The Art of Active Listening Heather Younger,2023-04-25 Improve communication, engagement, and culture with active listening. When employees, colleagues, and customers are not being heard, organizational culture, employee happiness, and overall organizational success will suffer. How well do you listen? Active listening is the doorway to increased belonging, loyalty, profitability, innovation, and so much more. It is the difference between thinking we understand what people want and knowing what they want. Want to build stronger relationships, avoid misunderstandings, and anticipate problems before they surface at work? All you have to do is listen. The Art of Active Listening introduces a 5-step framework that shows you how to listen successfully and act upon what you are hearing. Readers will discover how to: 1. Recognize the unsaid 2. Seek to understand 3. Decode 4. Act 5. Close the loop Backed by her personal review of over 30,000 employee and customer surveys and facilitation of 100's of focus groups, Younger discovered one universal truth: We all want to be heard. We want our voices to matter. We want the work we do to matter. When we get this right - when we listen to our employees and customers and care about them not just for what they can do but for who they ARE - they can and will move mountains. Using the tools provided in this book, you can implement active listening, regardless of whether you're in-person or virtual, that benefits all team members and customers, strengthens overall engagement, improves organizational culture and creates a space for everyone to have a voice. When those at work feel heard, they will do whatever it takes to achieve outcomes that serve your relationship and your organization.

The Art of Caring Leadership Heather R Younger, 2021-04-13 If your people know you care about them, they will move mountains. Employee engagement and loyalty expert Heather Younger outlines nine ways to manifest the radical power of caring support in the workplace. Here's the thing: most leaders think of themselves as caring leaders, but not all of them act in alignment with what that means for employees. Leaders may not be able to identify the level of care they are extending to their employees, but all employees intuitively know whether their bosses or managers are caring for them. Heather Younger argues that if you are looking for increased productivity, customer satisfaction, or employee engagement, you need to care for your employees first. Genuinely caring for people means that you want to see them succeed for themselves, not just for what they can do for you, your team, or your organization. This book incorporates ten sections with breakout stories and interviews that outline the necessary steps to make all employees feel included and cared for, as well as a call to action for all leaders. Younger states that leaders who have the positive power to change the lives of those they lead shouldn't just want to care for them; they should see it as imperative for the success of their employees and their organization.

Sports Fans 2.0 David M. Sutera, 2013-04-25 As of 2012, Twitter has over 100 million active users worldwide, and sports fans and athletes have proven to be some of the most prolific and adept users of Twitter and other social media platforms. In Sports Fans 2.0, David M. Sutera explores the increasingly participatory nature of contemporary sports fandom and spectatorship. He examines the ways in which digital media has created and facilitated new channels for sports fan engagement, and how technology has enhanced the fan's perception of participating in America's sports culture. The Cambridge Handbook of Intellectual Property and Social Justice Steven D. Jamar, Lateef Mtima, 2023-12-31 Protection for intellectual property has never been absolute; it has always been limited in the public interest. The benefits of intellectual property protection are meant to flow to everyone, not just a limited population of creators and the corporations that represent them. Given this social-utility function, intellectual property regimes must address issues of access, inclusion, and empowerment for marginalized and excluded groups. This handbook defines an approach to considering social justice in intellectual property law and regulation. Top scholars in the field offer surveys of social justice implementation in patents, copyright, trademarks, trade secrets, rights of publicity, and other major IP areas. Chapters define Intellectual Property Social Justice theory and include recommendations for reforming aspects of IP law and administration to further social justice by providing better access, more inclusion, and greater empowerment to marginalized groups.

Four Parts, No Waiting Gage Averill, 2003-02-20 Four Parts, No Waiting investigates the role that vernacular, barbershop-style close harmony has played in American musical history, in American life, and in the American imagination. Starting with a discussion of the first craze for Austrian four-part close harmony in the 1830s, Averill traces the popularity of this musical form in minstrel shows, black recreational singing, vaudeville, early recordings, and in the barbershop revival of the 1930s. In his exploration of barbershop, Averill uncovers a rich musical tradition--a hybrid of black and white cultural forms, practiced by amateurs, and part of a mythologized vision of small-town American life. Barbershop harmony played a central -- and overlooked -- role in the panorama of American music. Averill demonstrates that the barbershop revival was part of a depression-era neo-Victorian revival, spurred on by insecurities of economic and social change. Contemporary barbershop singing turns this nostalgic vision into lived experience. Arguing that the old songs function as repositories of idealized social memory, Averill reveals ideologies of gender, race, and class. This engagingly-written, often funny book critiques the nostalgic myths (especially racial myths) that have surrounded the barbershop revival, but also celebrates the civic-minded, participatory spirit of barbershop harmony. The contents of the CD have been replaced by a companion website with helpful links, resources, and audio examples.

God-Given Gifts and Talents Samuel Lartey,2013-06-10 All around you, there are people who are hurting, people who need your love and people who need your encouragement. Let God use your gifts and talents to bless them. God gives each of us our own unique gifts. It is our responsibility to recognize these gifts, nurture them and utilize them to live up to our full potential. By looking around and inside of you, you will soon recognize what you can do best. It may be creative, intellectual, artistic abilities or strength of character. God gives these abilities to enable you to succeed in life but it's entirely up to you to put them to work. One may ask why it is so common to see many gifted people unsuccessful in spite of their profound abilities. Of course, there is not a single person who has inherited a gold or oil field who would like to live in poverty. But however unfortunate it may seem, most people with heavenly resources (gifts and talents) are not effectively using them and that explains why they are not successful yet. In our world today, many people are of the notion that because gifts and talents are called Grace, there is no need to put your abilities to work; just sit and wait patiently for your time and season. In this book, I try to demystify this myth. I beg to differ: gifts do not grow by themselves; gifts have to be developed. Sir Winston Churchill said, To every person there comes in their lifetime that special moment when you are figuratively tapped on the shoulder and offered the chance to do a very special thing, unique to you and your talents. What a tragedy if that moment finds you unprepared or unqualified for work which could have been your finest hour.

Any Version of History Is Just a Story Saeed Al Mubarak, 2020-02-16 This book is for people who desire to change their perspective and outlook about life, death, money, culture, beliefs and most importantly, history. Throughout history, most people accepted and embraced the world they were born into and they were ridiculed whenever they questioned their worlds. If you were born in Saudi Arabia, America or China, you would most probably be a Muslim speaking Arabic, a Christian speaking English or a Buddhist speaking Mandarin, respectively. It would be no coincidence that everyone believes they possess the truth and are the only people in a covenant with God. Societies that do not question the traditions of the past would never evolve. Do not wait until the time comes when you ask yourself, how did anyone accept that world the way it was? I would like to share with you the views of three respected people who have generously shared their brief reviews, namely, Dr. Marshall Goldsmith, Dr. Heather R. Younger and Bruce Kananoff. This is one of the books that I encourage you to read and think about its thought provoking ideas and how they really connect to you in a very profound way. This is a very powerful and inspiring book that calls us to open our minds to moments of communions, tolerance and peace. It took courage to write this book and will take courage to read it. Dr. Marshall Goldsmith, #1 New York Times bestselling author of Triggers, MOJO and What Got You Here Won't Get You There. In this book, Saeed demonstrates his grasp on humanity and shows us how to think about doing the same. If you are looking for a tool to help you re-frame your thoughts and become energized to follow that up with action that can change the world for the better, take some time to read the pages in this book. Heather R. Younger, J.D., best-selling author of The 7 Intuitive Laws of Employee Loyalty, host of the Leadership with Heart podcast and Founder and CEO of Customer Fanatix, L.L.C. Although Saeed writes halfway around the world in a very different culture, it is obvious to me that we have similar values. In re-reading Saeed's writings, he helped me to remember a lesson that too many of us forget: that great insights can come from other industries, other professions, other countries and other cultures. The greatest encouragement I can offer you is that Saeed's work makes me think; I am confident he will do the same for you. Bruce Kananoff, Co-founder of Ikigai Park City. I would like to leave you with few questions that you may be able to answer after reading the book: Do you know if your version of history is absolutely right? Do you know what is right and what is wrong? Do you know if what you do not know is more important than what you know? Do you know that it is not always what it seems to be? Do you know if you are a voice or an echo? Do you know if the choices you make are really your own choices? After reading this book, you will discover that you might not know it all, honor that others see things differently, and recognize that you and others might be equally wrong. You will enjoy and learn from any version of history; it is just a STORY.
