**Ghost Box** Chris Moon, Paulette Moon, 2017-08-08 The Ghost Box: A Device of Fascination and Fear Discover the mind-blowing, bone-chilling stories of a leading investigator as he pioneers the use of this intriguing tool Chris Moon was the first investigator to use the celebrated device known as the ghost box to facilitate real-time, two-way communication with the spirit world. In *Ghost Box*, Chris shares the extraordinary spiritual contacts he's made with the box during investigations of famous haunted locations such as the Sallie House and the Lizzie Borden House. Also revealed in this amazing book are Chris's experiences using the box to communicate with the spirit of Abraham Lincoln, JFK assassination witnesses, shadow people, and the spirits who come through during his frequent gallery readings. Based on Thomas Edison's designs for the Telephone to the Dead, this device—also called Frank's Box in honor of its designer Frank Sumption—has been used to communicate with an incredible variety of spirits and astral beings. This book shares the fascinating story of how Frank's Box came to be and explores the startling truths of the spirit world. Praise: [T]his book will please fans of ghost-hunting stories.—Publishers Weekly

Ghost Hunting James Trainor,2023-08-26 The ultimate ghost hunting equipment guide to aid you on your investigations, see what equipment people use on their ghost hunts Our guide tells you about all different kinds of equipment's, prices, what they do, and there faults if any great for someone just wanting to start ghost hunting, or even the most experienced investigator. Readers will discover: What we think ghosts are Best ghost hunting tools Effective paranormal investigation techniques Conducting your first ghost hunt The issue of mortality offers a different perspective on the motivations for participating in a paranormal activity or ghost hunting. Individuals appear to truly have to be aware assuming that there is post-existence. Therefore, ghost hunting has a more serious side in addition to the thrill and apprehension. Participants may have additional questions if there is any activity during a ghost hunt. They are now in a position where it is in doubt, even if they initially thought it was unbelievable. This is a very difficult place to be, and all ghost hunt event organizers should acknowledge this on behalf of their clients and assist them in discussing how they've been feeling and their conclusions regarding what they've seen.

*Ghost Hunting For The Beginner* Ken Russell,2015-03-03 The idea of ghosts existing is hard for most people to believe, but there is an accumulation of evidence in that appears to prove otherwise. Until one is actually involved in investigating the subject, an opinion cannot truly be formed one way or the other. The author, who has spent years of studying and investigating the paranormal, has written this book to help those who want to prove that there are ghosts in existence, or even to prove that they do not exist. With years of expertise in the subject, he keeps an open mind when confronted with any potentially paranormal phenomena, and checks everything very carefully before coming to a conclusion. With the help of this book, the paranormal investigator will be able to take steps to discover if there is a ghost haunting a location, who they were in life and why they're haunting that location now, and perhaps provide sufficient evidence to prove the ghost's existence, or that any phenomena experienced have a natural explanation.

**Probing the Darkness for Answers** Darla Vasilas,2013-09-26 From the sense of being touched on the arm, to having your name called on an EVP, to catching an unexpected figure in a photothese are some of the experiences we are going to tell you about. We will tell you about our equipment, how we work and our thoughts about the whole ghost hunting experience. But, most important, we will tell you about our investigations and what we found.

**Ghost Hunters** William W. Lace,2009-08 Do ghosts exist? Groups of ghost hunters are bringing modern technology to bear in seeking answers to this age-old question. This book tells how ghost hunters go about their investigations--using devices such as those that monitor or measure changes in light, sound, and temperature--and to what extent they have succeeded. It also examines the divide between those who see ghost hunting as science and those who see it as something less.
