My Big TOE: Awakening Discovery Inner Workings Thomas Campbell, 2007-12 Section 1 provides a biography of the author pertinent to the creation of this trilogy. This look at the author's unique experience sheds light upon the origins of this work. Section 2 logically justifies the basic conceptual building blocks needed to construct My Big TOE's foundation. It discusses the cultural beliefs that trap our thinking into a narrow and limited conceptualization of reality, defines the fundamentals of Big Picture epistemology and ontology, and examines the inner-workings and practice of meditation. It defines and develops the two basic assumptions upon which this trilogy is based. From these two assumptions, time, space, consciousness, and the basic properties, purpose, and mechanics of our reality are logically inferred. Section 3 develops the interface and interaction between we the people and our digital consciousness reality. It derives and explains the characteristics, origins, dynamics, and function of ego, love, free will, and our larger purpose. It develops the psi uncertainty principle as it explains and interrelates psi phenomena, free will, love, consciousness evolution, physics, reality, human purpose, digital computation, and entropy. Section 4 describes a model of consciousness that develops the results of Section 3 and supports the conclusions of Section 5. The origins and nature of digital consciousness are described along with how artificial intelligence (AI) leads to artificial consciousness, which leads to actual consciousness and to us. It derives our physical universe, our science, and our perception of a physical reality. The physical reality is directly derived from the nature of digital consciousness. Section 5 pulls together Sections 2, 3, and 4 into a model of reality that describes how an apparent nonphysical reality works, interacts, and interrelates with our experience of physical reality. Probable realities, predicting and modifying the future, teleportation, telepathy, multiple physical and nonphysical bodies, and the fractal nature of an evolving digital consciousness reality are explained and described in detail. Section 6 is the wrap-up that puts everything into a personal perspective. It points out My Big TOE's relationship with contemporary science and philosophy. It solidly integrates My Big TOE into traditional Western scientific and philosophical thought.
