Amazing Journeys Jules Verne, 2012-02-01 New, superbly translated omnibus of five of Jules Verne's most renown stories. One of the best storytellers who ever lived.--Arthur C. Clarke In one dazzling decade, French novelist Jules Verne took readers places they'd never gone before. . .the age of dinosaurs. . .the undersea realm of Atlantis. . .the craters and crevices of the moon. . .and a whirlwind aerial tour of the planet earth! Though he penned his unforgettable yarns in French, Verne plunked big parts of them down in America. And he himself possessed an American sassiness, nerve, and sense of humor, so Americans have returned the compliment: we've released dozens of Hollywood films based on his astonishing tales, and we've created the U.S.S. Nautilus, the NASA space missions, and other technological triumphs that have turned Verne's visions into practical reality. Here are Jules Verne's best-loved novels in one convenient omnibus volume, but with a huge difference. This book features new, accurate, accessible, and unabridged translations of these five visionary classics, translations that are complete down to the smallest substantive detail, that showcase Verne's farseeing science with unprecedented clarity and accuracy, capture the wit, prankishness, and showbiz flamboyance of one of literature's leading humorists and satirists. This is a Verne almost completely unknown to Americans. . .yet a Verne who has an uncannily American mindset! So these heroes and happenings are part of our heritage: Phileas Fogg chugging across the wild, wild west. . .the impossible underground journey of Professor Lidenbrock. . .the deep-sea exploits of secretive Captain Nemo. . .and a moon shot so realistic, it inspired U.S. astronaut Frank Borman a full century later. Jules Verne was a science buff with a showbiz background, and finally these classic stories have a translator with the same orientation: Frederick Paul Walter is one of America's foremost Verne scholars. . . But he's also a scriptwriter, broadcaster, and part-time fossil hunter! Enriched with dozens of classic illustrations, *The Amazing Journeys of Jules Verne* will be a family favorite in every home library. Jules Verne was born in 1828 into a French lawyering family in the Atlantic coastal city of Nantes. Though his father sent him off to a Paris law school, young Jules had been writing on the side since his early teens, and his pet topics were the theater, travel, and science. Predictably enough, his legal studies led nowhere, so Verne took a day

job with a stock brokerage, in his off hours penning scripts for farces and musical comedies while also publishing short stories and novelettes of scientific exploration and adventure. His big breakthrough came when he combined his theatrical knack with his scientific bent and in 1863 published an African adventure yarn, *Five Weeks in a Balloon*. After that and till his death in 1905, Jules Verne was one of the planet's best-loved and best-selling novelists, publishing over sixty books. In addition to the five visionary classics in this volume, other imaginative favorites by him include *The Mysterious Island*, *Hector Servadac*, *the Begum's Millions*, *Master of the World*, and *The Meteor Hunt*. Verne ranks among the five most translated authors in history, along with Mark Twain and the Bible. Frederick Paul Walter is a scriptwriter, broadcaster, librarian, and amateur paleontologist. A Trustee of the North American Jules Verne Society, he served as its Vice President from 2000 to 2008. Walter has produced many media programs, articles, reviews, and papers on aspects of Jules Verne and has collaborated on translations and scholarly editions of three Verne novels: *The Meteor Hunt*, *The Mighty Orinoco*, and a special edition of *20,000 Leagues Under the Seas* for the U.S. Naval Institute in Annapolis. Known to friends as Rick Walter, he lives in Albuquerque, New Mexico.

Amazing Love Mae Nunn, 2011-01-17 Texas beauty Claire Savage learned a hard lesson the day her father left to pursue his selfish dreams. Trust no one. Now in possession of an MBA, and the owner of her own business, she felt in control. A woman like her had no use for church newcomer and former rocker Luke Dawson. What kind of a man had nothing better to do than produce music for her church's youth band? The kind of man she needed to keep an eye on. Be Amazing Jim Anaple, 2011-05-23 Growing up in middle class Toledo, Ohio in the 1980s career choices were somewhat limited to working in factories or in the medical field. I came from a very stable home as the oldest of six kids with two hard working parents that provided for us but didn't spoil us. Our parents gave us a private education grades 1 - 12 and my Father helped get me a summer job to pay for college at the local General Motors plant where he worked. In college I had two majors, one in Political Science and one in Communications. As part of my Communications major I got an internship at the local rock n roll radio station which resulted in becoming the morning show producer for the the well known morning show team of Karlson and McKenzie with that radio station. This story is about what happened from there. It's about dealing with the unpredictable changes that happen with your company and your career and what happens when they overlap. It's also a story about who and what can influence your decision to stay, or to leave.

Amazing Chesed Rabbi Rami Shapiro, 2012-11-12 The question isn't whether grace is there for you in Judaism. The question is, do you have the courage to accept it? Chesed isn't a reward; it is reality. God's grace isn't limited to what we want to happen or might like to happen. God's grace is what is happening whether we like it or not. In short, God's grace is the giving of all to all. —from the Introduction Ask almost any Jew whether grace is a central concept in Judaism and an essential element in living Jewishly and, chances are, their answer will be “no.” But that's the wrong answer. This fascinating foray into God's love freely given offers you—regardless of your level of Jewish involvement—a way to answer that question in the affirmative. Drawing from ancient and contemporary, traditional and non-traditional Jewish wisdom, this book reclaims the idea of grace in Judaism in three ways: It offers a view of God that helps you understand what grace is, why grace is, and how grace manifests in the world. It sets forth a reading of Judaism that is grace-filled: an understanding of creation, Shabbat and other Jewish practices from a grace-filled perspective. It challenges you to be embraced and transformed by grace, and to live life as a vehicle for God's grace, thereby fulfilling the promise of being created in God's image and likeness.

Amazing Animals Scientific American Editors, 2017-11-20 Humans tend to think that we are unique in our intelligence, social skill and depth of emotion. We tend to forget that we are animals too, and if we're paying attention, we might see a bit of ourselves in the sheer variety of species, with their myriad behaviors, survival skills, social and communication systems and other traits. For example, it might seem baffling that a certain African termite would build mud homes that can reach 18 feet tall – until we find out that they're not the latest style in insect McMansions, but rather the height works for climate control. In this eBook, we gather recent research on animal behavior, including surprising discoveries of how animals think and feel, from man's best friend to some of the earth's oddest creatures. In examining the act of mourning, for instance, mounting evidence indicates that species from dolphins to elephants to cats and dogs experience grief over the loss of loved ones. Killer whales appear to be splitting into separate species over, of all things, cultural differences in food acquisition – currently a hot button issue for our own species. The animal kingdom teems with secret stories of strange and fascinating lives, some of which can help remind us what it means to be human.
