I Don't Want to Read This Book Aloud Max Greenfield, 2023-09-19 Another hilarious picture book from actor Max Greenfield, author of *I Don't Want To Read This Book* and *This Book Is Not a Present*, dedicated to introverts of all ages, about the horrors of reading aloud. Nobody in the world actually enjoys reading aloud, do they? Impossible! After all, any number of terrible things could happen: you might come across a word you don't know how to pronounce. Or get distracted by a volcano eruption and lose your place. Even worse, you might accidentally hear the sound of your own voice! Actor Max Greenfield (*New Girl*, *The Neighborhood*) and New York Times bestselling illustrator Mike Lowery, the duo behind *I Don't Want To Read This Book* and *This Book Is Not a Present*, are back with another side-splitting picture book that's sure to have kids shouting for repeat read-alouds.

Your Head is a Houseboat Campbell Walker, 2021-10-06 *Your Head is a Houseboat* is a uniquely hilarious guide to what goes on in your brain, from illustration sensation Campbell Walker aka Struthless. The only truth we really know is that we're going to spend the rest of our lives in our own houseboat (our head) so it makes sense to make that houseboat as good as possible. The houseboat needs cleaning and maintenance, and it shouldn't be weighed down by junk (our own thoughts and other people's opinions). There's a bunch of bosses with different ideas about where you should be heading in the ocean of life, and a zoo of animalistic desires below the deck who are really steering. But it's your houseboat, so it's probably time for you to cast away and set sail (is that even how houseboats work?) on a journey to understanding it. In *Your Head is a Houseboat*, Cam demystifies brain functions, mental health, emotions, mindfulness and psychology - but with less complex terminology and more bizarre metaphors. It's a book filled with illustrations, journal exercises and words that will probably hit too close to home. At its core, this is a funny, accessible approach to understanding your head and making it a nicer place to live. 'The most important and accessible mental health book in a generation. Truly life-changing.' - Osher Günsberg

Raised in a wealthy family with ties to the ruler of Galilee, she is rebellious and ambitious, with a brilliant mind and a daring spirit. She engages in furtive scholarly pursuits and writes narratives about neglected and silenced women. Ana is expected to marry an older widower, a prospect that horrifies her. An encounter with eighteen-year-old Jesus changes everything. Their marriage evolves with love and conflict, humor and pathos in Nazareth, where Ana makes a home with Jesus, his brothers, and their mother, Mary. Ana's pent-up longings intensify amid the turbulent resistance to Rome's occupation of Israel, partially led by her brother, Judas. She is sustained by her fearless aunt Yaltha, who harbors a compelling secret. When Ana commits a brazen act that puts her in peril, she flees to Alexandria, where startling revelations and greater dangers unfold, and she finds refuge in unexpected surroundings. Ana determines her fate during a stunning convergence of events considered among the most impactful in human history. Grounded in meticulous research and written with a reverential approach to Jesus's life that focuses on his humanity, *The Book of Longings* is an inspiring, unforgettable account of one woman's bold struggle to realize the passion and potential inside her, while living in a time, place and culture devised to silence her. The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled *The Last Lecture*. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—*Really Achieving Your Childhood Dreams*—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

The First 20 Hours Josh Kaufman, 2013-06-13 Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's

easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, The First 20 Hours will help you pick up the basics of any skill in record time . . . and have more fun along the way.
