*Universal Horrors* Tom Weaver, Michael Brunas, John Brunas, 2011-12-20 Revised and updated since its first publication in 1990, this acclaimed critical survey covers the classic chillers produced by Universal Studios during the golden age of Hollywood horror, 1931 through 1946. Trekking boldly through haunts and horrors from The Frankenstein Monster, The Wolf Man, Count Dracula, and The Invisible Man, to The Mummy, Paula the Ape Woman, The Creeper, and The Inner Sanctum, the authors offer a definitive study of the 86 films produced during this era and present a general overview of the period. Coverage of the films includes complete cast lists, credits, storyline, behind-the-scenes information, production history, critical analysis, and commentary from the cast and crew (much of it drawn from interviews by Tom Weaver, whom USA Today calls the king of the monster hunters). Unique to this edition are a new selection of photographs and poster reproductions and an appendix listing additional films of interest.

**Social Philosophy of Vivekananda and Indian Nationalism** Sebastian Velassery, 2021-05-01 Among the galaxy of scholars, Swami Vivekananda stands out as a majestic tower of light who has given a new tempo to the building up of a new sense of nationalism in modern India. The uniqueness of Vivekananda was his endeavour to translate every ounce of Vedanta into a social living and was never a cold theoretician or an abstract metaphysician. He was aware that India's life is governed by her sovereign sense of the infinite and inclusiveness which nourished her national life and India has been a spiritual strength for her people, implanting the seeds that have continuously sprouted and flowered in her art, literature, religion, philosophy, science and politics. It is a civilization that should be seen, not as a closed system or as a finished product, but as a dynamic and unfolding process. Whatever the differences, India's spiritual heritage should be recognized as the focal point and to be appropriated in the conception of a new resurgent India. Regrettably, what we had been glorifying as the central value of this culture and civilization is disorientated today due to the brutal exhibition of barbarous instincts which were exhibited through the rivalry between religious groups. What is being experienced is the loss of inherited values and our inability in reinventing new values. By virtue of its characteristic pluralism and its continuously evolving synthesis, India represents a nation which is continuously unfolding its civilizational potentialities. In making of such an Indian ethos, the foundational ideal which has been the basis of Indian culture and civilization is the concept of Dharma and Vivekananda was able to comprehend and articulate the relation between morality (dharma) and human affairs which are the concerns of practical Vedanta.

*Universal Studios Monsters* Michael Mallory, 2009-09-08 From the 1920s through the 1950s, Universal Studios was Hollywood's number one studio for horror pictures, haunting movie theaters worldwide with Dracula, Frankenstein, and the Creature from the Black Lagoon, among others. *Universal Studios Monsters: A Legacy of Horror* explores all of these enduring characters, chronicling both the mythology behind the films and offering behind-the-scenes insights into how the films were created. *Universal Studios Monsters* is the most complete record of the horror films of this legendary studio, with biographies of major personalities who were responsible for the most notable monster melodramas in film history. The stories of these films and their creators are told through interviews with surviving actors and studio employees. A lavish photographic record, including many behind-the-scenes shots, completes the story of how these classics were made. This is a volume no fan of imaginative cinema will want to be without.

**The Monster Movies of Universal Studios** James L Neibaur, 2023-06-14 This history and critique of classic scary films "honors Universal's horror legacy. . . . an excellent resource for film students and monster movie fanatics" (Library Journal). In 1931 Universal Studios released *Dracula* starring Bela Lugosi. This box office success was followed by a string of films featuring macabre characters and chilling atmospherics, including *Frankenstein*, *The Mummy*, and *The Invisible Man*. With each new film, Universal established its place in the Hollywood firmament as the leading producer of horror films, a status it enjoyed for more than twenty years. In *The Monster Movies of Universal Studios*, James L. Neibaur examines the key films produced by the studio from the early 1930s through the mid-1950s. In each entry, Neibaur recounts the movie's production, provides critical commentary, considers the film's commercial reception, and offers an overall assessment of the movie's significance. Neibaur also examines the impact these films had on popular culture, an influence that resonates in the cinema of fear today. From the world premiere of *Dracula* to the 1956 release of *The Creature Walks among Us*, Universal excelled at scaring viewers of all ages—and even elicited a few chuckles along the way by pitting their iconic creatures against the comedic pair of Abbott and Costello. *The Monster Movies of Universal Studios* captures the thrills of these films, making this book a treat for fans of the golden age of horror cinema. "Studio stills and trade ads for several of the films add a suitably scary touch to this treat for fans and scholars alike. — Booklist "An impressive work of film scholarship." — Cinema Retro

**The Universal One** Walter Russell, 2022-05-04 THE UNIVERSAL ONE was originally published in 1927 and distributed to the top scientists in the country. It is being republished at this crucial period for the sole purpose of again releasing vital new scientific knowledge to this new age- of new comprehension. Today the whole world is in a state of chaos fighting against the forces of greed, envy, jealousy and fear. Disharmony is rife. All of our human relations are in a state of violent upheaval. Civilization is in reverse. Science is being used to destroy instead of to build. We talk of world peace, yet those who are to plan the new world do not know the answer, the solution. Present knowledge of man's relation to Nature and Natural Law which controls his human relations is, as yet, inadequate to meet the situation. Man is still too near his jungle to either know the law which inexorably governs his every action and that of everything in Nature or to comprehend that he must obey Nature or be self-destroyed. Still dominated by jungle habits, he settles his human relations by jungle methods. Wars and world chaos will continue until new knowledge applicable to the coming new cycle in man's evolution is acquired by him. What is this new knowledge? A consistent cosmogony is sorely needed for this newly dawning day of man's exaltation which is to come. Walter Russell spent a full seven years in writing this book. When it was first published in 1927, it won more condemnation than favor from a world which was not then as ready for it as now. The book mixed science and metaphysics in a manner which nullified its impression upon physicists. Gradually, however, many of its then radical statements have been verified by some of the world's greatest scientists and have won him many followers. The physicist draws a sharp line between things which he can in some way detect by the evidence of his senses and things which lie beyond that evidence. There is no denial of a something beyond the range of his senses and his sensed instruments, but what may be there is conjectural and, therefore, inadmissible as scientific data of a reliable nature. In other words, material evidence which lies within the narrow limits of man's sense-range is the only admissible evidence to science. But what about that vast range which will not respond to our sensed bodies and sensed instruments? Down the ages a rare few have been permitted to sever the senses which connect matter with its motivated Source in the consciousness of Universal Mind. These few have become conscious of the cosmos and have tried to tell the world of its simplicity. Each of these has faced an impossible task. The generalities and symbols which they did set down have been discounted and relegated to poetry or metaphysics or mysticism.

Universal Design 2014: Three Days of Creativity and Diversity H.A. Caltenco,P.-O. Hedvall,A. Larsson,2014-05-30 Universal Design, Design for All and Inclusive Design are all aimed at dismantling physical and social barriers to inclusion in all areas of life. Engagement in universal design is on the increase worldwide as practitioners and researchers explore creative and desirable solutions to shape the future of universal design products and practices. This book is a collection of the papers presented at UD2014, the International Conference on Universal Design, held in Lund, Sweden, in June 2014. The conference offered a creative and diverse meeting place for all participants to exchange knowledge, experiences and ideas, and to build global connections and creative networks for future work on universal design. The themes of UD2014 span many aspects of societal life, and the papers included here cover areas as diverse as architecture, public transport, educational and play environments, housing, universal workspaces, and the Internet of things, as well as designs and adaptations for assistive technology. The book clearly demonstrates the breadth of universal design and its ongoing adoption in societies all over the world, and will be of interest to anyone whose work involves building a more inclusive environment for all.

**Early Universal City** Robert S. Birchard,2009 Known as much today for its theme park, Universal City is also the largest and the longest continuously operating movie studio in Hollywood. The Universal Film Manufacturing Company was formed by a dozen independent producers in 1912, and Universal City was designed to provide a single facility in which to make their films. Since its official opening on March 15, 1915, Universal City has served as a training ground for great directors such as John Ford, William Wyler, and James Whale and as home to stars like Hoot Gibson, Deanna Durbin, Boris Karloff, Bela Lugosi, Lon Chaney Sr. and Jr., and Tom Mix. This evocative volume explores the studio that brought *The Hunchback of Notre Dame* (1923), *The Phantom of the Opera* (1925), *All Quiet on the Western Front* (1930), *Dracula* (1930), *Frankenstein* (1931), and *100 Men and a Girl* (1936) to the screen.

The total of 1578 papers and 396 posters included in the HCII 2022 proceedings was carefully reviewed and selected from 7472 submissions. The UAHCI 2023 proceedings were organized in the following topical sections: Part I: Design for All Methods, Tools and Practice; Interaction Techniques, Platforms and Metaphors for Universal Access; Understanding the Universal Access User Experience; and Designing for Children with Autism Spectrum Disorders. Universal Jurisdiction in International Criminal Law Aisling O'Sullivan,2017-02-03 With the sensational arrest of former Chilean dictator Augusto Pinochet in 1998, the rise to prominence of universal jurisdiction over crimes against international law seemed to be assured. The arrest of Pinochet and the ensuing proceedings before the UK courts brought universal jurisdiction into the foreground of the fight against impunity and the principle was read as an important complementary mechanism for international justice –one that could offer justice to victims denied an avenue by the limited jurisdiction of international criminal tribunals. Yet by the time of the International Court of Justice’s Arrest Warrant judgment four years later, the picture looked much bleaker and the principle was being read as a potential tool for politically motivated trials. This book explores the debate over universal jurisdiction in international criminal law, aiming to unpack a practice in which international lawyers continue to disagree over the concept of universal jurisdiction. Using Martti Koskenniemi’s work as a foil, this book exposes the argumentative techniques in operation in national and international adjudication since the 1990s. Drawing on overarching patterns within the debate, Aisling O’Sullivan argues that it is bounded by a tension between contrasting political preferences or positions, labelled as moralist (ending impunity) and formalist (avoiding abuse) and she reads the debate as a movement of hegemonic and counter-hegemonic positions that struggle for hegemonic control. However, she draws out how these positions (moralist/formalist) merge into one another and this produces a tendency towards a middle position that continues to prefer a particular preference (moralist or formalist). Aisling O’Sullivan then traces the transformation towards this tendency that reflects an internal split among international lawyers between building a utopia (court of humanity) and recognizing its impossibility of being realized.

*Universal Carrier 1936-48* David Fletcher,2012-05-20 The Universal Carrier was a fast, lightly armed vehicle developed by the British Army to carry infantry across ground defended by small-arms fire, specifically the Bren light machine gun, hence the name 'Bren Gun Carrier'. This name would stick with the Universal Carrier and all of its future variants. This book details the Carrier, which was employed in a number of roles including carrying ammunition and towing anti-aircraft guns and trailers. All Allies used the Universal Carrier extensively during practically every World War II campaign. By the war's end, the Universal Carrier had proved itself to be an invaluable and successful cross-country vehicle that was both agile and fast for its time.

*Assessing Universal Health Coverage for Breast Cancer Management* Professor Dr Syed Mohamed Aljunid,Dr Aidalina Binti Mahmud,2021-04-06 Breast cancer is the most common cancer among women that affects mostly those in middle and older age groups in most parts of the world. The incidence is showing an increasing trend affecting younger women and the cost to prevent, treat and manage this chronic disease is continuously escalating. Universal Health Coverage (UHC) is an initiative by World Health Organisation that encourages policy makers in all countries in the world to organise their health systems that are responsive in providing access to quality health care to every citizen in need of health services without facing the financial hardship. Malaysia health system has been well developed and was said to have achieved universal health coverage based on the easy access to primary and secondary health care services in the public sector. In this book, we present our effort to assess if Malaysia provides UHC for preventive, curative and palliative to breast cancer patients . At the inception of the study, we embarked on the development of a composite index to assess the overall status of UHC. This is followed by an extensive research to explore the extent of financial coverage for management of breast cancer. Over 300 patients in various stages of the breast cancer attending the selected public tertiary hospitals were interviewed and their medical records reviewed to assess their health spending and to estimate the incidence of catastrophic health expenditure. The book is the first of its kind that provides comprehensive real-world data on universal coverage for breast cancer patients in the world.
