**Word by Word** Kory Stamper,2018-03-06 “We think of English as a fortress to be defended, but a better analogy is to think of English as a child. We love and nurture it into being, and once it gains gross motor skills, it starts going exactly where we don’t want it to go: it heads right for the goddamned electrical sockets.” With wit and irreverence, lexicographer Kory Stamper cracks open the obsessive world of dictionary writing, from the agonizing decisions about what to define and how to do it to the knotty questions of ever-changing word usage. Filled with fun facts—for example, the first documented usage of “OMG” was in a letter to Winston Churchill—and Stamper’s own stories from the linguistic front lines (including how she became America’s foremost “irregardless” apologist, despite loathing the word), **Word by Word** is an endlessly entertaining look at the wonderful complexities and eccentricities of the English language.

Base-1 method: A structural-functional approach to word, sentence and discourse readability Bernd Nuss, 2018 Text readability is at the core of successful reading instruction and language learning. To counteract the challenges of complex reading content, text leveling is a vital necessity for readers with limited language access. A transdisciplinary analysis of reading development and linguistic interrelations builds the theoretical foundation of the base-1 method. This method focuses solely on structural and functional text elements on the word, sentence and cohesion level. But this book also discusses the significance of other prevalent readability factors, such as the reader's language knowledge or socio-cultural background. The base-1 method is designed to level early reading texts in German and other alphabetic languages. Experimental tests with a German immersion population has led to a preliminary calibration to demonstrate the validity of this approach. Bernd Nuss ist erfahrener Immersionslehrer in verschiedenen Programmen, die sich über Nord-, Zentral- und Südamerika erstrecken. An der E. E. Waddell Language Academy wirkt er schulintern als Immersion Facilitator, kooperiert mit Bildungsorganisationen und betreut die Praktika von Gaststudierenden an der Schule. Bernd Nuss has worked as an educator and

facilitator in English and German language immersion programs all over the Americas and in Europe. In this capacity, he has also been collaborating as a researcher with universities and other educational institutions in Europe, Asia, and the USA.

*Word-Formation in English* Ingo Plag, 2018-07-12 This book is the second edition of a highly successful introduction to the study of word-formation, that is, the ways in which new words are built on the bases of other words (e.g. happy - happy-ness), focusing on English. The book's didactic aim is to enable students with little or no prior linguistic knowledge to do their own practical analyses of complex words. Readers are familiarized with the necessary methodological tools to obtain and analyze relevant data and are shown how to relate their findings to theoretical problems and debates. The second edition incorporates new developments in morphology at both the methodological and the theoretical level. It introduces to the use of new corpora and data bases, acquaints the reader with state-of-the-art computational algorithms modeling morphology, and brings in current debates and theories.

*Word Concordance of the Tanakh Or the Hebrew Bible (Hebrew Old Testament)* Muhammad Wolfgang G. A. Schmidt, 2017-02-24 This book lists all the words and variant word forms of the original Hebrew-Aramaic Old Testament text or Tanakh (Jewish Bible) with their respective instances of occurrences in the entire text body of the Hebrew Old Testament. It also includes references to

biblical book names, chapters and verses. The relevant text corpus of this word concordance is based upon scholarly respected text editions like the Westminster Leningrad Codex. Since text concordances of original texts in original biblical languages are hard to find this book tries to fill a part of that gap.

*God's Word for Today's World* John Stott, 2015-01-14 Nothing is more important than hearing, understanding and obeying God's Word. Our lives and local churches depend on this for their life, health and growth. John Stott is well known worldwide for the commitment he had to the Bible, both in his preaching and in his living. In this persuasive book, Stott concisely demonstrates the power, authority and relevance of the Bible for every Christian – in every culture and generation. What is the purpose of God's Word? How does it point us to Christ? What is its relationship to the Holy

Spirit? How does it shape the church? And what does it mean for Christian discipleship? The author answers these questions with simplicity and clarity, urging us to hear and obey God's Word in today's world.

Word-Processing Technology in Japan Nanette Gottlieb, 2013-09-05 This book deals with a topical issue relating to the use of script in Japan, one which has the potential to reshape future script policy through the mediation of both orthographic practices and social relations. It tells the story of the impact of one of the most significant technological breakthroughs in Japan in the latter part of this century: the invention and rapid adoption of word-processing technology capable of handling Japanese script in a society where the nature of that script had previously mandated handwriting as the norm. The ramifications of this technology in both the business and personal spheres have been wide-ranging, extending from changes to business practices, work profiles, orthography and social attitudes to writing through to Japan's ability to construct a substantial presence on the Internet in recent years.

**Searchlights from the Word** G. Campbell Morgan, 2010-04-01 1188 sermon suggestions -- One from every chapter in the Bible. Morgan's expositions sparkle as they enhance Bible texts from every chapter in the Bible. Concise and delightfully free of redundancy, these selections reveal the master expositor's keen, analytical insight into God's Word. To encourage preachers

and Bible teachers to develop their own sermon and lesson themes creatively, the author mentions that these are sermon suggestions -- not sermons or sermon outlines. He intentionally left the notes untitled, preferring to let the text of Scripture be their only caption. These penetrating truths, firmly anchored in Scripture, are best described by G. Campbell Morgan himself: On every page of...the God-breathed Writings there are many thoughts which stretch out like long, clear arms of light across the darkness, discovering things which otherwise were hidden, and often illuminating wider areas than those of the immediate context. They are searchlights. From the multitude of these, I have selected one in each chapter of the Bible. Perhaps the work will also serve to illustrate a method of showing how focal points of radiating light gather their radiance from the context.
