Alternative Scriptwriting Ken Dancyger, Jeff Rush, 2012-08-21 Alternative Scriptwriting 4E is an insightful and inspiring book on screenwriting concerned with challenging you to take creative risks with genre, tone, character, and structure. Concerned with exploring alternative approaches beyond the traditional three-act structure, Alternative Scriptwriting first defines conventional approach, suggests alternatives, then provides case studies. These contemporary examples and case studies demonstrate what works, what doesn't, and why. Because the film industry as well as the public demand greater and greater creativity, one must go beyond the traditional three-act restorative and predictable plot to test your limits and break new creative ground. Rather than teaching writing in a tired formulaic manner, this book elevates the subject and provides inspiration to reach new creative heights.

Encyclopedia of Hip Hop Literature Tarshia L. Stanley, 2008-12-30 Hip Hop literature, also known as urban fiction or street lit, is a type of writing evocative of the harsh realities of life in the inner city. Beginning with seminal works by such writers as Donald Goines and Iceberg Slim and culminating in contemporary fiction, autobiography, and poetry, Hip Hop literature is exerting the same kind of influence as Hip Hop music, fashion, and culture. Through more than 180 alphabetically arranged entries, this encyclopedia surveys the world of Hip Hop literature and places it in its social and cultural contexts. Entries cite works for further reading, and a bibliography concludes the volume. Coverage includes authors, genres, and works, as well as on the musical artists, fashion designers, directors, and other figures who make up the context of Hip Hop literature. Entries cite works for further reading, and the encyclopedia concludes with a selected, general bibliography. Fresh insights are provided on such familiar topics as the redneck image, transitions to modernity and the prevalence of the Southern gothic. Other essays reflect the reinvigorated and expanding field of new Southern studies and topics include the transnational South, the intersection of ethnicity and environment and the cultural significance of Southern identity outside the South.

Spiritual Films James Piper, 2013-08-02 For decades, centuries even, when people thought of spirituality, they thought only of religion. I aim to stretch the tent of spirituality in this e-book to include secular experience. My particular approach to secular spirituality is through the medium of film. Characters in the 43 films I discuss come to spirituality without religion. In some of these films, religion nibbles at the edges of events, as when, in the Brazilian film Central Station, Dora, the cynical letter writer, leaves hard-bitten Rio with a boy she hopes to return to his father and finds herself surrounded by evangelicals, shrines, and churches. She does not have any kind of religious conversion, but there is no denying that the piety of the countryside softened her and escorted her into spirituality. Now and then I quote assorted Buddhists, Muslims, Christians and Jews, but usually only when their remarks throw light on secular matters. I have avoided relying on muddled mystics who write about the Great Turning Cosmic Oneness of Everything. I don't know what they are talking about.

Know What I Mean? Michael Eric Dyson, 2010-07 Whether along race, class or generational lines, hip-hop music has been a source of controversy since the beats got too big and the voices too loud for the block parties that spawned them. America has condemned and commended this music and the culture that inspires it. Dubbed 'the Hip-Hop Intellectual' by critics and fans for his pioneering explorations of rap music in the academy and beyond, Michael Eric Dyson is uniquely situated to probe the most compelling and controversial dimensions of hip-hop culture. Know What I Mean? addresses salient issues within hip hop: the creative expression of degraded youth that has garnered them global exposure; the vexed gender relations that have made rap music a lightning rod for pundits; the commercial explosion that has made an art form a victim of its success; the political elements that have been submerged in

the most popular form of hip hop; and the intellectual engagement with some of hip hops most influential figures. In spite of changing trends, both in the music industry and among the intelligentsia, Dyson has always supported and interpreted this art that bloomed un watered, and in many cases, unwanted from our inner cities. For those who wondered what all the fuss is about in hip hop, Dysons bracing and brilliant book breaks it all down.

Hip Hop in American Cinema Melvin Donalson, Melvin Burke Donalson, 2007 Hip Hop in American Cinema examines the manner in which American feature films have served as the primary medium for mainstreaming hip hop culture into American society. With their glamorizing portrayals of graffiti writing, break dancing, rap music, clothing, and language, Hollywood movies have established hip hop as a desirable youth movement. This book demonstrates how Hollywood studios and producers have exploited the profitable connection among rappers, soundtracks, and mass audiences. Hip Hop in American Cinema offers valuable information for courses in film studies, popular culture, and American studies.

Black Genders and Sexualities S. McGlotten, D. Davis, 2012-12-06 Cutting across the humanities and social sciences, and situated in sites across the black diaspora, the work in this book collectively challenges notions that we are living in a post-racial age and instead argue for the specificity of black cultural experiences as shaped by gender and sex.

Directory of World Cinema: American Independent John Berra, 2010-05-01 With high-profile Academy Award nominations and an increasing number of big-name actors eager to sign on to promising projects, independent films have been at the forefront in recent years like never before. But the roots of such critical and commercial successes as The Hurt Locker and Precious can be traced to the first boom of independent cinema in the 1960s, when a raft of talented filmmakers emerged to capture the attention of a rapidly growing audience of young viewers. A thorough overview of a thriving area of cultural life, Directory of World Cinema: American Independent chronicles the rise of the independent sector as an outlet for directors who challenge the status quo, yet still produce accessible feature films that not only find wide audiences but enjoy considerable box office appeal—without sacrificing critical legitimacy. Key directors are interviewed and profiled, and a sizeable selection of films are referenced and reviewed. More than a dozen sub-genres—including African American cinema, queer cinema, documentary, familial dysfunction, and exploitation—are individually considered, with an emphasis on their ability to engage with tensions inherent in American society. Copious illustrations and a range of research resources round out the volume, making this a truly comprehensive guide. At a time when independent films are enjoying considerable cultural cachet, this easy-to-use yet authoritative guide will find an eager audience in media historians, film studies scholars, and movie buffs alike.

The Darkest Hour Tk Simpson,2018-09-27 There are times in life when it seems like it is only getting worse. Times when it seems like it won't get any better. During these times it's pitch black... It's a storm. It's hard. It's painful and it is a struggle. These times are important. The times when you hear that it gets worse before it gets better. These times are part of the darkest hour. The darkest hour feels like a lifetime. It is just an hour and it does not last forever. The sun will always rise. The darkest hour is just before dawn. Introducing DJay DLite

Blackness Is Burning TreaAndrea M. Russworm,2016-10-03 Blackness Is Burning is one of the first books to examine the ways race and psychological rhetoric collided in the public and popular culture of the civil rights era. In analyzing a range of media forms, including Sidney Poitier's popular films, black mother and daughter family melodramas, Bill Cosby's comedy routine and cartoon Fat Albert, pulpy black pimp narratives, and several aspects of post-civil rights black/American culture, TreaAndrea M. Russworm identifies and problematizes the many ways in which psychoanalytic culture has functioned as a governing racial ideology that is built around a flawed understanding of trying to "recognize" the racial other as human. The main argument of Blackness Is Burning is that humanizing, or trying to represent in narrative and popular culture that #BlackLivesMatter, has long been barely attainable and impossible to sustain cultural agenda. But Blackness Is Burning makes two additional interdisciplinary interventions: the book makes a historical and temporal intervention because Russworm is committed to showing the relationship between civil rights discourses on theories of recognition and how we continue to represent and talk about race today. The book also makes a formal intervention since the chapter-length case studies take seemingly banal popular forms seriously. She argues that the popular forms and disreputable works are integral parts of our shared cultural knowledge. Blackness Is Burning's interdisciplinary reach is what makes it a vital component to nearly any scholar's library, particularly those with an interest in African American popular culture, film and media studies, or psychoanalytic theory.

Fear of a Hip-Hop Planet D. Marvin Jones,2013-04-01 Is Gangsta Rap just black noise? Or does it play the same role for urban youth that CNN plays in mainstream America? This provocative set of essays tells us how Gangsta Rap is a creative report about an urban crisis, our new American dilemma, and why we need to listen. Increasingly, police, politicians, and late-night talk show hosts portray today's inner cities as violent, crime-ridden war zones. The same moral panic that once focused on blacks in general has now been refocused on urban spaces and the black men who live there, especially those wearing saggy pants and hoodies. The media always spotlights the crime and violence, but rarely gives airtime to the conditions that produced these problems. The dominant narrative holds that the cause of the violence is the pathology of ghetto culture. Hip-hop music is at the center of this conversation. When 16-year-old Chicago youth Derrion Albert was brutally killed by gang members, many blamed rap music. Thus hip-hop music has been demonized not merely as black noise but as a root cause of crime and violence. Fear of a Hip-Hop Planet: America's New Dilemma explores—and demystifies—the politics in which the gulf between the inner city and suburbia have come to signify not only a socio-economic dividing line, but a new socio-cultural divide as well.
