HTML, CSS, Bootstrap, Php, Javascript and MySql Olga Maria Stefania

Cucaro,2022-02-08 This book aims to initiate those who want to independently create a website, to the world of domains and programming linked to the web. The author conceived this work as a scientific work intended for educational and study use for all those who approach the study of client-side and server-side programming. In the first place the difference between the various domains existing on the network will be explained and at a later time we will try to explain the CSS and HTML and then enter the PHP programming (server side) and JavaScript (client side) with the creation of databases via phpMyAdmin. All this will be explained through an example website created specifically using a free

Bootstrap for simplicity and basic convenience and programming a control panel with login connected to the site via database for inserting images directly from the web by uploading them to the database created with connected phpMyAdmin to the site. Obviously, after entering the world of databases and programming, you can apply this knowledge to any other need for iteration by the user required by the site project. The aim of this study is not to create simple web pages that today can be done easily with WordPress or other easy-to-use software, but for purely educational purposes to explain the use of databases and server and client-side programming to make a dynamic otherwise static site. In summary, this work can be useful for those who want to approach the fascinating world of website programming from the beginning.

Goldwyn A. The American Healing Guide George Charles Anter,2018-06-25 Hello there. When I was thirty-eight years old, I discovered that I am the original Jesus Christ, and when that happened, I knew for sure that this was the greatest discovery that was a culmination of every great discovery and accomplishment that came before. At that point, as the scientist that I am, I knew that my duty to the world was to write down every one of my thoughtforms to share with humanity because my thoughtforms allow all to live their Christ-selves effortlessly because they actually make up the divine superstructure of the universe. So in reading these thoughtforms, they are being activated in your true awareness so that you are able to consciously understand what makes up the original Christ mind and what bridges the gap into your real Christ-self. This book is part 1 of the construction of the fifth dimension because as Christ, I was able to defeat Satan in the Battle of Armageddon. I will describe in depth how that happened, and that started the fifth dimension, of which these thoughtforms are the divine bolts that were invented by me to allow us effortless divinity.

Sasha Cliff Bacchus,2023-08-18 Sasha is a historical novel, set in an insulated community, Sigatoo Isle, Bahamas, exploring the dangers of acculturation, particularly

intra-matrimony, which can have lasting and rapacious effects on its population. Hannah Watts, a wilful, young woman dealing with multiple sclerosis, is committed to lifting the black veil off the notorious practice of marriages among first cousins in her town and her island. Captivating, confronting, and evocative novel, *Sasha* offers a unique addition to the genre in its character-driven emotional basis while remaining a thought-provoking read with a contemporary approach. Hannah's quest to improve her homeland is enthralling, written with a compelling honesty well-paced against the dramatic, at times, heart-breaking twists and turns. This works to combine a deep emotional effect with a compulsion that drags the reader to the edge of their seat beyond the final dramatic moments.

Condé Nast Susan Ronald, 2019-09-03 The first biography in over thirty years of Condé Nast, the pioneering publisher of Vogue and Vanity Fair and main rival to media magnate William Randolph Hearst. Condé Nast's life and career was as high profile and glamorous as his magazines. Moving to New York in the early twentieth century with just the shirt on his back, he soon became the highest paid executive in the United States, acquiring Vogue in 1909 and Vanity Fair in 1913. Alongside his editors, Edna Woolman Chase at Vogue and Frank Crowninshield at Vanity Fair, he built the first-ever international magazine empire, introducing European modern art, style, and fashions to an American audience. Credited with creating the "café society," Nast became a permanent fixture on the international fashion scene and a major figure in New York society. His superbly appointed apartment at 1040 Park Avenue, decorated by the legendary Elsie de Wolfe, became a gathering place for the major artistic figures of the time. Nast launched the careers of icons like Cecil Beaton, Clare Boothe Luce, Lee Miller, Dorothy Parker and Noel Coward. He left behind a legacy that endures today in media powerhouses such as Anna Wintour, Tina Brown, and

Graydon Carter. Written with the cooperation of his family on both sides of the Atlantic and a dedicated team at Condé Nast Publications, critically acclaimed biographer Susan Ronald reveals the life of an extraordinary American success story.
