Help! There's a Toddler in the House! Thomas M. Reimers, 2011-03-01 Toddlers and preschoolers are unpredictable, and their antics often keep parents guessing: Why won't my five-year-old eat his veggies? Why does my two-year-old keep biting her sister? Why can't my three-year-old stay in his own bed? Why must I repeat myself every time I tell my daughter to do something? The naughty as well as challenging behaviors of young children can drive even the most patient parents to their wits' end. In these pages, parents learn how to cope with and correct many of the most common behavioral problems that little ones demonstrate.

The Honest Toddler Bunmi Laditan, 2013-05-07 As seen on Good Morning America, the irreverent, bracingly honest, and “awfully funny” (The Boston Globe) satirical parenting guide from the Internet’s most infamous tot, whose unchecked sense of entitlement and undeniable charm have captivated hundreds of thousands of fans. Are you the confused parent of a toddler? Are you constantly disappointing the 2T in your life? Are you tired, stressed out, and looking for relief? I can’t help you with that last one, but if you want to become an A+ servant to your small child, this book is for you. Who better to teach you about toddlers than another toddler? In this book you’ll learn: • How time-outs make you look like a fool • Why potty training is not only unnecessary but unrealistic for children under eighteen • Why toddler beds are OUT and letting your child sleep on the diagonal in your bed is IN • The best way to apologize to your toddler for all of those Pinterest casseroles • That when you love someone, you accept them as they are, pants or no pants The hard-hitting knowledge in The Honest Toddler will save you thousands of dollars in unnecessary whole grains and toothbrushes. Happy reading. You’re doing the right thing. For once.

Oh Crap! I Have a Toddler Jamie Glowacki, 2019-06-04 Real-world, from-the-trenches toddler parenting advice from the author of the bestselling Oh Crap! Potty Training. Toddlers—commonly defined as children aged between two and five years old—can be a horribly misunderstood bunch. What most parents view as bad behavior is in fact just curious behavior. Toddlerdom is the age of individuation, seeking control, and above all, learning how the world works. But this misunderstanding between parents and child can lead to power struggles, tantrums, and even diminished growth and creativity. The recent push of early intellectualism coupled with a desire to “make childhood magical” has created a strange paradox—we have three-year-olds with math and Mandarin tutors who don’t know how to dress themselves and are sitting in their own poop. We are pushing the toddler mind beyond its limit but simultaneously keeping them far below their own natural capabilities. In the frank, funny, and totally authentic Oh Crap! I Have a Toddler, social worker Jamie Glowacki helps parents work through what she considers the five essential components of raising toddlers: –Engaging the toddler mind –Working with the toddler body –Understanding and dealing with the toddler behavior –Creating a good toddler environment –You, the parent Oh Crap! I Have a Toddler is about doing more with less—and bringing real childhood back from the brink of over-scheduled, over-stimulated, helicopter parenting. With her signature down-and-dirty, friend-to-friend advice, Jamie is here to help you experience the joy of parenting again and giving your child—and yourself—the freedom to

let them grow at their own pace and become who they are.

Toddlers, Parents and Culture Maria A. Gartstein, Samuel P. Putnam, 2018-11-07 One doesn't have to travel extensively to realize that there are intriguing differences in the ways in which people from different cultures tend to behave. Gartstein and Putnam explore whether these differences are shaped during the early years of life, at the moment when children are just beginning to understand how, when, and why they should express some emotions, and not others. Based on the findings of the Joint Effort Toddler Temperament Consortium (JETTC), which asked parents from 14 different countries multiple questions regarding their main goals and techniques for raising children to be successful in their culture, Gartstein and Putnam analyze how children's characteristics (both normative and problematic) are shaped by different cultural environments. Drawing from insights in anthropology, sociology, and developmental psychology, the book explores the full spectrum of human experience, from broad sets of values and concerns that differentiate populations down to the intimate details of parent-child relationships. The results reveal a complex web of interrelations among societal ideals, parental attempts to fulfill them, and the ways their children manifest these efforts. In doing so, they provide a revealing look at how families raise their young children around the world. Toddlers, Parents, and Culture will be of great interest to students and scholars in temperament, cross-cultural psychology, parenting and socioemotional development in early childhood, as well as professionals in early education, child mental health, and behavioral pediatrics.
