**Ships of the American Revolutionary Navy** Mark Lardas, 2012-01-20 Mark Lardas explores the origins of American warships, primarily light and medium frigates, built for the Continental Navy during the years 1776–1783. This was the first navy of the United States and much of the fleet was comprised of ships that had been modified from existing vessels, converted into warships to provide a crucial service during the American Revolutionary War. Despite having no real funding, this unique fleet had a surprising amount of success against the might of the Royal Navy, and this title discusses the strengths and weaknesses of each design, and the differences between European and American warships of the time. With a close look at how these ships performed in key battles, as well as the exploits of John Paul Jones – the founding father of the United States Navy – this is a complete, illustrated overview of the ships' service and development until France's entry into the war and the subsequent decline in importance of the Continental Navy.

**Ships' Data, U. S. Naval Vessels, 1911-** United States. Navy Department, 1912

**Cruise Ships The Small Scale Fleet** Peter C Smith, 2014-03-31 Peter C. Smith presents us here with the second release in his visually splendid Cruise Ships series. Whilst his first book concerned itself with the large-scale ships currently cruising through our seas (those weighing 40,000 GT and more) this volume focusses on the other end of the market; the ships that weigh in at less than 40,000 GT, but which are often much more stylish and aesthetically pleasing than their larger-scale counterparts. The elegant interiors and luxurious features on display in today's vast fleet of cruise liners remain unrecorded in all but holiday brochures. This book carries on in the tradition of Peter's last release, giving a complete overview of the best of these ships, the cream of the crop, so to speak.??Each colour profile includes external and interior views of the featured ship. Details of the design, building and service history of each vessel are provided with vital statistics of the ship and its facilities.??This is a book of reference for maritime enthusiasts, would-be holiday cruisers and those who have been passengers. It serves as an impressive visual tribute to the best of the smaller scale fleet currently cruising globally.??As seen in the Bedford Times & Citizen.

Sailing into the Past Jenny Bennett, 2009-06-18 This is a book everyone should read. It is the autobiography of an ace, and no common ace either. The boy had all the noble tastes and qualities, love of beauty, soaring imagination, a brilliant endowment of good looks . . . this prince of pilots

. . . had a charmed life in every sense of the word' - George Bernard Shaw  
Sent to France with the Royal Flying Corps at just seventeen, and later a member of the famous 56 Squadron, Cecil Lewis was an illustrious and passionate fighter pilot of the First World War, described by Bernard Shaw in 1935 as 'a thinker, a master of words, and a bit of a poet'. In this vivid and spirited account the author evocatively sets his love of the skies and flying against his bitter experience of the horrors of war, as we follow his progress from France and the battlefields of the Somme, to his pioneering defence of London against deadly night time raids.

*The Romance of the Ship* Edward Keble Chatterton, 1921

**Bureau of Ships Journal** , 1954

The USS Ward Richard P. Klobuchar, 2015-05-20 In 1940, the threat of war in the Pacific forced the United States to expand its fleet quickly. This effort included reconditioning and recommissioning "four stackers" from the navy's reserve fleet. Built in 1918 to fight German submarines, the USS Ward earned at Pearl Harbor the distinction of firing the first shot in America's war against Japan. In the three years that followed, it was bombed, shelled, strafed, and finally sunk (on December 7, 1944), yet none of her crew of 125 men ever lost a life in combat. Information is drawn from naval records as well as from interviews with surviving crewmen. Appendices provide Ward technical data, a chronology of major events, listings of citations earned in World War II and of amphibious landings, and a roster of personnel.

**Stories of Ships and the Sea** Jack London, 2012-08 Dieses Buch enthält fünf kurze Geschichten über Seefahrer, ihre Schiffe und abenteuerliche Reisen. Der Autor Jack London selbst führte ein bewegtes Leben. Am 12. Januar 1876 in San Franzisko geboren und in ärmlichen Verhältnissen aufgewachsen, schlägt er sich als Fabrikarbeiter, Austernpirat, Landstreicher und Seemann durch, holt das Abitur nach, beginnt zu studieren, geht dann als Goldsucher nach Alaska, lebt monatelang im Elendsviertel von London, gerät als Korrespondent im russisch-japanischen Krieg in Gefangenschaft und bereist die ganze Welt. Am 22. November 1916 setzt der berühmte Schriftsteller auf seiner Farm in Kalifornien seinem zuletzt von Alkohol, Erfolg und Extravaganz geprägten Leben ein Ende. Hierbei handelt es sich um eine englischsprachige Ausgabe.

*On a Destroyer 's Bridge* Holloway Halstead Frost, 2017-04-18 Reprint of the original, first published in 1930.

*Battleships* Peter Mavrikis, 2015-12-15 In this engaging volume, readers discover the amazing world of battleships, the biggest and most powerful military ships around. Detailed diagrams and vibrant images give a bird's-eye view of all the parts and complex weaponry used on battleships, from early battleships that ran on steam up through aircraft carrier ships like the USS Nimitz and HMS Invincible. Readers learn how some of today's aircraft carriers run on nuclear power, and how battleships throughout history have relied on heavy, high-tech weaponry to control the open seas.

*The Book of Old Ships* Henry B. Culver, 1992 Of all the ships human beings have constructed to navigate the waters of the world – from a hollowed-out log sharpened at both ends to modern ocean liners weighing thousands of tons – those powered by the wind are among the most interesting and beautiful. In this classic review, noted maritime artist Gordon Grant has created 80 magnificent line illustrations of some of history's most important sailing

ships, beginning with a graceful Egyptian galley (c. 1600 B.C.) and ending with a splendid five-masted clipper ship of 1921. Also depicted are a Roman trireme, a Viking longship, a sixteenth-century caravel, an East Indiaman of 1750, an early nineteenth-century brigantine, a New Bedford whaling bark, and dozens of lesser-known vessels, among them the galleass, carrack, buss, and flute. Henry B. Culver, well-known authority on naval history, has provided a detailed, meticulously researched text for each vessel, describing the materials and details of construction, how the ship's design matched its function, the period in which the vessel flourished, romance and lore surrounding the craft, and more. Naval historians and model shipbuilders will value this work as an excellent sourcebook and reference with much information on the evolution of sailing vessels, the origins of shipping, customs of the sea and other pertinent matters; sailing enthusiasts will find it a wonderful browsing book, offering an informative, handsomely illustrated look back at 3,000 years of sailing history.
