En smule sandhed ind i løgnen K.G. Brøndsted,2023-12-19 "Om parlamentarismen er en velsignelse for andre lande – med andre valglove – lades her ude af betragtning; for Danmark – enten den nu ligger i folkekaraktern eller i valgloven – har parlamentarismen i dette tilfælde været en forbandelse. Dette vil ikke blive modsagt af andre end dem, der lever højt af parlamentarismen, altså af førerne for det nu regerende folketingsflertal, af disse føreres venner og kreaturer, samt af hele slængen af medinteresserede journalister og politikere." Skal Folketingets flertal vælge ministrene, og kongen bare underskrive som en formalitet? Det blev debatteret overalt i det danske samfund omkring århundredeskiftet, hvor flere og flere begyndte at se kritisk på den måde, det danske folkestyre havde udviklet sig. K.G. Brøndsteds bog fra 1908 argumenterer for kongens vigtighed, når det kommer til at vælge ministre, og fortæller hvor galt det kan gå, når det lades op til Folketinget at vælge ministrene uden om kongen. K.G. Brøndsted (1851-1945) var cand.phil. og forfatter fra Sønderjylland. Brøndsted udgav et antal bøger, men er nok mest husket for sin danske oversættelse af Marcus Aurelius' "Tanker til sig selv".

The Oxford Handbook of Community Singing Esther M. Morgan-Ellis,Kay Norton,2024 The Oxford Handbook of Community Singing shows in abundant detail that singing with others is thriving. Using an array of interdisciplinary methods, chapter authors prioritize participation rather than

performance and provide finely grained accounts of group singing in community, music therapy, religious, and music education settings. Themes associated with protest, incarceration, nation, hymnody, group bonding, identity, and inclusivity infuse the 47 chapters. Written almost wholly during the 2020-21 COVID-19 pandemic, the Handbook features a section dedicated to collective singing facilitated by audiovisual or communications media (mediated singing), some of it quarantine-mandated. The last of eight substantial sections is a repository of new theories about how group singing practices work. Throughout, the authors problematize the limitations inherited from the western European choral music tradition and report on workable new remedies to counter those constraints--

The Oxford Handbook of Mobile Music Studies, Volume 2 Sumanth Gopinath, Jason Stanyek, 2014-03 The two volumes of The Oxford Handbook of Mobile Music Studies consolidate an area of scholarly inquiry that addresses how mechanical, electrical, and digital technologies and their corresponding economies of scale have rendered music and sound increasingly mobile-portable, fungible, and ubiquitous. At once a marketing term, a common mode of everyday-life performance, and an instigator of experimental aesthetics, mobile music opens up a space for studying the momentous transformations in the production, distribution, consumption, and experience of music and sound that took place between the late nineteenth and the early twenty-first centuries. Taken together, the two volumes cover a large swath of the world-the US, the UK, Japan, Brazil, Germany, Turkey, Mexico, France, China, Jamaica, Iraq, the Philippines, India, Sweden-and a similarly broad array of the musical and nonmusical sounds suffusing the soundscapes of mobility. Volume 2 investigates the ramifications of mobile music technologies on musical/sonic performance and aesthetics. Two core arguments are that mobility is not the same thing as actual movement and that artistic production cannot be absolutely sundered from the performances of quotidian life. The volume's chapters investigate the mobilization of frequency range by sirens and miniature speakers; sound vehicles such as boom cars, ice cream trucks, and trains; the gestural choreographies of soundwalk pieces and mundane interactions with digital media; dance music practices in laptop and iPod DJing; the imagery of iPod commercials; production practices in Turkish political music and black popular music; the aesthetics of handheld video games and chiptune music; and the mobile device as a new musical instrument and resource for musical ensembles.
