resources and attacks information among clouds for efficient resource management and allocation and, protection against same attacks at different clouds.

**Sharing Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Sharing has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Sharing has opened up a

world of possibilities. Downloading Sharing provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Sharing has

democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Sharing. These websites

range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be

cautious while downloading Sharing. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Sharing, users should also consider the potential security risks

associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Sharing has transformed the way we access information. With the convenience, cost-effectiveness, and

accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
