

We

Dr. Richard A. NeSmith

The Story of We Pierre De Wet,2011-03-30 The Story of We is every person's story-about the beauty of life, the unplanned pursuit of a dream and the resilience of love. He had a farm and dreams in Africa, but after tragedy strikes, everything crumbles. Nothing seems sure anymore-even his trust in God. He sets off for America, an unfamiliar country where he didn't even speak the language. With two young daughters and all they possessed in four suitcases, the three of them arrive in America with only hope. There, they encounter angels in human form of all colors and kinds who cross their paths one by one, bringing them to an unexpected destiny that far surpasses his greatest hopes. The power of three-three dreams and three hearts-weaves a story of simple pleasures, everlasting hope and surprising candor that will encourage and inspire. Only in America.

We Am The Song Richard Prism,2016-04-23 We are the dangerous, problematic and troubled species threatening the health and equilibrium of the whole Earth. We are the bearers of heroic myths and legends of explanation and survival of a complex, bloody past – which, as William Faulkner said “is not even past.” We are the oblivious couriers of indecipherable ancient messages, speakers of lonely lives of the spirit we cannot share. Meanwhile there are individual lives to be led, being born, growing, thriving, loving, surviving and dying to be negotiated, dreams to pursue in a world of change coming at us at the speed of light. So what remains of We Am, if We ever was ? Can it be recreated ?

Why We Need a Citizen's Basic Income Torry, Malcolm,2018-05-09 In the five years since Money for Everyone was published the idea of a Citizen's Basic Income has rocketed in interest to an idea whose time has come. In moving the debate on from the desirability of a basic income this fully updated and revised edition now includes comprehensive discussions on feasibility and implementation. Using the consultation undertaken by the Institute of Chartered Accountants in England and Wales as a basis, Torry examines a number of implementation methods for Citizen's Basic Income and considers the cost implications. Including real-life examples from the UK, and data from case studies and pilots in Alaska, Namibia, India, Iran and elsewhere, this is the essential research-based introduction to the Citizen's Basic Income.

We're Gainin' Jacob Watson,2019-08-08 We're Gainin' By: Jacob Watson We're Gainin': Collins Brook, A Maine Free School - A Memoir is set in Maine during the turbulent 1960 and '70s. It chronicles a man whose traditional public and private schooling focused on the intellectual and physical, and how he discovered in Summerhill schools his emotional and spiritual life. At age 27, Jacob (then Dick) Watson and his wife Sharon founded Collins Brook School and, with volunteer help, built classrooms and dormitories. Democratic school meetings tackled challenges of optional classes, 'magic meadow', organic gardening, stealing, bullying, food, and animals: Freya the Newfoundland, Randolph the beef steer, Priscilla the pig, and Washington the mallard duck. When a fateful plan to merge Collins Brook with another Summerhill school collapsed and his marriage ended, Watson found solace sailing the Maine coast and islands. Learning to listen to his still small voice within, he became an interfaith minister and started another Maine school. This book includes photographs, student writing, newspaper articles, bedtime stories, and transcripts of school meetings.

We You Me Laura Ruth Ellis,2019-11-13 After years of caring for her family, author Laura Ruth Ellis finally felt free to pursue a new life purpose. Almost immediately, however, she was pulled back into the role of dutiful daughter when her mother succumbed to dementia. The years she spent as full-time caregiver were stressful and exhausting—but from the fears and challenges came the transformation she had sought all along. In We You Me, Laura recalls from her journal entries the emotional turmoil the caregiver role brought to her and the lessons it taught her. With intimacy and honesty, she recounts the stresses, strains, and shame she endured along the way. As the years went on, a change began; she moved from denying life's circumstances to accepting life as it comes, eventually gaining an awareness of life's bigger picture in the process. Her focus shifted from duty to others with love to love of duty to her inner self. Life presented the role she needed to finally find and accept who she most wanted to be and her buried dream was released. This personal narrative presents a journey of acceptance through the realms of caregiving toward true self-knowledge, as one woman's dream deferred for duty is brought to life.

Various wordsmiths had stepped into the breach for you in this anthology. This beautiful letters and odes puts things in perspective.

We Make Beer Sean Lewis,2014-09-23 Explores the evolution and nature of America's craft brewing movement, from the craftsmen who apply their creativity to expanding the beer landscape to the beverages its brewers have revived, including old English ales and Belgian lambics.

We Are What We Eat Alice Waters,2022-06-07 From chef and food activist Alice Waters, an impassioned plea for a radical reconsideration of the way each and every one of us cooks and eats In We Are What We Eat, Alice Waters urges us to take up the mantle of slow food culture, the philosophy at the core of her life's work. When Waters first opened Chez Panisse in 1971, she did so with the intention of feeding people good food during a time of political turmoil. Customers responded to the locally sourced organic ingredients, to the dishes made by hand, and to the welcoming hospitality that infused the small space—human qualities that were disappearing from a country increasingly seduced by takeout, frozen dinners, and prepackaged ingredients. Waters came to see that the phenomenon of fast food culture, which prioritized cheapness, availability, and speed, was not only ruining our health, but also dehumanizing the ways we live and relate to one another. Over years of working with regional farmers, Waters and her partners learned how geography and seasonal fluctuations affect the ingredients on the menu, as well as about the dangers of pesticides, the plight of fieldworkers, and the social, economic, and environmental threats posed by industrial farming and food distribution. So many of the serious problems we face in the world today—from illness, to social unrest, to economic disparity, and environmental degradation—are all, at their core, connected to food. Fortunately, there is an antidote. Waters argues that by eating in a “slow food way,” each of us—like the community around her restaurant—can be empowered to prioritize and nurture a different kind of culture, one that champions values such as biodiversity, seasonality, stewardship, and pleasure in work. This is a declaration of action against fast food values, and a working theory about what we can do to change the course. As Waters makes clear, every decision we make about what we put in our mouths affects not only our bodies but also the world at large—our families, our communities, and our environment. We have the power to choose what we eat, and we have the potential for individual and global transformation—simply by shifting our relationship to food. All it takes is a taste.

What We Know about Teaching Teenagers: A Guide for Teachers, Parents, and Administrators Dr. Richard A. NeSmith,2021-03-07 What we know about teaching Teenagers, 2019 I would like to thank Dr. Richard NeSmith for helping me know more about what goes through teenagers' minds and grow into a better teacher. Dr. NeSmith's 28-plus years of teaching experience and careful study of biology, developmental and cognitive psychology make him one of the best experts in the field. His book explains the difficulties students have learning at school and reflects on how to overcome them, promoting a better understanding of the changes going on in teenagers' lives as well as an elementary understanding of what causes pain points in the brain of the adult-in-the-making. Above all, Dr. NeSmith reminds us that teenagers are individuals, with their personality, strengths, weaknesses, and their ways of showing love and concern. The book has been carefully researched and will make you aware of the cognitive-emotional interactions going on inside the mind of preadolescents to improve your teaching strategies. It is such a privilege to teach and take teenagers from childhood to adulthood. Whether you are a parent, a teacher, or a school administrator you will find in this book strategies to facilitate learning and encourage lifelong learning. ===== A research-based book addressing brain-based learning and how secondary age students best learn and how teachers can best teach to meet those needs. American public education is on life support like never before. Why? The shift from LEARNING to standardized testing, ticking boxes for administrators, and watering down curricula are some of the reasons. This synthesis of brain-based research emphasizes how students best learn. It is NOT a checklist, it is a strategy that empowered teachers can utilize to improve student learning. But, knowing how teens think enables teachers to know HOW TEENS best LEARN. --Dr. Richard NeSmith

We Saw Lincoln Shot Timothy Sean Good,1996 On the evening of 14 April 1865 when President Abraham Lincoln was assassinated in Ford's Theatre, an entire audience was witness to the tragedy. From diaries, letters, depositions, affidavits, and periodicals, here is a collection of accounts from a variety of theatergoers - who by chance saw one of the truly pivotal events in U. S. history. Providing minute first-hand details recorded over a span of ninety years, *We Saw Lincoln Shot* explores a subject that will forever be debated. With a sharp focus upon the circumstances reported by one hundred actual witnesses, *We Saw Lincoln Shot* provides vivid documentation of a momentous evening and exposes errors that have been perpetuated as the assassination has been rendered into written histories.

Have We All Gone Mad? Why groupthink is rising and how to stop it Jerome Booth,2022-11-29 With refreshingly clear-sighted analysis, Jerome Booth spells out how political, financial and social groupthink has damaged Britain - and, crucially, how we can tackle it. Highly recommended. - Liam Halligan, Daily Telegraph Most of the worst political decisions of recent years were made when all the mainstream politicians thought the same thing and no one challenged them. Jerome Booth wisely analyses why this situation happens so often and what can be done about it. Every politician and every decision-maker should read this book. - Lord Frost, former Cabinet Office minister It is a long time since I read a book with which I agreed so comprehensively. - Lord Lilley, former Secretary of State *** We like to think of ourselves as rational, but human beings are fundamentally irrational creatures - and nowhere is that more apparent than in the fog of groupthink we see around us, from the boardroom to social media. Of the various forms of collective irrationality, groupthink is particularly dangerous. It involves adherence to a faulty consensus, often has a binary moral dimension (one is seen as either virtuous or evil) and is sustained through fear to challenge. Counter-intuitively, the most intelligent and erudite amongst us are particularly susceptible, and when groupthink takes hold, vigorous efforts are made to shut down debate and to bully and punish transgressors. As a result, toleration, liberalism, history, reason and science are under threat. Mass groupthink amongst both the elite and the masses affects millions of people. It has led to financial mismanagement leading up to the 2008 crisis and beyond; poor decision-making at the onset of Covid-19; exaggerated, unchallenged claims which have motivated nonsensical policies; and distortions in academia and journalism. In this remarkable and prescient book, Dr Jerome Booth investigates why some of us have abandoned reason in favour of trite memes, intolerance and hatred. Have we all gone mad? Or can we identify the patterns and causes of what is happening and try to stop it?

We Are Market Basket Daniel Korschun,Grant Welker,2015-08-12 What if a company were so treasured and trusted that people literally took to the streets—by the thousands—to save it? That company is Market Basket, a popular New England supermarket chain. With its arresting firsthand accounts from the streets and executive suites, *We Are Market Basket* is as inspiring as it is instructive. What is it about Market Basket and its leader that provokes such ferocious loyalty? How does a company spread across three states maintain a culture that embraces everyone—from cashier to customer—as family? Can a company really become an industry leader by prioritizing stakeholders over shareholders? After long-time CEO Arthur T. Demoulas was ousted by his cousin Arthur S. Demoulas, the company's managers and rank-and-file workers struck back. Risking their own livelihoods to restore the job of their beloved boss they walked out, but they didn't walk far. The national media and experts were stunned by the unprecedented defense of an executive. All openly challenged the Market Basket board of directors to make things right. In the end: They were joined by loyal customers at protest rallies—leaving stores empty. Suppliers and vendors stopped deliveries—rendering shelves bare. Politicians were forced to take sides. Set against a backdrop of bad blood and corporate greed, *We Are Market Basket* is a page-turner that chronicles the epic rise, fall, and redemption of this iconic and uniquely American company. The Secrets We Keep Deb Loughhead,2016-12-10 First she blamed herself. Now she doesn't know who to trust. When Kit disappeared at a party and was found drowned in the quarry the next day, Clem knew who to point the finger at: herself. She was the last person to see him alive, the last person who could have helped. If she had just kept a closer eye on him instead of her crush, Jake, maybe Kit would still be here. She knows she made a mistake, and wishes she could just forget about it — but Clem's friend Ellie says she'll expose Clem's secret if she doesn't play along with Ellie's lies. Jake seems to have his own difficult secrets, and when he and Clem start to talk, they make a plan to help themselves move on. But when an unexpected discovery at the quarry makes everyone question what they thought they knew, Clem and Jake decide it's up to them to uncover the truth.

While We Run Karen Healey,2014-05-27 It's 2127, and the future is at stake . . . Abdi Taalib thought he was moving to Australia for a music scholarship. But after meeting the beautiful and brazen Tegan Oglietti, his world was turned upside down. Tegan's no ordinary girl - she died in 2027, only to be frozen and brought back to life in Abdi's time, 100 years later. Now, all they want is for things to return to normal (or as normal as they can be), but the government has other ideas. Especially since the two just spilled the secrets behind Australia's cryonics project to the world. On the run, Abdi and Tegan have no idea who they can trust - and, when they uncover startling new details about the program, they realize that thousands of lives may be in their hands. Karen Healey offers a suspenseful, page-turning companion to *When We Wake* that will keep readers on the edge of their seats and make them call into question their own ideas about morality -- and mortality, too.

The Elements We Live By Anja Røyne,2020-06-09 An around-the-world journey to discover where in the wild we can find the elements of life and the surprising ways they're essential to our survival We all know that we depend on elements for survival—from the oxygen in the air we breathe to the carbon in the molecular structures of all living things. But we don't often stop to appreciate how, say, phosphorous holds our DNA together or how potassium powers our optic nerves so that we can see. In *The Elements We Live By*, physicist and award-winning author Anja Røyne takes us on an astonishing journey through chemistry and physics, introducing the building blocks from which we humans—and the world—are made. Not only does Røyne explain why our bodies need iron, phosphorus, silicon, potassium, and many more elements in just the right amounts in order to function, she also leads us around the world to where these precious elements are found (some of them in ever-shrinking quantities). You'll understand how precariously balanced our lives—and ways of life—really are, and you'll see these unsung heroes of the periodic table in an entirely new light.

We Should Not Be Friends Will Schwalbe,2023-02-21 A NEW YORKER BEST BOOK OF THE YEAR • A warm, funny, irresistible memoir that follows an improbable and life-changing college friendship over the course of forty years—from the best-selling author of *The End of Your Life Book Club* • “A rare view of male friendship.”—NPR “Moving...salted with Schwalbe's well-established literary intelligence and a palpable empathy.” —The New York Times Book Review By the time Will Schwalbe was a junior at college, he had already met everyone he cared to know: the theater people, writers, visual artists and comp lit majors, and various other quirky characters including the handful of students who shared his own major, Latin and Greek. He also knew exactly who he wanted to avoid: the jocks. The jocks wore baseball caps and moved in packs, filling boisterous tables in the dining hall, and on the whole seemed to be another species entirely, one Will might encounter only at his own peril. All this changed dramatically when Will collided with Chris Maxey, known to just about everyone as Maxey. Maxey was physically imposing, loud, and a star wrestler who was determined to become a Navy SEAL (where he would later serve for six years). Thanks to the strangely liberating circumstances of a little-known secret society at Yale, the two forged a bond that would become a mainstay of each other's lives as they repeatedly lost and found each other and themselves in the years after graduation. From New Haven to New York City, from Hong Kong and Panama to a remarkable school on an island in the Bahamas—through marriages and a divorce, triumphs and devastating losses—*We Should Not Be Friends* tracks an extraordinary friendship over decades of challenge and change. Schwalbe's marvelous new work is, at its heart, a joyful testament to the miracle of human connection—and how if we can just get past our preconceptions, we may find some of our greatest friends.
