Multisensory Imagery Simon Lacey,Rebecca Lawson,2013-01-19 Is a pear sweeter than a peach? Which of Mona Lisa’s hands is crossed over the other? What would the Moonlight Sonata sound like played by a brass band? Although these are questions that appeal to mental imagery in a variety of sensory modalities, mental imagery research has been dominated by visual imagery. With the emergence of a well-established multisensory research community, however, it is time to look at mental imagery in a wider sensory context. Part I of this book provides overviews of unisensory imagery in each sensory modality, including motor imagery, together with discussions of multisensory and cross-modal interactions, synesthesia, imagery in the blind and following brain damage, and methodological considerations. Part II reviews the application of mental imagery research in a range of settings including individual differences, skilled performance such as sports and surgical training, psychopathology and therapy, through to stroke rehabilitation. This combination of comprehensive coverage of the senses with reviews from both theoretical and applied perspectives not only complements the growing multisensory literature but also responds to recent calls for translational research in the multisensory field.

How to Heal the Sick Charles Hunter,Frances Hunter,2000-01-01 Never feel helpless again! A loved one is sick, your friend was just in an accident, a family member is facing an emotional crisis.... Have you ever desperately longed to reach out your hand and bring healing to these needs? At times, our hearts ache with the desire to help, but either we don’t know how, or we are afraid and stop short. The truth is, the Holy Spirit within you is ready to heal the sick! Charles and Frances Hunter present solid, biblically based methods of healing that can bring not only physical health but also spiritual health and abundant life to you, your family, and everyone around you.

The City of Musical Memory Lise A. Waxer,2012-01-01 Winner of the ASCAP Deems Taylor Award for Popular Music Books (2002) Winner of the Society for Ethnomusicology's (SEM) Alan P. Merriam Prize (2003) Salsa is a popular dance music developed by Puerto Ricans in New York City during the 1960s and 70s, based on Afro-Cuban forms. By the 1980s, the Colombian metropolis of Cali emerged on the global stage as an important center for salsa consumption and performance. Despite their geographic distance from the Caribbean and from Hispanic Caribbean migrants in New York City, Caleños (people from Cali) claim unity with Cubans, Puerto Ricans and New York Latinos by virtue of their having adopted salsa as their own. The City of Musical Memory explores this local adoption of salsa and its Afro-Caribbean antecedents in relation to national and regional musical styles, shedding light on salsa's spread to other Latin American cities. Cali's case disputes the prevalent academic notion that live music is more real or authentic than its recorded versions, since in this city salsa recordings were until recently much more important than musicians themselves, and continued to be influential in the live scene. This book makes valuable contributions to ongoing discussions about the place of technology in music culture and the complex negotiations of local and transnational cultural identities.
