Horace's School Theodore R. Sizer, 1992 Since the late 1970s, Theodore Sizer has studied and worked among hundreds of American high schools. His research was first published in 1984 in *Horace's Compromise*, and since then, the scope of it. Sizer now proposes a process of redesign which respects the best of the rich traditions of secondary schooling while doing far more to educate our youth.

Christian Zionism Stephen Sizer, 2021-09-13 I am glad to commend Stephen Sizer's groundbreaking critique of Christian Zionism. His comprehensive overview of its roots, its theological basis, and its political consequences is very timely. I myself believe that Zionism, both political and Christian, is incompatible with biblical faith. Stephen's book has helped to reinforce this conviction. --Rev. Dr. John Stott I believe Stephen Sizer is one of the most authoritative scholars in the world on the vital issue of Christian Zionism. He is a very important voice speaking out against this destructive movement that is killing us [Palestinians] through its theology. --Canon Naim Ateek Stephen Sizer's *Christian Zionism: Road Map to Armageddon?* is essential reading for any Western evangelical trying to understand the religious dimensions of American support for Israel. Sizer writes as an insider within the church, not as a critic watching from afar. And he shows with exacting clarity how evangelical eschatology has now embedded itself in a modern political ideology. One quick read of this book will change anyone's perspective on the Middle East permanently. --Professor Gary M. Burge Congratulations on *Christian Zionism*. The index alone makes my mouth water, since this is the scholarly treatment to counteract the rabid prophecy pack for which I had been searching. I couldn't be happier that this is published. You and I see eye to eye on this issue. . . . Yours is a true prophetic voice so badly needed in the current prophecy frenzy. And when this mania also affects national and international policy, the danger takes on larger proportions. --Professor Paul Maier Stephen Sizer's work on Christian Zionism is the most important and comprehensive on the subject to date and should be read by all students of the Middle East and by Christians concerned about a just resolution to the Palestinian-Israeli conflict. Christian Zionism raises vital theological and political challenges that must be addressed head-on by Christians in the West, particularly evangelicals. The impact of this terribly misguided movement is increasingly putting Christians in the Middle East at risk, and it seems a far cry from the witness and message of Jesus Christ. --Dr Donald Wagner This study of Christian Zionism, based on Stephen Sizer's doctoral thesis, is of seminal significance. It provides a fascinating survey of the history of Christian Zionism and an in-depth analysis of the theology of this highly important and influential movement. --Rabbi Professor Dan Cohn-Sherbok

Keeping School Deborah Meier, Theodore R.Sizer, Nancy Faust Sizer, 2005-08-15 Education reformers Deborah Meier, Theodore R. Sizer, and Nancy Faust Sizer have published books that have helped shape a movement. As school principals, all three have done another kind of writing as well: short essays in their own schools' newsletters to families. Keeping School collects the best of these wonderfully readable gems of education writing-from an urban public elementary school and an exurban charter high school-along with new essays. Together, the letters form a portrait of what schools can look like when they are based on the authors' understandings of learning, community, authority, and standards.

The Red Pencil Theodore R. Sizer, 2008-10-01 This engaging and important book is a critique of American education wrapped in a memoir. Drawing on his fifty years as teacher, principal, researcher, professor, and dean, Theodore R. Sizer identifies three crucial areas in which policy discussion about public education has been dangerously silent. He argues that we must break that silence and rethink how to educate our youth. Sizer discusses our failure to differentiate between teaching and learning, noting that formal schooling must adapt to and confront the powerful influences found outside traditional classrooms. He examines the practical as well as philosophical necessity for sharing policy-making authority among families, schools, and centralized governments. And he denounces our fetish with order, our belief that the familiar routines that have existed for generations are the only way to bring learning to children. Sizer provides alternatives to these failed routines-guidelines for creating a new educational system that would, among other things, break with wasteful traditional practice, utilize agencies and arrangements beyond the school building, and design each child's educational program around his or her particular needs and potential.
