**Simple & Easy Forex Trading Strategies** Josef Fluse, 2017-09-21 I have seen brand new Forex investors and traders around the world waste a serious amount of valuable education and training time on learning information that will not do them any good and can even cause them to lose some of their hard earned money right away in the live markets. No one wants that however it is a huge mistake that virtually all brand new Forex traders make because they don't know any better, after reading this book you will. I don't care where you trade from or what you trade, Dubai to Detroit or Mumbai to Manhattan doesn't matter because a chart is a chart and supply and demand is supply and demand, period, live markets don't work any other way no matter where in the world you are or what your trading even camels or goats. New Forex traders all around the world spend waaaaay too much time on looking for the magical combination of indicators, settings and colors they think will show them something that is going to help them make more money. There are no shortcuts or bells that go ding to tell you to enter the right position so stop looking right now and if you are using something like that and you're losing money that is why. All you need to see is right in front of you on the price chart and that is price and time. Those are the only things that professional Forex traders care about and nothing else. You can certainly use your chart like a crystal ball to tell you where price will go with a high degree of certainty. When you are done reading this book you will have an excellent basic explanation of what and what not to do before you even study anything or do any kind of education. The information in this book will put you on the fast track to becoming a successful self-directed Forex investor and trader no matter where you trade from in the world or what you trade with very little money invested. This book gives you the brutal and harsh truth of what happens in real life, in real time and in real money in the world's live markets every day. There are no short cuts and you must do the time if you want to drive your own money train to the bank.

*How to Trade Forex with Zero Fear* Christo Ricardo, It is huge step when you make the decision to become a Forex trader. Most brand new Forex traders are getting into this business because they think they can make quick money and become rich beyond their dreams. While that may be true, it is not as easy as one thinks and certainly will not happen as soon as one thinks. There are only two

groups of people who are doing business in the markets, the professionals and the retail investors and traders, which do you want to be? By buying this book you are taking the first step needed to end up in the group that achieves consistent low risk profits on a daily basis, the professionals and the smart money. If you are not ready to take that step yet then you may be a part of the group called the sheeple of the herd that provides those profits. While that may seem like a harsh statement, I think it's important to point out the a few of the harshest realities of how the markets work right up front, so you know what's at stake when your hard-earned money is at risk in the live market. Now with the advent of YouTube anyone with a video camera can record a video, plop it up on the internet and brand new unknowledgeable traders who are looking for information and seeing this and going "oh this must be right". Beware of this type of marketing as it can and will get you and your account into a lot of trouble very quickly. It is not about how much you know in this business but about the quality of what you know. Instead of learning it the simple way and keeping things very simple brand new traders tend to over complicate their learning curve, don't be that trader. You can use this book and the references, suggestions and tips in it to go further into your educational studies of the markets and there dynamics. Knowing market dynamics is going to be critical for you to have the winning edge you will need to be a successful market participant. By studying what this book suggests you will not become one of the 97% of the sheeple of the herd.

**Forex For Beginners** Dale Blake,2014-11-18 Trading is a worldwide phenomenon with trading platforms found in almost all countries. There are different types of trading, in the sense that in each category different products (trading products) are traded. There are three major trading markets. Capital markets is a trading market in which stocks and bonds are traded on a stock exchange. Commodities and derivatives market is in which financial products are traded which are derived from the underlying commodities. These commodities include, but are not limited to, oil and gas, gold, silver and so on and are traded on a central exchange. Lastly, forex (foreign exchange market ) is a marketplace where different currencies (foreign currencies) are traded on.

Forex Made Easy Stephen Benjamin, 2017-02-02 Forex Trading is one of the easiest businesses a man can set up. It does not require much start-up capital like you would if you are to establish a physical business. With a good device like a laptop or tablet, internet connection and a good broker, you can start with as low as \$100. You may ask if Forex is that easy, why is everyone not making it in Forex? The truth is Forex works and is one of the easiest means to make money online only if you have a trading edge. If you ask most people who lost money what did you trade? Why did you trade this set up? They will not be able to clearly define their trading edge and what they see before placing their trade. To succeed in Forex trading, you need to acquire the right skills, developed your confidence through demo trading and knows the right trading strategy that suits your personality. Forex is not about pulling the trigger when you see a big move; you need to have a TRADING EDGE. A Trading edge is what defines if you will succeed in this business or not. Your trading edge is the signals you are looking for in the market that will inform you when to buy and when to sell. This book is written to fill the gap by giving you the right trading edge that will help you to trade profitably in the market. If you have been trading before and you barely break even, or you are a beginner in the Forex business, I strongly believe implementing the strategies as explained in the chapters of the book will help you to realize your dream of making a success of Forex business. This trading edge works in all market and in all time frames. This book teaches you step by step how you can trade profitably without much knowledge of advance Forex techniques and still make money from the Forex market.

**Forex Trading Revealed Little Dirty Secrets and Weird But Powerful Tricks to Breaking the Bad Luck and Cracking the Code to Instant Easy Forex Millionaire** Trader X, 2014-01-19 You will not find this education at you brokers how to section. Most likely you will not find this information anywhere on this book section on any other book store. I have paid thousands of dollars on exclusive groups and paid forums to collect the information presented in this book. As you can imagine these are the highly guarded secrets of the elite of the FOREX traders, no one gives their living away, unless you pay them a price worth their living. However I have decided to make this information for ridiculously low price, because I am fed up with the brokers and the big banks taking advantage of the regular retail trader. Let me ask you a question? When was the last time you make money with FOREX? Even further more how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like you I started 5 years ago with high hopes of quitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k , how much longer I could continue like that, how much longer I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't see any longer and everything including the platform and your mind become blurry. I

know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a last try and throw that FOREX staff in the garbage, out the window. I stumbled on a rear tread, which since then has been banned, by the broker that was holding the forum. Luckily the tread continued under the broker's radar for while, and gathered a bunch of comments an support. Finally the tread from the trader X was discontinued. I was in dis pare, that was the only hope and light, I have seen for a long time. I was applying the advice from the trade and things were starting to work for me. Fortunately I was able to PM the trader and begged him to agree on a 20 min conversation on the phone. Trader X was not a guru, not your regular internet promoter mojo. He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching him every little bit of what he knew about trading. He didn't not agree to spend time teaching me on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him many years ago. What is comprised in the pages of this book will be worth pure gold to you. This book is down to the ground no no sense, real trading knowledge. It gives step by step instructions with real trade examples. This book is not your regular hog wash advice that you will find from your broker and the other magic bullets and seven step series that you see on this site. This book teaches you how to trade like the pros. Shows you how the big banks and foreign nationals and institution trade. The book opens your eyes to how to piggy back on the big institutional traders and win. Ninety Five percent of the people that trade the Forex market lose money and give up. The market is continually replaced by fresh blood like yourself. Don't become part of the statistics, read this book and get a map to success in FOREX. You can make a success in FOREX if you know what you are doing. Yes you can make a living with FOREX and quit your job. You can achieve your dreams. Buy this book and find out How?
