Jim Jansen

Understanding Sponsored Search Jim Jansen, 2011-07-25 This book addresses the underlying foundational elements, both theoretical and methodological, of sponsored search. As such, the contents are less affected by the ever-changing implementation aspects of technology. Rather than focusing on the how, this book examines what causes the how. Why do certain keywords work, while others do not? Why does that ad work well, when others that are similar do not? Why does a key phrase cost a given amount? Why do we measure what we do in keyword advertising? This book speaks to that curiosity to understand why we do what we do in sponsored search. The content flows through the major components of any sponsored search effort, regardless of the underlying technology or client or product. The book addresses keywords, ads, consumers, pricing, competitors, analytics, branding, marketing and advertising, integrating these separate components into an incorporated whole. The focus is on the critical elements, with ample illustrations and with enough detail to lead the interested reader to further inquiry.

Sponsored Noncitizens and Public Benefits Jerald E. Levine, 2010 Fed. law restricts noncitizens' access to public benefits, incl. Temporary Assist. for Needy Families (TANF), Medicaid, the Supplemental Nutrition Assist. Program (SNAP), and Suppl. Security Income (SSI). Further, when noncitizens who legally reside in this country through sponsorship of a family member apply for these benefits, they are subject to sponsor "deeming", which requires benefit agencies to combine noncitizens' incomes with those of their sponsors to determine eligibility. This report analyzes: (1) what is known about the size of the non-citizen population potentially affected by the sponsor deeming

requirements for TANF, Medicaid, SNAP, and SSI; (2) have agencies implemented sponsor deeming, and sponsor repay. Ill.

Firm-Sponsored Developers in Open Source Software Projects Dirk

Homscheid,2020-10-21 This research aims at synthesizing literature on social capital theory and OSS communities to arrive at a conceptual model of social capital and individuals' value creation in OSS communities. Accordingly, it targets at replicating prior research that used social capital to predict diverse forms of outcome by using alternative operationalizations of the different social capital dimensions as well as forms of outcome and includes firm-sponsorship as moderator into the models. As a result of this research, it can be noted that the proven relationship between an OSS contributor's social capital and his created value is affected by firm-sponsorship. Furthermore, it could be shown that the proven relationship between an OSS contributor's social capital and associated individual outcomes is not affected by firm-sponsorship.

The Sponsored Life Leslie Savan, 2010-06-17 How does a blatant lying in TV commercials—like Joe Isuzu's manic claims—create public trust in a product or a company? How does a company associated with a disaster, Exxon or Du Pont for example, restore its reputation? What is the real story behind the rendering of the now infamous Joe Camel? And what is the deeper meaning of living in an ad, ad, ad world? For a decade, journalist Leslie Savan has been exposing the techniques used by advertisers to push products and pump up corporate images. In the lively essays in this collection, Savan penetrates beneath the slick surfaces of specific ads and marketing campaigns to show how they reflect and shape consumer desires. Savan's interviews with ad agencies and corporate clients—along with her insightful analyses of influential TV spots—reveal how successful advertising works. Ads do more than command attention. They are signposts to the political, cultural, and social trends that infiltrate the individual consumer's psyche. Think of the products associated with corporate mascots—the drum-beating bunny, the cereal-pushing tiger, the doughboy—that have become pop culture icons. Think cool.

Think of the clothing manufacturer that uses multiracial imagery. Think progressive. Buy their worldview, buy their product. When virtually every product can be associate with some positive self-image, we are subtly refashioned into the advertiser's concept of a good citizen. Like it or not, we lead the sponsored life.

State-Sponsored Activism Jessica Rich,2019-03-14 In State-Sponsored Activism, Rich explores AIDS policy in Brazil as a lens to offer new insight into the impact of democratization and neoliberal reforms on state-society relations. In contrast to the view from traditional approaches that highlight the demise of corporatism, Rich argues that corporatism did not disappear but instead shifted to different sectors of the state, and to different segments of society. State-Sponsored Activism presents a new approach to understanding civic organization and mobilization at the start of the twenty-first century, and is a unique contribution to the literature on state-society relations. A rich examination of one the most influential movements in Latin America, this book argues that bureaucrats have helped to mobilize new national advocacy coalitions, and overall challenges the consensus view that corporatism is a relic of the past.

Determinants of Gross Human Rights Violations by State and State-sponsored Actors in Brazil, Uruguay, Chile, and Argentina, 1960-1990 Wolfgang S. Heinz, Hugo Frühling, 2021-09-27 This book deals with the gross human rights violations that characterized the military repression in Argentina, Brazil, Chile and Uruguay from the 1960s to the 1980s. Dr Wolfgang Heinz, the author of three of the four case studies is a German scholar. The second author, Dr Hugo Frühling, is a Chilean researcher. Both are renowned human rights specialists who have done in-depth research on the causes of gross human rights violations in these countries. They have interviewed generals and officers directly involved in the repression. They have unearthed secret documents and, building on existing scholarship, they have managed to draw a unique picture of the mechanisms of repressive domestic social control. They have investigated international factors as well as the dynamics of the interaction between guerrilleros and urban

terrorists on the one hand, and the military, the police forces and the death squads on the other. The result is a comprehensive volume, broad and comparative in scope, and written with clinical detachment but also with humanitarian sympathy for the victims of repression.
