Finding Triathlon Scott Tinley, 2015-11-17 Training for and completing a triathlon is one of the most grueling life experiences anyone can have, requiring a degree of personal commitment, individual strength and iron will that few people possess. A true test of your ability to find, and then surpass your physical, mental and emotional limits, the only real analogue to triathlon...is the challenge of life itself. In *Finding Triathlon*, professional athlete Scott Tinley explores the world inside and outside endurance sports, seeking answers to age-old questions. Part memoir, part cultural exploration, Tinley uses the language of sports to speak universal truths. Told through anecdotes, both personal and shared, with a critical, inquisitive, and often humorous interpretation of a life lived through the medium of sports, Tinley reflects on the sport of triathlon, honest competition, and the drive to improve ourselves as a whole, looking to understand how and why we live our lives. *Finding Triathlon* is not a self-help book, and it's not a fitness guide. Nor is it just about triathlons and triathletes. It's about a lifestyle, a perspective, a way of looking at the world and its challenges, as you strive to better yourself and better understand yourself. Whether you're training for the next big race or you've never run a mile in your life, *Finding Triathlon* speaks to the champion in each of us, demonstrating how making the decision to push ourselves to succeed in our dreams can affect our life, our world, and our future. From the Trade Paperback edition.

FASTER Jim Gourley, 2013-09-13 Triathlon is among the world's most gear-intensive sports. The gear you select and how you use it can mean big results--or bigger disappointment. **FASTER** takes a scientific look at triathlon to see what truly makes you faster--and busts the myths and doublespeak that waste your money and race times. In this fascinating exploration of the forces at play in the swim-bike-run sport, astronautical engineer and triathlete Jim Gourley shows where to find free speed, speed on a budget, and the gear upgrades that are worth it. **FASTER** offers specific, science-based guidance on the fastest techniques and the most effective gear, answering questions like: Which wetsuit is best for me? What's the best way to draft a swimmer? Should I buy a lighter bike? Deep dish or disc wheels? Are lighter shoes faster? Who's right about running technique? Gourley reviews published studies in peer-reviewed journals to show what scientists have learned about swim drafting, pacing the bike leg, race strategy for short and long-course racing, and the fastest ways to handle transitions. **FASTER** will change how you think about your body, your gear, and the world around you. With science on your side, you'll make the smart calls that will make you a better, faster triathlete.
