**Stories in Midwifery** Allison Cummins,Katharine

Gillett,Karen Mclaughlin,Loretta Musgrave,Jessica

Wood,2023-07-01 This insightful book and accompanying video resource present a collection of perspectives relating to different issues around birthing and midwifery. Through the voices of mothers, midwives, students, health professionals and family members, you will build empathy and understanding, reflect, and learn to apply innovative approaches in your own practice. The book covers a range of topics, such as midwifery continuity of care, place of birth, multiple pregnancy, complex pregnancies, congenital birth abnormalities, supporting culturally and linguistically diverse women, anxiety and depression, and working with women with physical and/or intellectual disabilities. Stories in midwifery provides teaching and learning strategies ideal for students and practising midwives alike. Readers will develop the skills, attitudes and mindfulness necessary for working in partnership with women, childbearing people and their families across a variety of settings. 22 chapters addressing a range of topics across the childbearing continuum 35 video 'personal stories' across a range of topics related to pregnancy, birth and the postnatal period A framework for reflection, inquiry and action – relates stories to your own practice Teaching and learning strategies for each story Weblinks, references and further reading to support learning Transcripts of all interviews included at the back of the book An eBook (with videos embedded) included in all print purchases Supports midwifery curricula; suitable for both undergraduate and postgraduate levels New topics identified by student

midwives as the areas where they need supporting resources to help consolidate learning 4 new chapters 11 new videos

### **Midwifery Preparation for Practice Sally**

Pairman, Sally K. Tracy, Hannah Dahlen, Lesley Dixon, 2022-10-15 Now in its 5th edition Midwifery Preparation for Practice continues to present a global model of midwifery best practice that is supported by a range of examples from the Australian, New Zealand and international midwifery contexts. Endorsed by the Australian College of Midwives and the New Zealand College of Midwives the text continues to reinforce the established principles of midwifery philosophy and practice – that of midwives working in partnership with women, in woman-centred models or midwife-led care. This focus is what sets this text apart from other physiology-based midwifery texts, making it a highly valued resource for students and practicing midwives alike. The highly esteemed team of editors once again lead a group of internationally recognised leaders in midwifery to share their knowledge and expertise in midwifery practice, education, research and regulation across Australia, New Zealand and internationally. Aligned to local and international midwifery standards for practice and guidelines Endorsed by the Australian College of Midwives and the New Zealand College of Midwives Presented in 2 volumes for ease of use Videos to support learning New chapters Sustainability and Environmental Health Care Ethical Frameworks for Practice Updated midwifery guidelines and practice examples throughout

### **Empowering Decision-Making in Midwifery Elaine**

Jefford, Julie Jomeen, 2019-08-29 Decision-making pervades all aspects of midwifery practice across the world. Midwifery is informed by a number of decision-making theories, but it

is sometimes difficult to marry these theories with practice. This book provides a comprehensive exploration of decision-making for midwives irrespective of where in the world they practice or in which model of care. The first part critically reviews decision-making theories, including the Enhancing Decision-making Assessment in Midwifery (EDAM) tool, and their relevance to midwifery. It explores the links between midwifery governance, including professional regulation and the law, risk and safety and decision-making as well as how critical thinking and reflection are essential elements of decision-making. It then goes on to present a number of diverse case studies, demonstrating how they interrelate to and impact upon optimal midwifery decision-making. Each chapter presents examples that show how the theory translates into practice and includes activities to reinforce learning points. Bringing together a diverse range of contributors, this volume will be essential reading for midwifery students, practising midwives and midwifery academics.

*Placenta Accreta Spectrum* Sherif A. Shazly,Ahmed A. Nassr,2022-11-29 Placenta accreta spectrum (PAS), an obstetric emergency associated with significant maternal morbidity and mortality, has increasingly become a global challenge with the rising trend of cesarean deliveries. This book provides a comprehensive review of basic science-related to PAS, discusses modern practice in diagnosis and classification of PAS disorders, and appraise current recommendations on PAS management in view of recent studies, guidelines, and expert opinions. In the last few years, there have been many new updates to practice guidelines including ACOG, RCOG, and FIGO guidelines in addition to several new studies, some of which were unusually multicenter and of large sample size, that are eligible to make major changes in our PAS practice. In

addition, the book aims at providing more comprehensive review of all aspects related to PAS from experts, including topics that are deficient in similar books e.g., vascular anatomy, risk reduction, adjuvant treatments. The book provides a single source that provides academic knowledge for researchers and investigators, and clinical guidance to best practice and recent updates in management of women with PAS.

**Fundamentals of Nursing & Midwifery** Helen Hall, Paul Glew, Johanna Rhodes, 2022-01-03 A trusted person-centred resource to start you on the path to professional success Fundamentals of Nursing and Midwifery is a popular foundational nursing text specifically developed for Australian and New Zealand students. This comprehensive resource provides a detailed overview of key information with person-centred care highlighted throughout to focus on the individualistic, interactive and holistic nature of nursing and midwifery practice. It uses accessible language that introduces students to the 'why' as well as the 'how' of nursing and midwifery. It focuses not only on a person's physical healthcare needs, but also on the intellectual, emotional, sociocultural and spiritual aspects of care. In this way, students learn to be holistic health care professionals while acquiring the foundational knowledge, procedures and skills required for successful nursing or midwifery practice.

Supporting Physiological Birth Choices in Midwifery Practice Claire Feeley, 2023-02-28 Highlighting the experiences of midwives who provide care to women opting outside of guidelines in the pursuit of physiological birth, Claire Feeley looks at the impact on midwives themselves, and explores how teams and organisations support or discourage women's birth choices. This book investigates the processes, experiences and sociocultural-political

influences upon midwives who support women's alternative birthing choice and argues for a shift in perspective from notions of an individual's professional responsibility to deliver woman-centred care, to a broader, collective responsibility. The book begins by contextualising the importance of quality midwifery care with an exploration of the current debates to demonstrate how hegemonic birth discourse and maternity practices have detrimentally affected physiological birth rates, and the wellbeing of women who opt outside of maternity guidelines. It provides real life examples of how midwives can facilitate a range of birthing decisions within mainstream midwifery services. Moreover, an exploration of midwives' experiences of delivering such care is presented, revealing deeply polarised accounts from moral injury to job fulfilment. The polarised accounts are then presented within a new model to explore how a midwife's socio-political working context can significantly mediate or exacerbate the vulnerability, conflict and stigmatisation that they may experience as a result of supporting alternative birth choices. Finally, this book explores the implications of the findings, looking at how team and organisational culture can be developed to better support women and midwives, making recommendations for a systems approach to improving maternity services. Discussing the invisible nature of midwifery work, what it means to deliver woman-centred care, and the challenges and benefits of doing so, this is a thought-provoking read for all midwives and future midwives. It is also an important contribution to interprofessional concerns around workforce development, sustainability, moral distress and compassion in health and social care.

**Skilled Heartfelt Midwifery Practice** Claire

Feeley, 2023-11-25 This book about the art, craft and

science of expert midwifery care, while focusing on 'alternative physiological births' that are those 'outside' of guidelines, the contents can be applied to any birthing choices. Drawing upon the findings of a PhD that captured the experiences of midwives who proactively supported alternative physiological births while working in the National Health Service, their practice was conceptualised as 'skilled heartfelt practice'. Skilled heartfelt practice denotes the interrelationship between midwives' attitudes and beliefs in support of women's choices, their values of cultivating meaningful relationships, and their expert practical clinical skills. It is these qualities combined that give rise to what is called 'full-scope midwifery' as defined by the Lancet Midwifery Series. This book illuminates why and how these midwives facilitated safe, relational care. Using a combination of emotional intelligence skills and clinical expertise while centring women's bodily autonomy, they ensured safe care was provided within a holistic framework. Moreover, this book offers insights for midwives to move beyond 'rule-based' practice, where the benefits of expert practice are illuminated. Midwives facilitating 'alternative' physiological births epitomise evidence-based practice, which centres the woman or birthing person as the expert in their life, and the midwife meets them where they are with expert skills to support them. But what does this look like in clinical practice, particularly for those employed by institutions, those 'working within the system' who have constraints that private or self-employed midwives don't have? How does a midwife cultivate those skills within a culture and climate that devalues both relationships, midwives and women's autonomy? This book aims to provide a roadmap for those seeking to cultivate these skills. The core focus will be the midwife-mother relationship from the perspectives of the midwives, rather

than the midwives wider working relationships or workplace contexts. This is purposeful so to offer a deep dive into the nuanced and varied ways of delivering this type of care. However, the realities of practice are also firmly embedded with the book, tensions will be explored, limitations acknowledged.

*Nursing and Midwifery Research* Dean Whitehead, Caleb Ferguson, Geri Lobiondo-Wood, PhD RN Faan, Judith Haber, PhD RN Faan, 2020-04-08 Nursing and Midwifery Research is an essential guide in assisting students and practitioners develop sound research skills to enhance their knowledge and practice. Written by Dean Whitehead and Caleb Ferguson, the 6th ANZ edition includes the most recent updates and developments in Australian and New Zealand nursing and midwifery practice, with a focus on evidence-based practice, along with a range of contemporary research articles and pedagogy to support specific chapter content. Using clear language and examples, the 6th edition of *Nursing and Midwifery Research* provides a valuable resource to assist healthcare students and practitioners in developing strong skills in research literacy and critical appraisal, as well as the confidence to successfully conduct research and apply outcomes to practice. **By Accident of Birth** Thomas E. Simmons,2022-11-22

From the Civil War to the Cuban independence movement to WWI, this historical epic follows the incredible life of a woman tragically bound to bloodshed. War brings about many strange events, but none stranger than the bullet that impregnated sixteen-year-old Annielise Quinn at the Battle of Vicksburg in 1863. After passing through the groin of a Confederate soldier, the bullet lodged itself in her pelvis. Such was the portentous beginning of Beverly Bethany Quinn, the “bullet baby” whose life was fated never to escape the perils of war. By 1915, Bethany thinks she has finally found peace, until a call from the British Crown

brings a shocking revelation. To aid the Allies in the Great War overseas, England would like to purchase a cache of rifles owned by her family's sugar mill in Cuba—a cache that Bethany never knew existed. Years ago, Bethany and her uncle Jonathan supplied guns to the Cuban rebels against Spain. Has her uncle doomed her from beyond the grave to take part in slaughter once again? In preparation for the journey of her “special cargo,” Bethany sits down with her mother's old diary, returning to that fateful day in 1863, and unfolding an epic journey of war, survival, love, and betrayal spanning decades and nations.

**Home Birth - E-Book** Anna-Marie Madeley,2023-07-15

As the rate of homebirth increases in the UK, this important new book offers a basic, practical guide for anyone involved in the planning, resourcing and facilitation of safe and respectful birth at home. Blending both contemporary academic and clinical practice, this textbook covers the whole scope of home birth practice, from antenatal care, delivery and postnatal care, as well as management of emergencies at home and practical advice for managing transfer. Facilitating a safe home birth requires a robust multidisciplinary team approach. Whatever your role in planning or attending a birth at home, and whether you are a student, practising midwife, paramedic or obstetrician, this resource will have something for you. Covers the whole scope of home birth practice, for each member the multidisciplinary team Written by leading experts from diverse backgrounds including midwives, paramedics, obstetricians and neonatal nurses from clinical practice, academia and education Presents balanced and unbiased contemporary evidence supporting birth at home Discusses effective care planning from developing a homebirth services, practical resources and skills, equipment planning and geographical considerations Covers important topics within midwifery including the rise of 'freebirthing', multidisciplinary team working and the care of women with

complex biopsychosocial needs or from underrepresented communities Clearly identifies roles and responsibilities of the multidisciplinary team Suitable for midwifery students embarking on a home birth placement

Nyaha Woyangoi Lele Gbomba,1987

*Sustainability, Midwifery and Birth* Lorna Davies,Rea Daellenbach,Mary Kensington,2020-07-29 This new edition outlines how sustainability can be incorporated into midwifery practice, education and research. It has been thoroughly revised to include new models of sustainable midwifery practice and new chapters on rural midwives and rural communities, social justice, and compassion. Environmental awareness and sustainability are vitally important concepts and, as a low environmental impact healthcare profession, midwifery has the potential to stand as a model of excellence. This international collection of experts explores the challenges, inviting readers to critically reflect on the issues and consider how they could move to effect changes within their own working environments. Divided into three parts, the book discusses: The politics of midwifery and sustainability Midwifery as a sustainable healthcare practice Supporting an ecological approach to parenting. *Sustainability, Midwifery and Birth* is a vital read for all midwives and midwifery students interested in sustainable practice.
