Trapped Michael Northrop,2011-02-01 The day the blizzard started, no one knew that it was going to keep snowing for a week. That for those in its path, it would become not just a matter of keeping warm, but of staying alive. . . .Scotty and his friends Pete and Jason are among the last seven kids at their high school waiting to get picked up that day, and they soon realize that no one is coming for them. Still, it doesn't seem so bad to spend the night at school, especially when distractingly hot Krista and Julie are sleeping just down the hall. But then the power goes out, then the heat. The pipes freeze, and the roof shudders. As the days add up, the snow piles higher, and the empty halls grow colder and darker, the mounting pressure forces a devastating decision. . . .Michael Northrop is the New York Times bestselling author of TombQuest, an epic book and game adventure series featuring the magic of ancient Egypt. He is also the author of Trapped, an Indie Next List Selection, and Plunked, a New York Public Library best book of the year and an NPR Backseat Book Club selection. An editor at Sports Illustrated Kids for many years, he now writes full-time from his home in New York City. Learn more at www.michaelnorthrop.net.

Trapped! James Ponti,2019-09-10 “A top-shelf test of courage, friendship, and ingenuity.” —Kirkus Reviews (starred review) Florian Bates—the only kid on the FBI Director’s speed dial and several international criminals’ most wanted lists—must save his friend from being framed for a crime he didn’t commit in this hilarious third novel in the Framed! series. Middle school is hard. Solving cases for the FBI is even harder. Doing both at the same time, well that’s just crazy. But that doesn’t stop Florian Bates! Along with his best friend, and Watson to his Sherlock, Margaret, Florian’s making the case that kids can do anything. When Florian and Margaret’s FBI supervisor, Marcus Rivers, is accused of a crime, it’s up to this mystery solving duo to jump into action and clear his name, because Marcus is more than their boss—he’s family. The case involves one of Marcus’s first investigations for the FBI and a Russian spy ring. However, when the spy they are chasing learns what they’re up to, the tables are turned, and Marcus finds himself implicated in a variety of crimes, including theft, corruption, and espionage. For Florian and Margaret, it just got personal. They’re going to catch the spy and clear Marcus’s name...even if they have to break into (and out of) the Library of Congress to do it.

Trapped! Robert K. Murray,Roger W. Brucker,2013-04-06 When Floyd Collins became trapped in a cave in southern Kentucky in early 1925, the sensationalism and hysteria of the rescue attempt generated America's first true media spectacle, making Collins's story one of the seminal events of the century. The crowds that gathered outside Sand Cave turned the rescue site into a carnival. Collins's situation was front-page news throughout the country, hourly bulletins interrupted radio programs, and Congress recessed to hear the latest word. Trapped! is both a tense adventure and a brilliant historical recreation of the past. This new edition includes a new epilogue revealing information about the Floyed Collins story that has come to light since the book was first published.

He is an adult-a man who, after meeting Kelly on MySpace.com, took the teenager on one thrill-seeking ride after another. From motorcycles to skydiving, Jane's little girl has been hiding some dangerous secrets. Like mother, like daughter. Adamant that Kelly is not a runaway but, rather, is being held against her will, Jane hires ex-FBI agent Randall Shane to follow the trail of her missing child. Trapped Marc Aronson,2011-08-30 The amazing story of the trapped Chilean miners and their incredible rescue that Publishers Weekly calls “a riveting, in-depth recounting of the events that held the world rapt.” In early August 2010, the unthinkable happened when a mine collapsed in Copiano, Chile, trapping 33 miners 2,000 feet below the surface. For sixty-nine days they lived on meager resources with increasingly poor air quality. When they were finally rescued, the world watched with rapt attention and rejoiced in the amazing spirit and determination of the miners. What could have been a terrible tragedy became an amazing story of survival. In Trapped, Marc Aronson provides the backstory behind the rescue. By tracing the psychological, physical, and environmental factors surrounding the mission, Aronson highlights the amazing technology and helping hands that made it all possible. From the Argentinean soccer players that hoped to raise morale, to NASA volunteering their expertise to come up with a plan, there was no shortage of enterprising spirit when it came to saving lives. Readers will especially appreciate the eight pages of full-color photos, timeline, glossary, notes, and more.
