The Untold Story of the Talking Book Matthew Rubery, 2016-11-14 A history of audiobooks, from entertainment & rehabilitation for blinded World War I soldiers to a twenty-first-century competitive industry. Histories of the book often move straight from the codex to the digital screen. Left out of that familiar account are nearly 150 years of audio recordings. Recounting the fascinating history of audio-recorded literature, Matthew Rubery traces the path of innovation from Edison's recitation of "Mary Had a Little Lamb" for his tinfoil phonograph in 1877, to the first novel-length talking books made for blinded World War I veterans, to today's billion-dollar audiobook industry. *The Untold Story of the Talking Book* focuses on the social impact of audiobooks, not just the technological history, in telling a story of surprising and impassioned conflicts: from controversies over which books the Library of Congress selected to become talking books—yes to Kipling, no to Flaubert—to debates about what defines a reader. Delving into the vexed relationship between spoken and printed texts, Rubery argues that storytelling can be just as engaging with the ears as with the eyes, and that audiobooks deserve to be taken seriously. They are not mere derivatives of printed books but their own form of entertainment. We have come a long way from the era of sound recorded on wax cylinders, when people imagined one day hearing entire novels on mini-phonographs tucked inside their hats. Rubery tells the untold story of this incredible evolution and, in doing so, breaks from convention by treating audiobooks as a distinctively modern art form that has profoundly influenced the way we read. Praise for *The Untold Story of the Talking Book* "If audiobooks are relatively new to your world, you might wonder where they came from and where they're going. And

for general fans of the intersection of culture and technology, *The Untold Story of the Talking Book* is a fascinating read.” —Neil Steinberg, *Chicago Sun-Times* “[Rubery] explores 150 years of the audio format with an imminently accessible style, touching upon a wide range of interconnected topics . . . Through careful investigation of the co-development of formats within the publishing industry, Rubery shines a light on overlooked pioneers of audio . . . Rubery’s work succeeds in providing evidence to ‘move beyond the reductive debate’ on whether audiobooks really count as reading, and establishes the format’s rightful place in the literary family.” —Mary Burkey, *Booklist* (starred review)

The Talking Book Allen Dwight Callahan, 2008-10-01 *The Talking Book* casts the Bible as the central character in a vivid portrait of black America, tracing the origins of African-American culture from slavery’s secluded forest prayer meetings to the bright

lights and bold style of today's hip-hop artists. The Bible has profoundly influenced African Americans throughout history. From a variety of perspectives this wide-ranging book is the first to explore the Bible's role in the triumph of the black experience. Using the Bible as a foundation, African Americans shared religious beliefs, created their own music, and shaped the ultimate key to their freedom—literacy. Allen Callahan highlights the intersection of biblical images with African-American music, politics, religion, art, and literature. The author tells a moving story of a biblically informed African-American culture, identifying four major biblical images—Exile, Exodus, Ethiopia, and Emmanuel. He brings these themes to life in a unique African-American history that grows from the harsh experience of slavery into a rich culture that endures as one of the most important forces of twenty-first-century America.

No Talking Andrew Clements, 2012-03-13 In *No Talking*, Andrew Clements portrays a battle of wills between some spunky kids and a creative teacher with the perfect pitch for elementary school life that made *Frindle* an instant classic. It's boys vs. girls when the noisiest, most talkative, and most competitive fifth graders in history challenge one another to see who can go longer without talking. Teachers and school administrators are in an uproar, until an innovative teacher sees how the kids' experiment can provide a terrific and unique lesson in communication.

Women Talking Miriam Toews, 2019-04-02 The basis of the Oscar-winning film from writer/director Sarah Polley, starring Rooney Mara, Claire Foy, Jessie Buckley, with Ben Whishaw and Frances McDormand. INTERNATIONAL BESTSELLER "This amazing, sad, shocking, but touching novel, based on a real-life event, could be right out of The

Handmaid's Tale.” -Margaret Atwood, on Twitter Scorching . . . a wry, freewheeling novel of ideas that touches on the nature of evil, questions of free will, collective responsibility, cultural determinism, and, above all, forgiveness. -New York Times Book Review, Editors' Choice One evening, eight Mennonite women climb into a hay loft to conduct a secret meeting. For the past two years, each of these women, and more than a hundred other girls in their colony, has been repeatedly violated in the night by demons coming to punish them for their sins. Now that the women have learned they were in fact drugged and attacked by a group of men from their own community, they are determined to protect themselves and their daughters from future harm. While the men of the colony are off in the city, attempting to raise enough money to bail out the rapists and bring them home, these women—all illiterate, without any knowledge of the world outside their community and unable even to speak the language of the country they live in—have very little time to make a choice: Should they stay in the only world they've ever known or should they dare to escape? Based on real events and told through the “minutes” of the women's all-female symposium, Toews's masterful novel uses wry, politically engaged humor to relate this tale of women claiming their own power to decide.

Now You're Talking Trevor Cox, 2018-09-18 A history of how humans developed our capacity for conversation—and what might happen now that computers are catching up. Trevor Cox has been described by The Observer as a David Attenborough of the acoustic realm. In Now You're Talking, he takes us on a journey through the wonders of human speech, starting with the evolution of language and our biological capability to speak (and

listen), and bringing us up to date with the latest computer technology. Language is what makes us human, and how we speak is integral to our personal identity. But with the invention of sound recording and the arrival of the electrified voice, human communication changed forever; now advances in computer science and artificial intelligence are promising an even greater transformation. And with it come the possibilities to reproduce, manipulate, and replicate the human voice—sometimes with disturbing consequences. *Now You're Talking* is the fascinating story of our ability to converse. It takes us back to the core of our humanity, asking important questions about what makes us human and how this uniqueness might be threatened. On this illuminating tour we meet vocal coaches and record producers, neuroscientists and computer programmers, whose experience and research provide us with a deeper understanding of something that most of us take for granted—our ability to talk and listen.

Talking to Strangers Malcolm Gladwell, 2019-09-10 Malcolm Gladwell, host of the podcast *Revisionist History* and author of the #1 New York Times bestseller *Outliers*, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? *Talking to Strangers* is a classically

Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller *David and Goliath*, Malcolm Gladwell has written a gripping guidebook for troubled times.

Talking to Strangers Malcolm Gladwell, 2020-03-02 Mengapa interaksi kita dengan orang tak dikenal sering kali keliru? Penghentian pelanggaran lalu lintas rutin yang berakhir dengan tragedi. Mata-mata yang bertahun-tahun tak terdeteksi di tingkat tertinggi Pentagon. Mengapa kita sering sekali keliru memahami orang lain? Mengapa sukar sekali mendeteksi kebohongan, membaca wajah, atau menilai motif orang tak dikenal? Melalui serangkaian pertemuan dan kesalahpahaman—dari sejarah, psikologi, sampai kasus hukum terkenal—Malcolm Gladwell membawa kita dalam suatu petualangan intelektual ke sisi gelap hakikat manusia, ketika orang tak dikenal ternyata tidak sederhana, dan kekeliruan membaca orang tak dikenal bisa berakibat bencana. Tidak ada yang menantang asumsi umum sebagaimana Malcolm Gladwell. Di sini dia menggunakan kisah penipuan dan kekeliruan fatal untuk mempertanyakan strategi kita menghadapi orang tak dikenal, mengajak kita berpikir ulang pada era baru yang penuh kemelut ini. Kirkus

Reviews ÒSaya suka buku ini ... membacanya bukan hanya benar-benar mengubah cara kita melihat orang tak dikenal, melainkan juga cara kita memandang diri sendiri, berita, dan dunia. Buku ini mengubah saya.Ó Oprah Winfrey

No One Is Talking About This Patricia Lockwood, 2021-02-16 FINALIST FOR THE 2021 BOOKER PRIZE & A NEW YORK TIMES TOP 10 BOOK OF 2021 WINNER OF THE DYLAN THOMAS PRIZE “A book that reads like a prose poem, at once sublime, profane, intimate, philosophical, witty and, eventually, deeply moving.” —New York Times Book Review, Editors’ Choice “Wow. I can’t remember the last time I laughed so much reading a book. What an inventive and startling writer...I’m so glad I read this. I really think this book is remarkable.” —David Sedaris From a formidably gifted writer (The New York Times Book Review), a book that asks: Is there life after the internet? As this urgent, genre-defying book opens, a woman who has recently been elevated to prominence for her social media posts travels around the world to meet her adoring fans. She is overwhelmed by

navigating the new language and etiquette of what she terms the portal, where she grapples with an unshakable conviction that a vast chorus of voices is now dictating her thoughts. When existential threats--from climate change and economic precariousness to the rise of an unnamed dictator and an epidemic of loneliness--begin to loom, she posts her way deeper into the portal's void. An avalanche of images, details, and references accumulate to form a landscape that is post-sense, post-irony, post-everything. Are we in hell? the people of the portal ask themselves. Are we all just going to keep doing this until we die? Suddenly, two texts from her mother pierce the fray: Something has gone wrong, and How soon can you get here? As real life and its stakes collide with the increasingly absurd antics of the portal, the woman confronts a world that seems to contain both an abundance of proof that there is goodness, empathy, and justice in the universe, and a deluge of evidence to the contrary. Fragmentary and omniscient, incisive and sincere, *No One Is Talking About This* is at once a love letter to the endless scroll and a profound, modern meditation on love, language, and human connection from a singular voice in American literature.

Talking Voices Deborah Tannen, 2007-10-18 Written in readable, vivid, non-technical prose, this book, first published in 2007, presents the highly respected scholarly research that forms the foundation for Deborah Tannen's best-selling books about the role of language in human relationships. It provides a clear framework for understanding how ordinary conversation works to create meaning and establish relationships. A significant theoretical and methodological contribution to both linguistic and literary analysis, it uses transcripts of tape-recorded conversation to demonstrate that everyday conversation is

made of features that are associated with literary discourse: repetition, dialogue, and details that create imagery. This second edition features a new introduction in which the author shows the relationship between this groundbreaking work and the research that has appeared since its original publication in 1989. In particular, she shows its relevance to the contemporary topic 'intertextuality', and provides a useful summary of research on that topic.

Talking with the Pencil William Swinton, 1898

Talking from 9 to 5 Deborah Tannen, 1995-09-01 Your project went off without a hitch--but somebody else got the credit...You averted a crisis brilliantly--but no one noticed...You came to the meeting with a sensational idea--but it was ignored until someone else said the same thing... HOW CAN YOU GET CREDIT & GET AHEAD? In her extraordinary international bestseller, *You Just Don't Understand*, Deborah Tannen transformed forever the way we look at intimate relationships between women and men. Now she turns her keen ear and observant eye toward the workplace--where the ways in which men and women communicate can determine who gets heard, who gets ahead, and what gets done. An instant classic, *Talking From 9 to 5* brilliantly explains women's and men's conversational rituals--and the language barriers we unintentionally erect in the business world. It is a unique and invaluable guide to recognizing the verbal power games and miscommunications that cause good work to be underappreciated or go unnoticed--an essential tool for promoting more positive and productive professional relationships among men and women.
