**Sumatra** Edwin Meyer Loeb,Robert Heine-Geldern,1989 The fourth largest island in the world and home of the orangutan and flying fox, Sumatra has a long, colorful, and not widely-known history. First published in Vienna in 1935, Edwin M. Loeb's fascinating study has served as the only history of the island and its people available in English since William Marsden's *The History of Sumatra* appeared in 1783. Even today, it remains the only general book in English to explore Sumatra as a whole. Remarkably thorough in its coverage, *Sumatra: Its History and People* offers detailed accounts of the economic life, society, and religion of all of Sumatra's regions from Aceh in the north through the lands of the Batak and Minangkabau to Lampung in the south. Loeb provides an insider's view into the societal conditions of Sumatra, including land rights, marriage restrictions, totemism, childbirth, puberty ceremonies, divorce, position of women, cosmology and cosmogony, death and the afterlife, witchcraft, industries, and much more. The book also covers the islands of Nias, the Mentawai group, and Enggano, and includes a separate section on archaeology and art. This invaluable survey of the whole island will particularly appeal to the non-specialist reader in search of reliable information about this exotic land.

**Ecology of Sumatra** Tony Whitten,Sengli J. Damanik,2012-06-26 *The Ecology of Sumatra* distills for the first time the information found in nearly 1,500 scholarly works relevant to an understanding of the full range of natural and man-made ecosystems on the island—many of them available only in Dutch, German or Indonesian. It was originally prepared by a team working at the Centre for Resource and Environmental Studies (CRES) at the University of North Sumatra to supplement existing documents. This new version is aimed at general readers and includes a section on recent development on Sumatra, as well as an additional bibliography of recent publications. It contains hundreds of line drawings, tables, maps and photographs. It is hoped that *The Ecology of Sumatra* will prove useful to resource managers, ecologists, environmental scientists and local government personnel, and be enlightening to Sumatra's inhabitants and visitors. It should also be of great interest to anyone wanting to learn about Southeast Asian biology.

*The History of Sumatra Containing an Account of the Government, Laws, Customs, and Manners of the Native Inhabitants, with a Description of the Natural Productions, and a Relation of the Ancient Political State of that Island* ,1811

The History of Sumatra William Marsden,2013-05-02 The island of Sumatra, which, in point of situation and extent, holds a conspicuous rank on the terraqueous globe, and is surpassed by few in the bountiful indulgences of nature, has in all ages been unaccountably neglected by writers insomuch that it is at this day less known, as to the interior parts more especially, than the remotest island of modern discovery; although it has been constantly resorted to by Europeans for some centuries, and the English have had a regular establishment there for the last hundred years. It is true that the commercial importance of Sumatra has much declined. It is no longer the Emporium of Eastern riches whither the traders of the West resorted with their cargoes to exchange them for the precious merchandise of the Indian Archipelago: nor does it boast now the political consequence it acquired when the rapid progress of the Portuguese successes there first received a check. That enterprising people, who caused so many kingdoms to shrink from the terror of their arms, met with nothing but disgrace in their attempts against Achin, whose monarchs made them tremble in their turn. Yet still the importance of this island in the eye of the natural historian has continued undiminished, and has equally at all periods laid claim to an attention that does not appear, at any,

to have been paid to it. The Portuguese being better warriors than philosophers, and more eager to conquer nations than to explore their manners or antiquities, it is not surprising that they should have been unable to furnish the world with any particular and just description of a country which they must have regarded with an evil eye. The Dutch were the next people from whom we had a right to expect information. They had an early intercourse with the island, and have at different times formed settlements in almost every part of it; yet they are almost silent with respect to its history.\* But to what cause are we to ascribe the remissness of our own countrymen, whose opportunities have been equal to those of their predecessors or contemporaries? It seems difficult to account for it; but the fact is that, excepting a short sketch of the manners prevailing in a particular district of the island, published in the Philosophical Transactions of the year 1778, not one page of information respecting the inhabitants of Sumatra has been communicated to the public by any Englishman who has resided there.

**A Japanese Memoir of Sumatra, 1945-1946** Takao Fusayama, 2010 One of our chief reservations in publishing the memoir lay in the author's description of it as a documentary novel,

but we discovered that the fictions in the narrative relate mainly to Dr. Fusayama's dramatization of the action by putting into direct speech his memories of the general tenor of his conversations with some of the major protagonists. As he notes in his Preface, he recorded his recollections immediately after his repatriation to Japan, and it is evident that his rendition of the events he witnessed are true to his perceptions at the time. --

Prelude to the Monsoon G. F. Jacobs, 2016-11-11 When Major Gideon Francois Jacobs of the British Royal Marines parachuted into the jungle of north Sumatra in the summer of 1945, he entered a world little known to Westerners. . . . It seemed to be a wild, primitive island where little of historical significance had happened or was likely to happen. So begins the Introduction to one of the most remarkable memoirs of World War II. The drama it captures is one that has been scarcely recognized in the West. Beginning with Japanese surrender to the Allies on Sumatra, the narrative details the welter of international forces that struggled for dominance on the island until native uprisings forced the establishment of the new Indonesian republic. The story is told by the very man whose assignment it was to take control of Sumatra from 80,000 vanquished Japanese troops and to oversee the liberation of all prisoner-of-war camps: G. F. Jacobs, a twenty-three-year-old major in the Royal Marines. Through the eyes of young Major Jacobs, a full view emerges of the boiling cauldron that was Sumatra in 1945. In spite of the official Allied victory, Jacobs had to attempt to rule Sumatra using the existing Japanese military structure until British relief arrived. He describes his dealings with the Japanese, who were reluctant to admit defeat, and his relations with other elements of the ravaged Sumatran population, which included Europeans such as the Dutch, British, and Swiss. Indonesian insurgents lurk on the horizon as the internal movement for independence begins. Jacobs's cast of characters reflects the tensions and interests of their own nations, and he must grapple with their values and attitudes along with his own. Jacobs's personal eyewitness account of the developments in Sumatra immediately after the Japanese surrender in August of 1945 combines the excitement and adventure of a fast-paced novel with a valuable record of a lost portion of history. Eclipsed by events in other parts of the world, the drives for power that surged through Indonesia after the war have never been recounted fully. This book is a historical document of a period that has left an indelible imprint upon the history of modern Asia. An introduction by the noted American military historian D. Clayton James provides a historical and political context for Jacobs's exciting story.
