**Arab Media Systems** Carola Richter, Claudia Kozman, 2021-03-03 This volume provides a comparative analysis of media systems in the Arab world, based on criteria informed by the historical, political, social, and economic factors influencing a country's media. Reaching beyond classical western media system typologies, Arab Media Systems brings together contributions from experts in the field of media in the Middle East and North Africa (MENA) to provide valuable insights into the heterogeneity of this region's media systems. It focuses on trends in government stances towards media, media ownership models, technological innovation, and the role of transnational mobility in shaping media structure and practices. Each chapter in the volume traces a specific country's media – from Lebanon to Morocco – and assesses its media system in terms of historical roots, political and legal frameworks, media economy and ownership patterns, technology and infrastructure, and social factors (including diversity and equality in gender, age, ethnicities, religions, and languages). This book is a welcome contribution to the field of media studies, constituting the only edited collection in recent years to provide a comprehensive and systematic overview of Arab media systems. As such, it will be of great use to students and scholars in media, journalism and communication studies, as well as political scientists, sociologists, and anthropologists with an interest in the MENA region.

*Global Corruption Report: Sport* Transparency International, 2016-02-05 Sport is a global phenomenon engaging billions of people and generating annual revenues of more than US\$ 145 billion. Problems in the governance of sports organisations, fixing of matches and staging of major sporting events have spurred action on many fronts. Yet attempts to stop corruption in sport are still at an early stage. The Global Corruption Report (GCR) on sport is the most comprehensive analysis of sports corruption to date. It consists of more than 60 contributions from leading experts in the fields of corruption and sport, from sports organisations, governments, multilateral institutions, sponsors, athletes, supporters, academia and the wider anti-corruption movement. This GCR provides essential analysis for understanding the corruption risks in sport, focusing on sports governance, the business of sport, planning of major events, and match-fixing. It highlights the significant work that has already been done and presents new approaches to strengthening integrity in sport. In addition to measuring transparency and accountability, the GCR gives priority to participation, from sponsors to athletes to supporters an essential to restoring trust in sport.

*Media in Qatar* Dr. Khalid Al-Jaber,

**Routledge Handbook of Sport and Politics** Alan Bairner, John Kelly, Jung Woo Lee, 2016-10-04 Sport is frequently considered to be an aspect of popular culture that is, or should be, untainted by the political. However, there is a broad consensus among academics that sport is often at the heart of the political and the political is often central to sport. From the 1936 Olympic Games in Nazi Germany to the civil unrest that preceded the 2014 World Cup in Brazil, sport and politics have remained symbiotic bedfellows. The Routledge Handbook of Sport and Politics goes further than any other book in surveying the complex, embedded relationships between sport and politics. With sections addressing ideologies, nation and statehood, corporate politics, political activism, social justice, and the politics of sports events, it introduces the conceptual foundations that underpin our understanding of the sport-politics nexus and examines emergent issues in this field of study. Including in-depth case studies from North America, South America, Europe, the Middle East, Africa and Asia, this is an essential reference for anybody with an interest in the social scientific study of sport.

*Football in the Middle East* Abdullah Al-Arian, 2022-08-10 Far and away the most popular sport in the world, football has a special place in Middle Eastern societies, and for Middle Eastern states. With Qatar hosting the 2022 FIFA World Cup, this region has been cast into the global footballing spotlight, raising issues of geopolitical competition, consumer culture and social justice. Taking an interdisciplinary approach, this book examines the complex questions raised by the phenomenon of football as a significant cultural force in the Middle East, as well as its linkages to broader political and socioeconomic processes. The establishment of football as a national sport offers significant insight into the region's historical experiences with colonialism and struggles for independence, as well as the sport's vital role in local and regional politics today—whether at the forefront of

popular mobilisations, or as an instrument of authoritarian control. Football has also served as an arena of contestation in the formation of national identity, the struggle for gender equality, and the development of the media landscape. The twelve contributions to this volume draw on extensive engagement with the existing body of literature, and introduce original research questions that promise to open new directions for the study of football in the Middle East.

Al Jazeera and the Global Media Landscape Tine Ustad Figenschou, 2013-10-15 This book analyzes how and why Al Jazeera English (AJE) became the channel of choice to understand the massive protests across the Arab world 2011. Aiming to explain the 'Al Jazeera moment,' it tracks the channel's bumpy road towards international recognition in a longitudinal, in-depth analysis of the channel's editorial profile and strategies. Studying AJE from its launch in mid-November 2006 to the 'Arab Spring', it explains and problematizes the channel's ambitious editorial agenda and strategies, examines the internal conflicts, practical challenges and minor breakthroughs in its formative years. The Al Jazeera-phenomenon has received massive attention, but it remains under-researched. The growth of transnational satellite television has transformed the global media landscape into a complex web of multi-vocal, multimedia and multi-directional flows. Based on a combination of policy-, production- and content analysis of comprehensive empirical data the book offers an innovative perspective on the theorization of global news contra-flows. By problematizing the distinctive characteristics of AJE, it examines the strategic motivation behind the channel and the ways in which its production processes and news profile are meant to be different from its Anglo-American competitors. These questions underscore a central nexus of the book: the changing relationship between transnational satellite news and power.

Global Media Sport David Rowe, 2011-12-01 This book is available as open access through the Bloomsbury Open Access programme and is available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com). How has globalization impacted on sports media? What are the economic ramifications? And what is the future of sports media? In order to answer these questions, this book investigates the constituents, dimensions and implications of the flows of media sport from the Global West to the Global East, and in the reverse direction. At an historical moment when the relative stability of the Western media sport order is under challenge, it analyses a range of key structures, practices and issues whose ramifications extend far beyond the fields of play and national contexts in which sport events take place. The book will appraise and analyse the state of sports television, rise of new sports media, emergence of hybrid sport cultural forms, eruption of sport-related political controversies, scandals and power struggles, mutations of forms of global sport fandom, and projections of the future of global media sport. In bringing together the latest research from across a number of disciplines, this book offers an exciting contribution to the emerging field of global sports media.

Al Jazeera Hugh Miles, 2010-03-04 With more than fifty million viewers, Al Jazeera is one of the most widely watched news channels in the world. It's also one of the most controversial. Set up by the eccentric Emir of Qatar, who turned a failed BBC Arabic television project into an Arab news channel, Al Jazeera quickly became a household name after September 11th by delivering some of the biggest scoops in television history, including airing a taped speech from Osama bin Laden. Lambasted as a mouthpiece for Al Qaeda, little is actually known about Al Jazeera and its operations. Financed by one of the wealthiest countries in the world, Al Jazeera quickly established itself as the premiere news channel in the Islamic world by covering events Arabs cared about in a way they had never seen before. However, accusations of ties to Al Qaeda continue to plague it. Their journalists have been accused of spying for everyone from Mossad to Saddam Hussein, sometimes simultaneously. This the story behind the Arab news channel that makes the news.

Arab Migrant Communities in the GCC Zahra Babar, 2017-07-01 Long a recipient of migrants from its surrounding areas, the Arabian Peninsula today comprises a mosaic of communities of diverse ethnic, cultural, linguistic and religious origins. For decades, while the Gulf Cooperation Council (GCC) states have housed and employed groups of migrants coming and going from Asia, Africa and the West, they have also served as home to the older, more settled communities that have come from neighbouring Arab states. Arab Migrant Communities in the GCC is a unique, original work of scholarship based on in-depth fieldwork shedding light on a topic both highly relevant and woefully understudied. It focuses on the earlier community of Arab immigrants within the GCC, who are among the politically most significant and sensitive of migrant groups in the region. Through its multi-disciplinary lenses of social history, cultural studies, economics, and political science, the book presents original data and provides analyses of the settlement and continued evolution of migrant Arab communities across the GCC, their work in and assimilation within host societies and labour markets, and their political, economic, social and cultural significance both to the GCC region and to their countries of origin.

Contemporary Arab Broadcast Media El Mustapha Lahlali, 2011-06-06 This book presents a detailed study of the three dominant Arab media channels - Al-Jazeera, Al-Hurra and Al-Arabia - and their role post-9/11.

Al Jazeera Phenomenon Mohamed Zayani, 2019-05-23 Few phenomena in the Arab world are more controversial than Al Jazeera - the satellite television news channel that, despite its brief history, has made its impact known throughout the world and changed the face of a formerly parochial Arab media. This timely collection of articles, many by Arabic-speaking scholars, gives us more information and analysis of the network - and how it has affected the public and even the foreign policies of Western governments - than any other of the very few books published in English up to now. The book provides rare insights into Al Jazeera's politics, its agenda, its programs, its coverage of regional crises, and its treatment of the West. The authors attempt to gauge the station's impact on ordinary Arab viewers, understand its effect on an increasingly visible Arab public sphere, and map out the role it plays in regional Arab politics. The image of Al Jazeera that emerges from this book is much more complex than its depiction in American media. It reveals the powerful role that the network plays in shaping ideas and reconstructing Arab identities during a crucial juncture in Middle Eastern history and politics.

The Al Jazeera Effect Philip Seib, 2011-09 The battle for hearts and minds in the Middle East is being fought not on the streets of Baghdad, but on the newscasts and talk shows of Al Jazeera. The future of China is being shaped not by Communist Party bureaucrats, but by bloggers working quietly in cyber cafes. The next attacks by al Qaeda will emerge not from Osama bin Laden's cave, but from cells around the world connected by the Internet. In these and many other instances, traditional ways of reshaping global politics have been superseded by the influence of new media--satellite television, the Internet, and other high-tech tools. What is involved is more than a refinement of established practices. We are seeing a comprehensive reconnecting of the global village and a reshaping of how the world works. Al Jazeera is a paradigm of new media's influence. Ten years ago, there was much talk about the CNN effect, the theory that news coverage--especially gripping visual storytelling--was influencing foreign policy throughout the world. Today, the Al Jazeera effect takes that a significant step further. The concept encompasses the use of new media as tools in every aspect of global affairs, ranging from democratization to terrorism, and including the concept of virtual states. The media are no longer just the media. They have a larger popular base than ever before and, as a result, have unprecedented impact on international politics. The media can be tools of conflict and instruments of peace; they can make traditional borders irrelevant and unify peoples scattered across the globe. This phenomenon, the Al Jazeera effect, is reshaping the world.

American Islamophobia Khaled A. Beydoun, 2018-04-03 On Forbes list of 10 Books To Help You Foster A More Diverse And Inclusive Workplace How law, policy, and official state rhetoric have fueled the resurgence of Islamophobia—with a call to action on how to combat it. “I remember the four words that repeatedly scrolled across my mind after the first plane crashed into the World Trade Center in New York City. ‘Please don’t be Muslims, please don’t be Muslims.’ The four words I whispered to myself on 9/11 reverberated through the mind of every Muslim American that day and every day after.... Our fear, and the collective breath or brace for the hateful backlash that ensued, symbolize the existential tightrope that defines Muslim American identity today.” The term “Islamophobia” may be fairly new, but irrational fear and hatred of Islam and Muslims is anything but. Though many speak of Islamophobia’s roots in racism, have we considered how anti-Muslim rhetoric is rooted in our legal system? Using his unique lens as a critical race theorist and law professor, Khaled A. Beydoun captures the many ways in which law, policy, and official state rhetoric have fueled the frightening resurgence of Islamophobia in the United States. Beydoun charts its long and terrible history, from the plight of enslaved African Muslims in the antebellum South and the laws prohibiting Muslim immigrants from becoming citizens to the ways the war on terror assigns blame for any terrorist act to Islam and the myriad trials Muslim Americans face in the Trump era. He passionately argues that by failing to frame Islamophobia as a system of bigotry endorsed and emboldened by law and carried out by government actors, U.S. society ignores the injury it inflicts on both Muslims and non-Muslims. Through the stories of Muslim Americans who have experienced Islamophobia across various racial, ethnic, and socioeconomic lines, Beydoun shares how U.S. laws shatter lives, whether directly or inadvertently. And with an eye toward benefiting society as a whole, he recommends ways for Muslim Americans and their allies to build coalitions with other groups. Like no book before it, American Islamophobia offers a robust and genuine portrait of Muslim America then and now.
