Encyclopedia of Percussion John H. Beck,2013-11-26 The Encyclopedia of Percussion is an extensive guide to percussion instruments, organized for research as well as general knowledge. Focusing on idiophones and membranophones, it covers in detail both Western and non-Western percussive instruments. These include not only instruments whose usual sound is produced percussively (like snare drums and triangles), but those whose usual sound is produced concussively (like castanets and claves) or by friction (like the cuíca and the lion's roar). The expertise of contributors have been used to produce a wide-ranging list of percussion topics. The volume includes: (1) an alphabetical listing of percussion instruments and terms from around the world; (2) an extensive section of illustrations of percussion instruments; (3) thirty-five articles covering topics from Basel drumming to the xylophone; (4) a list of percussion symbols; (5) a table of percussion instruments and terms in English, French, German, and Italian; and (6) an updated section of published writings on methods for percussion.

Amazon Town TV Richard Pace,Brian P. Hinote,2013-05-15 In 1983, anthropologist Richard Pace began his fieldwork in the Amazonian community of Gurupá one year after the first few television

sets arrived. On a nightly basis, as the community's electricity was turned on, he observed crowds of people lining up outside open windows or doors of the few homes possessing TV sets, intent on catching a glimpse of this fascinating novelty. Stoic, mute, and completely absorbed, they stood for hours contemplating every message and image presented. So begins the cultural turning point that is the basis of Amazon Town TV, a rich analysis of Gurupá in the decades during and following the spread of television. Pace worked with sociologist Brian Hinote to explore the sociocultural implications of television's introduction in this community long isolated by geographic and communication barriers. They explore how viewers change their daily routines to watch the medium; how viewers accept, miss, ignore, negotiate, and resist media messages; and how television's influence works within the local cultural context to modify social identities, consumption patterns, and worldviews.

Stars and Stardom in Brazilian Cinema Tim Bergfelder, Lisa Shaw, João Luiz Vieira, 2016-12-01 Despite the recent explosion of scholarly interest in "star studies," Brazilian film has received comparatively little attention. As this volume demonstrates, however, the richness of Brazilian stardom extends well beyond the ubiquitous Carmen Miranda. Among the studies assembled here are fascinating explorations of figures such as Eliane Lage (the star attraction of São Paulo's Vera Cruz studios), cult horror movie auteur Coffin Joe, and Lázaro Ramos, the most visible Afro-Brazilian

actor today. At the same time, contributors interrogate the inner workings of the star system in Brazil, from the pioneering efforts of silent-era actresses to the recent advent of the non-professional movie star.
