**Surviving Savannah** Patti Callahan,2022-04-05 An atmospheric, compelling story of survival, tragedy, the enduring power of myth and memory, and the moments that change one's life. --Kristin Hannah, #1 New York Times bestselling author of The Four Winds [An] enthralling and emotional tale...A story about strength and fate.--Woman's World "An epic novel that explores the metal of human spirit in crisis. It is an expertly told, fascinating story that runs fathoms deep on multiple levels."—New York Journal of Books It was called The Titanic of the South. The luxury steamship sank in 1838 with Savannah's elite on board; through time, their fates were forgotten-until the wreck was found, and now their story is finally being told in this breathtaking novel from the New York Times bestselling author of Becoming Mrs. Lewis. When Savannah history professor Everly Winthrop is asked to guest-curate a new museum collection focusing on artifacts recovered from the steamship Pulaski, she's shocked. The ship sank after a boiler explosion in 1838, and the wreckage was just discovered, 180 years later. Everly can't resist the opportunity to try to solve some of the mysteries and myths surrounding the devastating night of its sinking. Everly's research leads her to the astounding history of a family of eleven who boarded the

Pulaski together, and the extraordinary stories of two women from this family: a known survivor, Augusta Longstreet, and her niece, Lilly Forsyth, who was never found, along with her child. These aristocratic women were part of Savannah's society, but when the ship exploded, each was faced with difficult and heartbreaking decisions. This is a moving and powerful exploration of what women will do to endure in the face of tragedy, the role fate plays, and the myriad ways we survive the surviving.

The Land Was Ours Andrew W. Kahrl,2016-06-27 The coasts of today's American South feature luxury condominiums, resorts, and gated communities, yet just a century ago, a surprising amount of beachfront property in the Chesapeake, along the Carolina shores, and around the Gulf of Mexico was owned and populated by African Americans. Blending social and environmental history, Andrew W. Kahrl tells the story of African American-owned beaches in the twentieth century. By reconstructing African American life along the coast, Kahrl demonstrates just how important these properties were for African American communities and leisure, as well as for economic empowerment, especially during the era of the Jim Crow South. However, in the wake of the civil rights movement and amid the growing prosperity of the Sunbelt, many African Americans fell victim to effective campaigns to dispossess black landowners of their properties and beaches. Kahrl makes a signal contribution to our understanding of African American landowners and real-estate developers, as well as the development of coastal capitalism along the southern seaboard, tying the creation of overdeveloped, unsustainable coastlines

to the unmaking of black communities and cultures along the shore. The result is a skillful appraisal of the ambiguous legacy of racial progress in the Sunbelt.

**DFSMSHsm Fast Replication Technical Guide** Keith Winnard, Jeanne Vangsness, IBM Redbooks, 2015-05-12 DFSMSHsm fast replication provides DFSMSHsm management for the use of volume-level fast replication. Fast replication is made possible by using the FlashCopy® capability of storage servers. With this capability, a set of storage groups can be defined as a copy pool. The volumes in this pool are processed collectively creating, by fast replication, backup versions that are managed by DFSMSHsm. Recovery can be performed at the volume or copy pool level. This capability is designed to work specifically with DB2® Version 8 or later. With DFSMSHsm fast replication, the backup and recovery of DB2 copy pools can be managed by DFSMSHsm. DFSMSHsm fast replication provides a quick, easy-to-use backup and recovery solution. This IBM® Redbooks® publication consists of a technical overview of the DFSMSHsm fast replication function in z/OS® V1R12 Data Facility Storage Management Subsystem (DFSMS). It provides you with the information that you need to understand and evaluate the function, with practical implementation hints and tips. This book is written for storage professionals, database administrators, and system programmers who have experience with the components of DFSMS. It provides sufficient information for you to implement the DFSMSHsm fast replication function in your storage environment.

**Mushroom Marathon** Lynn Moriarty Parman, 2004-07 A marathon is an endurance contest... and someone will win the prize. Check out these reflections from a twenty-six-

year marathon of coping with family addictions. Emotional healing is possible and often comes through reflection of one's past. A farm becomes her Holy Place and she hopes that you too, can find the prize of peace in your own continuing marathon of life's often surprising, unwelcome events.
