The Studio SOS Book Paul White,Hugh Robjohns,Dave Lockwood,2013-05-29 Professional studio design is a specialized science, with more than a touch of black magic thrown in. Over the past few years, Sound on Sound magazine has made one trip each month to a reader's studio. These visits have demonstrated that it is fairly simple to make a huge improvement to an untreated project-studio room, without spending a fortune. However, they've also proven that beginners' attempts at DIY acoustic treatments often cause more problems than they solve. Utilizing knowledge from dozens of visits to readers' home and project studios, the SOS team imparts easy-to-understand, organized troubleshooting advice. Learn how to rid yourself of monitoring problems and get an accurate monitoring system, how to enhance the sound of your recording space, and how to perfect your instrumental and vocal recordings. Decrease the time you spend re-recording and mixing, simply by improving your room with advice from the guys who have seen it all when it comes to make-do small studios. Contains: A structured look at the problems that most often plague small studios, with individual studio case studies addressing each issue Real solutions that you can both afford and implement; no thousand-dollar investments or idealized studio designs that don't work with your space! Case studies that look at small studios' specific problems, with additional break-outs tips that address quick fixes to common problems

Inside the Painter's Studio Joe Fig,2012-06-19 Inside an art gallery, it is easy to forget that the paintings there are the end products of a process involving not only creative inspiration, but also plenty of physical and logistical details. It is these cruder, more mundane aspects of a painter's daily routine that motivated Brooklyn artist Joe Fig to embark almost ten years ago on a highly unorthodox, multilayered exploration of the working life of the professional artist. Determined to ground his research in the physical world, Fig began constructing a series of diorama-like miniature reproductions of the studios of modern art's most legendary painters, such as Jackson Pollock and Willem de Kooning. A desire for firsthand references led Fig to approach contemporary artists for access to their studios. Armed with a camera and a self-made Artist's Questionnaire, Fig began a journey through the workspaces of some of today's most exciting contemporary artists.

Shoebox Studio Stéphane Coutelle,Camille Saint-Jacques,2012 Shoebox Studio records a moment in a fashion model's career that is rarely seen by a wider public: the model's first getting-acquainted photoshoot, in which no attempt is made to beautify or exaggerate her face, pose or expression. Having produced photo campaigns for some of the world's premier beauty clients (Lancôme, L'Oréal, Revlon), French photographer and painter Stéphane Coutelle is ideally placed to make these portraits of vulnerability and aspiration: his Shoebox Studio sees an unending parade of young women, newly arrived from all over the world and pursuing their first career. His first meeting with a model aims to establish their character and psychology, before professional reflexes take hold, and before complicity is established between photographer and model. Shoebox Studio gathers portraits of aspiring models taken between 2006 and 2010.

Studio Studies Ignacio Farías,Alex Wilkie,2015-10-14 Consider the vast array of things around you, from the building you are in, the lights illuminating the interior, the computational devices mediating your life, the music in the background, even the crockery, furniture and glassware you are in the presence of. Common to all these objects is that their concrete, visual and technological forms were invariably conceived, modelled, finished and tested in sites characterised as studios. Remarkably, the studio remains a peculiar lacuna in our understanding of how cultural artefacts are brought into being and how ‘creativity’ operates as a located practice. Studio Studies is an agenda setting volume that presents a set of empirical case studies that explore and examine the studio as a key setting for aesthetic and material production. As such, Studio Studies responds to three contemporary concerns in social and cultural thought: first, how to account for the situated nature of creative and cultural production; second, the challenge of reimagining creativity as a socio-materially distributed practice rather than the cognitive privilege of the individual; and finally, to unravel the parallels, contrasts and interconnections between studios and other sites of cultural-aesthetic and technoscientific production, notably laboratories. By enquiring into the operations, topologies and displacements that shape and format studios, this volume aims to demarcate a novel and important object of analysis for empirical social and cultural research as well to develop new conceptual repertoires to unpack the multiple ways studio processes shape our everyday lives.

In the Studio Brian R. Jacobson,2020-07-21 Studios are, at once, material environments and symbolic forms, sites of artistic creation and physical labor, and nodes in networks of resource circulation. They are architectural places that generate virtual spaces—worlds built to build worlds. Yet, despite being icons of corporate identity, studios have faded into the background of critical discourse and into the margins of film and media history. In response, In the Studio demonstrates that when we foreground these worlds, we gain new insights into moving-image culture and the dynamics that quietly mark the worlds on our screens. Spanning the twentieth century and moving globally, this unique collection tells new stories about studio icons—Pinewood, Cinecittà, Churubusco, and CBS—as well as about the experimental workplaces of filmmakers and artists from Aleksandr Medvedkin to Charles and Ray Eames and Hollis Frampton.

Motorhead - In The Studio Jake Brown,2011-07-04 Iron Maiden are without one of heavy metal's most successful indie bands. From their first album in 1980 they have led the way in the New Wave of British Heavy Metal with Billboard pointing out they have 'always been an underground attraction'. Though other pioneering peers like Metallica have been around on the scene just as long provided their own innovations metal and advanced the genre to a mainstream level, it was Iron Maiden who have been the fans' favourites. Their crossover to chart success showed many bands how it could be done. They were key in getting heavy metal to be accepted as a credible genre.
