**Enid Sater Ross, Rosa Katherine Taube, Dorothy  
Skinner Greene**

*Laundering at Home* American Washing Machine Manufacturers' Association,1921

Doing the Washing ,2009-05-26 Sarah Garland's classic series of pre-school books look at every aspect of busy, noisy, muddly family life. In *Doing the Washing* we join the family as they load up the washing machine, hang up the wet clothes and enjoy a well-earned story and cup of tea when all the work is done.

**Clean** Katherine Ashenburg,2011-01-06 'I return to Paris in five days. Stop washing.' So wrote Napoleon to Josephine in an age when body odour was considered an aphrodisiac. In stark contrast, the Romans used to bath for hours each day. Ashenburg's investigation of history's ambivalence towards personal hygiene takes her through plague-ridden streets, hospitals and battlefields. From the bizarre prescriptions of doctors to the eccentricities of famous bathers, she presents us with all the twists and turns that have led us to our own, arbitrary notion of 'clean'.

**Involving Children For Hand Washing Behavior Change: Repeated Message Delivery to Foster Action** Getnet

Eshetu,2013-08 Changing the hand washing behavior in a community is a challenge of different disciplines, including psychology and media practice. Distinct beliefs prevent people from washing their hands properly in critical moments. Moreover, each segment of the community has a different belief. Hence, adults, children, women, and men should be addressed differently. This experimental study explores the process of isolating and changing the beliefs of grade six students from the Chandba Primary School, in Chilga Local Administration North Gondar Zone Amhara Region, in Ethiopia. The intervention activities are done to increase a positive association with water and soap concerning the three critical moments, namely before eating, before touching or preparing food, and after defecation. The study describes the overall practical implementations of combined behavior change theories, and shows how they can be applied to the selection of target beliefs. The present study identifies important variables that are negatively and positively associated with hand hygiene. The results are based on a questionnaire, observations, and practical evaluation of hand washing skills that were identified during the four week intervention. • The study helps to develop communicators to change children's hygiene behavior. • It has significance in helping the participants to understand better ways of using locally available materials and methods for hygiene facilities preparation. • It shows the effectiveness of combined implementation of practical participation and multimedia message delivery regarding hygiene behavior change interventions. In general, the study reviles the complementary effect of multiple communication tools and models of treatment as well as their appropriate analytic strategies to change participant's hygiene behavior.

Posson,1926

**Life's Washing to Maintain Fellowship** Witness

Lee,2023-04-13 At the beginning of John chapter 13, we see the Lord washing His disciples' feet. Then in verse 14 the Lord tells us to wash one another's feet. We not only need to have our feet washed directly by the Lord Himself, but we also need the mutual foot washing of one another. Sometimes we must keep the Lord's word literally, but to an even greater degree we must keep His word spiritually. What does it mean to spiritually wash one another's feet? How does this relate to fellowship? In this booklet compiled from Life-study of John, Witness Lee explains the significance of John 13—the precious matter of life's washing to maintain fellowship.

**Washing!** Gwyneth Swain,2006-08 All over the world children wash up. This looks at how they learn to take care of themselves. Using photographs and text, it aims to give readers and pre-school children a glimpse of ways people's lives are the same and different the world over.

PressureWashingBusiness.com,2008

*Washing and Coking Tests of Coal at the Fuel-testing Plant, Denver, Colo. July 1, 1907, to June 30, 1908* Arthur W. Belden,G. R. Delamater,J. W. Groves,1909 The washing tests of coal were made to determine the possibility of so improving the quality as to render it suitable (as free as possible from ash, sulphur, and other impurities) for the production of coke for use in metallurgical processes. The investigations described in this report were undertaken by the Government for the general purpose of increasing efficiency in the utilization of the fuel supply of the United States.

**Acid Curing and Countercurrent Decantation Washing of an Oxidized Copper Ore from Pinal County, Ariz** William Alan McKinney,Carl Rampacek,1960
