Cop On: What It Is and Why Your Child Needs It Colman Noctor, 2015-02-27

Raise your child with cop on – give them the grit and good judgment to cope with life's challenges Full of expert advice tempered by first-hand experience of modern parenthood, Cop On is the perfect book to help you navigate the uncharted territories of modern parenthood. From the best way to supervise your children's internet usage to communication in the age of Web 2.0, Cop On will show you how to not only survive today's challenges but to raise children who thrive on them. Colman Noctor, an experienced child and adolescent psychologist and, more importantly, a parent himself, takes a realistic, grounded and sensible approach to the pressures of parenting in the modern world: from sky-high academic expectations to crowded extracurricular schedules to the rapid growth of social media and digital technology, each has taken its toll on family life, making it difficult to foster a nurturing and calm environment at home. In Cop On, Colman Noctor, who has spent his professional life managing the ill-effects of anxiety in children and adolescents, identifies the key to negotiating these challenges as better communication and, more importantly, learning to see yourself

through your child's eyes. His honest, direct and practical insights will help you: - Identify and ease the sources of anxiety in your household routine - Learn the real value of encouraging self-worth, problem solving, emotional intelligence and 'cop on' in your children - Differentiate between parenting wants and parenting needs - Understand modern-day parenting phenomena like the GAA Tiger Mom, the M50 Parent, Trampoline Trauma and Grandparenting ParentingBy focusing on the quality of 'cop on', Noctor will help you raise your children with the grit and good judgment to cope with whatever challenges come their way, no matter what the future holds.

The Big Pivot Andrew S. Winston, 2014-03-11 We live in a fundamentally changed world. It's time for your approach to strategy to change, too. The evidence is all around us. Extreme weather, driven by climate change, is shattering records all over the planet. Our natural resources are in greater demand than ever before as a billion more people enter the global middle class, wanting more of everything. Radical transparency is opening up company operations and supply chains to public scrutiny. This is not some futuristic scenario or model to debate, but today's reality. We've passed an economic tipping point. A weakening of the foundations of our planetary infrastructure is costing businesses dearly and putting our society at risk. The mega challenges of climate change, scarcity, and radical transparency threaten our ability to run an expanding global economy and are profoundly changing "business as usual." But they also offer unprecedented opportunities: multi-trillion-dollar markets are in play, and the winners of this new game will profit mightily. According to Andrew Winston, bestselling author (*Green to Gold*) and globally recognized business strategist, the way companies currently operate will not allow them to keep up with the current—and future—rate of change. They need to make the Big Pivot. In this indispensable new book, Winston provides ten crucial strategies for leaders and companies ready to move boldly forward and win in this new reality. With concrete advice and tactics, and new stories from companies like British Telecom,

Diageo, Dow, Ford, Nike, Unilever, Walmart, and many others, The Big Pivot will help you, and all of us, create more resilient businesses and a more prosperous world. This book is the blueprint to get you started.
