**Chain of Title** David Dayen,2016-05-17 In the depths of the Great Recession, a cancer nurse, a car dealership worker, and an insurance fraud specialist helped uncover the largest consumer crime in American history—a scandal that implicated dozens of major executives on Wall Street. They called it foreclosure fraud: millions of families were kicked out of their homes based on false evidence by mortgage companies that had no legal right to foreclose. Lisa Epstein, Michael Redman, and Lynn Szymoniak did not work in government or law enforcement. They had no history of anticorporate activism. Instead they were all foreclosure victims, and while struggling with their shame and isolation they committed a revolutionary act: closely reading their mortgage documents, discovering the deceit behind them, and building a movement to expose it. Fiscal Times columnist David Dayen recounts how these ordinary Floridians challenged the most powerful institutions in America armed only with the truth—and for a brief moment they brought the corrupt financial industry to its knees.

Former professional ballerina Valorie Kondos Field--or Miss Val, as she's affectionately known--has never tumbled, flipped, or even played any type of organized sports, and yet she has been able to craft a legendary coaching career through curiosity, creativity, attention to detail, and unwavering care for the overall well-being of her athletes. For Miss Val, it's not about winning and losing, it's about choreographing your life and owning the choices you make. Miss Val has shaped her UCLA Gymnastics program as a life skills class and now she's sharing those lessons with you, whether you're an athlete, business leader, or simply someone who wants to own their destiny. Miss Val's philosophies are timeless. Her coaching style is unorthodox. *Life Is Short, Don't Wait to Dance* is a thought-provoking, fun journey through the anecdotes of the 35-year career of a dancer/choreographer turned athletic coach. The book includes unforgettable stories of the Olympians and athletes with whom she's worked--including the inspirational journey of Katelyn Ohashi, whose joyful transformation under the tutelage of Miss Val was evident to the world when her perfect 10 floor routine went viral -- reaching over 100 million viewers. Other triumphs include Olympian Jamie Dantzscher, who found her confidence at UCLA and learned the tools to combat her previous abuse; and sensation Christine Peng Peng Lee, who helped the Bruins clinch the 2018 NCAA championship with back-to-back 10's. Miss Val also shares her favorite memories of her mentor, legendary basketball coach John Wooden, as well as her thoughts on Larry Nassar and the gymnastics sexual abuse scandal. Miss Val reveals how her coaching journey had a rocky start before she found her own best approach. In time she realized that her dance background wasn't a detriment, it was a gift. When she embraced this, Miss Val led the Bruins to victory. *Life Is Short, Don't Wait to Dance* is packed with great advice for anyone on a quest for success, delivered in Miss Val's reassuring and inspirational tone. She took the same approach to her breast cancer diagnosis, explaining how she made that struggle into one of the best years of her life. For Miss Val, it's all about attitude. *Life Is Short, Don't Wait to Dance* is a powerful book that shows you how to make the leap of faith in choosing your own path to greatness.

Who gives the title? Who has the title? Who says the poem? Who hears the poem? What genre does the poem belong to? What is the poem about?

*Now All We Need Is a Title* André Bernard, 1996 André Bernard has researched the stories behind more than one hundred of the most famous titles in the English language to produce a fascinating volume rich in literary anecdote and publishing lore. The Great Gatsby was almost titled Trimalchio in West Egg, while some unknown editor told William L. Shirer, Please God, don't ask us to publish a book called The Rise and Fall of the Third Reich. It's a wonderful romp among the literary monuments. Raymond Chandler to Alfred A. Knopf: I'm trying to think of a good title for you to want me to change.

*Writing Without Bullshit* Josh Bernoff, 2016-09-13 Joining the ranks of classics like *The Elements of Style* and *On Writing Well*, *Writing Without Bullshit* helps professionals get to the point to get ahead. It's time for *Writing Without Bullshit*. *Writing Without Bullshit* is the first comprehensive guide to writing for today's world: a noisy environment where everyone reads what you write on a screen. The average news story now gets only 36 seconds of attention. Unless you change how you write, your emails, reports, and Web copy don't stand a chance. In this practical and witty book, you'll learn to front-load your writing with pithy titles, subject lines, and opening sentences. You'll acquire the courage and skill to purge weak and meaningless jargon, wimpy passive voice, and cowardly weasel words. And you'll get used to writing directly to the reader to make every word count. At the center of it all is the Iron Imperative: treat the reader's time as more valuable than your own. Embrace that, and your customers, your boss, and your colleagues will recognize the power and boldness of your thinking. Transcend the fear that makes your writing weak. Plan and execute writing projects with confidence. Manage edits and reviews flawlessly. And master every modern format from emails and social media to reports and press releases. Stop writing to fit in. Start writing to stand out. Boost your career by writing without bullshit.

*The Title: The Story of the First Division* Scott Murray, 2017-11-14

*Aboriginal Customary Law: A Source of Common Law Title to Land* Ulla Secher, 2014-12-01

Described as 'ground-breaking' in Kent McNeil's Foreword, this book develops an alternative approach to conventional Aboriginal title doctrine. It explains that aboriginal customary law can be a source of common law title to land in former British colonies, whether they were acquired by settlement or by conquest or cession from another colonising power. The doctrine of Common Law Aboriginal Customary Title provides a coherent approach to the source, content, proof and protection of Aboriginal land rights which overcomes problems arising from the law as currently understood and leads to more just results. The doctrine's applicability in Australia, Canada and South Africa is specifically demonstrated. While the jurisprudential underpinnings for the doctrine are consistent with fundamental common law principles, the author explains that the Australian High Court's decision in *Mabo* provides a broader basis for the doctrine: a broader basis which is consistent with a re-evaluation of case-law from former British colonies in Africa, as well as from the United States, New Zealand and Canada. In this context, the book proffers a reconceptualisation of the Crown's title to land in former colonies and a reassessment of conventional doctrines, including the doctrine of tenure and the doctrine of continuity. 'With rare exceptions ... the existing literature does not probe as deeply

or question fundamental assumptions as thoroughly as Dr Secher does in her research. She goes to the root of the conceptual problems around the legal nature of Indigenous land rights and their vulnerability to extinguishment in the former colonial empire of the Crown. This book is a formidable contribution that I expect will be influential in shifting legal thinking on Indigenous land rights in progressive new directions.' From the Foreword by Professor Kent McNeil (to read the Foreword please click on the 'sample chapter' link).

**Empire and the Making of Native Title** Bain Attwood, 2020-07-16 This book provides a new approach to the historical treatment of indigenous peoples' sovereignty and property rights in Australia and New Zealand. By shifting attention from the original European claims of possession to a comparison of the ways in which British players treated these matters later, Bain Attwood not only reveals some startling similarities between the Australian and New Zealand cases but revises the long-held explanations of the differences. He argues that the treatment of the sovereignty and property rights of First Nations was seldom determined by the workings of moral principle, legal doctrine, political thought or government policy. Instead, it was the highly particular historical circumstances in which the first encounters between natives and Europeans occurred and colonisation began that largely dictated whether treaties of cession were negotiated, just as a bitter political struggle determined the significance of the Treaty of Waitangi and ensured that native title was made in New Zealand.
