Blood Crazy Simon Clark, 2014-10-28 It is a quiet, uneventful Saturday in Doncaster. Nick Aten, and his best friend Steve Price – troubled seventeen year olds – spend it as usual hanging around the sleepy town, eating fast food and planning their revenge on Tug Slatter, a local bully and their arch-enemy. But by Sunday, Tug Slatter becomes the last of their worries because somehow overnight civilization is in ruins. Adults have become murderously insane – literally. They're infected with an uncontrollable urge to kill the young. Including their own children. As Nick and Steve try to escape the deadly town covered with the mutilated bodies of kids, a group of blood-thirsty adults ambushes them. Just a day before they were caring parents and concerned teachers, today they are savages destroying the future generation. Will Nick and Steve manage to escape? Is their hope that outside the Doncaster borders the world is 'normal' just a childish dream? *Blood Crazy*, first published in 1995, is a gripping, apocalyptic horror from Simon Clark.

Free Expression In The Age Of The Internet Jeremy Lipschultz, 2018-03-08 In *Free Expression in the Age of the Internet*, Jeremy Lipschultz investigates the Internet and its potential for profound change, analyzing the use of its technology from social, political, and economic perspectives. Lipschultz provides new insights on traditional legal concepts such as marketplace of ideas, social responsibility, and public interest, arguing that from a communication theory perspective, free expression is constrained by social norms and conformity. In *Free Expression in the Age of the Internet*, Jeremy Lipschultz investigates the Internet and its potential for profound change, analyzing the use of its technology from social, political, and economic perspectives. Lipschultz provides new insights on traditional legal concepts

such as marketplace of ideas, social responsibility, and public interest, arguing that from a communication theory perspective, free expression is constrained by social norms and conformity. Lipschultz explores social limits on free expression by first examining history of print and electronic media law and regulation. He utilizes the gatekeeping metaphor, the spiral of silence, and diffusion theory to explore current data on the Internet. He uses *Reno v. ACLU* (1997) as a case study of current First Amendment thinking. This book includes recent evidence, including samples of content from Internet gossip columnist Matt Drudge, and the investigation of President Clinton as it unfolded on the World Wide Web. The analysis is related to broader issues about Internet content, including commercial and other communication. The new technologies raise new questions about legal and social definitions of concepts such as privacy. Free expression is explored in this book under the umbrella of a global, commercial economy that places importance on legal rights such as copyright, even where those rights limit free flow of ideas. The Internet places free expression on two tracks. On the one hand, corporate players are developing cyberspace as a new mass media. On the other hand, the Internet is virtual space where individuals have the power to connect and communicate with others in ways never before seen. This groundbreaking text advancing new media scholarship uses the most current case studies from the Internet to show free expression in practice today. Lipschultz presents a relevant and efficacious social communication theory of free expression which critically examines the necessary factors involved in comprehensive policy analysis and enactment.
