**Xchange** N. Body, 2005-09-01 Jennifer and Ben both listened to wiser, and definitively guiding, counsel. They achieved their parentally directed career goals of doctor and veterinarian, respectively. They found each other in the process. Their orchestrated careers were so demanding that they never took time to get to know each other enough to realize whether they were or were not aright for each other, a or somewhere between those extremes. During one of those rare moments together, they achieved again by being the sole remaining witnesses to an indiscriminating syndicate ambush. After pressure-cooked guidance and worrisome soul searching, Ben and Jennifer agreed to do the right thing. They testified. Thereafter, they followed their Witness Protection Program counselors' advice and that of WPP subcontractor coaches. To avoid being crossed out by the GTO, they changed. Did they continue to change? Did they lose their identities? Did they get a life?

**Xchange** Stan Mason, 2014-10-08 An Israeli scientist invents a machine which is able to exchange the bodies of people. No one in Israel can see any use for it but the Minister of Science in Britain cannot wait to get his hands on it. Ultimately it is sold and brought to England to a laboratory at Lytham St. Annes. The great advantage of the invention is that while the bodies are exchanged, the heads and brain remain the same. Lancaster jail is a tough place to be incarcerated. It contains five hundred prisoners all serving life sentences and is under strict control. Then the Government decides that, with the new invention, they intend to exchange prisoners at the jail with very old eminent people who contributed greatly to society, thereby extending their lives by thirty, forty or fifty years. It means that a thirty-five year old prisoner would exchange his body with an eighty-eight year old man. The reasoning was that the inmates in the prison were simply rotting away uselessly. Although their lives would be very much shortened after the exchange the recipients of their bodies would be able to live many years longer and continue to benefit the community. The equipment is set up at Lytham St. Annes and prisoners are sent there regularly to undergo the body exchange. At the same time, well-known celebrities and people of rank were invited to gain a new lease of life. However problems soon arise. Firstly, the number of prisoners serving life sentences become used up and the Government has to seek donors from mental institutions. Secondly, because of its horrendous nature, the Government insists that it remains totally secret. However a television news reporter by the name of Sky Summers investigates and will not let go. People are assassinated by the Government for interfering in the process and Lancaster jail becomes empty and is scheduled to close. Bill Preston, its Governor, is in despair. The controller of the project, Alan Jordan, eventually realises the inhumane nature of the project and he decides to revolt against it. There are many twists and turns in this tale, but it instils horror in the reader for there is worse to come!

Xchange N. E. Body, 2006-12-01 To improve her and her husbands chance of survival, Jennifer leaves the witness protection program and her husband, Ben. Jennifers intention to maintain a low profile and avoid the GTO is almost immediately complicated by her submission to a formerly unmanifested vigilante serial killer tendency. She despises her own syndrome, seeks to control or manage it, uses a touch of it to disrupt the GTO and finally thinks shes got it under control. Has she?

*Rules and Rule Markup Languages for the Semantic Web* Asaf Adi,Suzette Stoutenburg,Said Tabet,2005-11-04 RuleML 2005 was the ?rst international conference on rules and rule markup languages for the Semantic Web, held in conjunction with the International Semantic Web C- ference (ISWC) at Galway, Ireland. With the success of the RuleML workshop series came the need for extended research and applications topics organized in a conference format. RuleML 2005 also accommodated the ?rst Workshop on OWL: Experiences and Directions. Rules are widely recognized to be a major part of the frontier of the Semantic Web, and critical to the early adoption and applications of knowledge-based techniques in- business, especially enterprise integration and B2B e-commerce. This includes kno- edge representation (KR) theory and algorithms; markup languages based on such KR; engines, translators, and other tools; relationships to standardization efforts; and, not least, applications. Interest and activity in the area of rules for the Semantic Web has grown rapidly over the last ?ve years. The RuleML 2005 Conference was aimed to be this year’s premiere scienti?c conference on the topic. It continued in topic, leadership, and collaboration with the previous series of three highly successful annual inter- tional workshops (RuleML 2004, RuleML 2003 and RuleML 2002). The theme for RuleML 2005 was rule languages for reactive and proactive rules, complex event p- cessing, and event-driven rules, to support the emergence of Semantic Web applications. Special highlights of the RuleML 2005 conference included the keynote address by Sir Tim Berners- Lee, Director of W3C.

Directory of E-Learning Suppliers Cux Research,2001-07 The Directory of e-Learning Suppliers was created to help executives in corporate universities and managers of training facilities save time in comparing and selecting e-Learning suppliers. The industry of potential e-Learning suppliers is large and difficult to distinguish among, as many of them make similar claims. This list provides a beginning place that sorts the suppliers into useful categories and gives information on their size, number of employees and time in business. This list is strictly for informational purposes as a convenience. You can think of it like a search engine on your browser – we have combed out the unimportant and irrelevant. All firms on this list are actively involved in some aspect of e-Learning. When you are thinking about finding an e-Learning supplier, start with this list – look through our categories – then contact firms directly to be clarify if they have what you need. This list does not endorse one company over another; rather, it is an objective survey of leading e-Learning suppliers.

**My First Recession** Geert Lovink,2003 My First Recession starts when the party is over. This study maps the transition of critical Internet culture from the mid-to-late 1990s Internet craze to the dotcom crash, the subsequent meltdown of global financial markets, and 9/11. In his discussion of the dotcom boom-and-bust cycle, Geert Lovink lays out the challenges faced by critical Internet culture today. In a series of case studies, Lovink meticulously describes the ambivalent attitude that artists and activists take as they veer back and forth between euphoria and skepticism. As a part of this process, Lovink examines the internal dynamics of virtual communities through an analysis of the use of moderation and collaborative filtering on mailing lists and weblogs. He also confronts the practical and theoretical problems that appear as artists join the growing number of new-media education programs. Delving into the unexplored gold mines of list archives and weblogs, Lovink reveals a world that is largely unknown to both the general public and the Internet visionaries.
