The Non-Runner's Marathon Trainer David A. Whitsett, Forrest A. Dolgener, Tanjala Jo Kole, 1998-02-01 Athlete. Runner. Marathoner. Are these words you wouldn't exactly use to describe yourself? Do you consider yourself too old or too out of shape to run a marathon? But somewhere deep inside have you always admired the people who could reach down and come up with the mental and physical strength to complete such a daunting and rewarding accomplishment? It doesn't have to be somebody else crossing the finish line. You can be a marathoner. The Non-Runner's Marathon Trainer is based on the highly successful marathon class offered by the University of Northern Iowa, which was featured in a Runner's World article titled Marathoning 101. The class has been offered five times over 10 years, and all but one student finished the marathon. That is approximately 200 students -- all first time marathoners and many with absolutely no running background. This book follows the same 16-week, four-day-a-week workout plan. What makes the success rate of this program so much higher than any other? The special emphasis on the psychological aspects of endurance activities. You don't have to love to run -- you don't even have to like it -- but you have to realize that you are capable of more

than you have ever thought possible. One participant in the program explained it like this: I'm doing this for me -- not for others or the time clock. I just feel better when I run, plus it helps me to cope with things in general. The skills we've learned in this class don't apply just to marathoning -- they apply to life! Just like you never know what the next step in a marathon will bring, so too, you never know what will happen next in life. But if you don't keep going, you're never going to find out. By staying relaxed, centered, and positive you handle just about anything that comes your way. This is marathon running for real people, people with jobs and families and obligations outside of running. The Non-Runner's Marathon Trainer has proven successful for men and women of all ages. Now let it work for you.

Strength Zone Training Nick Tumminello, 2022-04-25 Don't waste your time doing workouts that leave large gaps in your strength or load you up with unnecessary, redundant exercises. Take a strategic approach to your workouts by using a proven system that trains strength through each joint's true full range of motion. Even if you lift, you may still be missing something in your quest to get stronger. Optimal training does not involve training all the muscles; instead, it trains all the ranges (or zones) of each muscle. Many popular exercises work the same muscles the exact same way. Performing redundant exercises is a waste of your time. In Strength Zone Training, renowned personal trainer Nick Tumminello, who has become known as the trainer of trainers, shows you the following: How to build strength through the true full range of motion The redundant exercises you just don't need to do The exercises to maximize upper body and lower body strength that are missing from your workout The angles most people don't do exercises for but should The best exercises to include in your program to train each muscle group A better strategy to follow when choosing your exercises Beginner and advanced workout plans for any schedule You'll find exercises addressing every area of the body, with details on how to perform the exercise as well as coaching tips. Select exercises are depicted with

a hybrid of photo and art highlighting the movements, or zones, that provide a training stimulus. You will learn how to combine exercises within a workout in a smarter and more strategic way to collectively train through a full range of motion—resulting in not just an improvement in physique but also an improvement in performance and a reduction in injury risk. In addition to the exercises, you'll find four chapters of easy-to-follow workout plans you can immediately use at the gym. You can select a fully comprehensive workout plan that is right for you, regardless of your training level or weekly schedule.
