The Best IPA Beers Cara Batema, 2012-02-29 ABOUT THE BOOK The story of IPA beer starts, as most tales of good beer usually do, in a British pub. The term "India Pale Ale" is a bit misleading because the beer is not brewed in India, but rather originates in Britain previously destined for the Indian marketplace. IPA beers originated as "October ales," named so because they were typically brewed during that month to accompany British sailors on their trips to the East Indies. The long journey proved problematic for darker beers; although often preferred by the British public, these beers would spoil by the end of the journey. The creation of the IPA solved the challenges of traveling for months by boat through extreme temperatures. IPAs in particular incorporate more hops, which contribute to the bitter, flowery, or citrusy flavors. The term "hops" refers to the flower of a particular vine, a quintessential aspect of beer-making. Historically, the production of IPA used hops to help stabilize beer on its journey to the Indies. Hops act as a natural preservative, so the beer would travel better with more hops during the days before modern refrigeration techniques. IPAs eventually gained popularity in Britain and other parts of the world (the American Pale Ale is a variation using American hops) as brewers served the beer in pubs, and consumers began to like and even prefer the flavor. MEET THE AUTHOR Cara Batema holds a Bachelor's degree in music and creative writing. EXCERPT FROM THE BOOK Try contrasting or complementing flavors. For example, couple a spicy pale ale with a spicy Thai or Indian dish. The spice and robustness of the beer works well with the bite of the food. On the flipside, pick a dry, bitter IPA to work with sweet fish like oysters. If you are into wine, think about lagers as white wine and ales as red wine. The heavy hops in the IPA act like acidity in wine, so an IPA might be more akin to a Zinfandel or Chianti. Most IPAs have medium body, so they work well in many dishes, but nothing too heavy or too light. In general, pair lighter beers with lighter food and heavy beers with heavier food. Try an IPA with rich vegetables like avocados, onion, or mushrooms. Beef and chicken, especially those with a little spice to them, also fare well with IPAs. At the end of the day, if you enjoy a good IPA, you will like it with almost any dish... Buy a copy to keep reading!

IPA Roger Protz, 2018-04-01 This is a long-awaited book from Roger Protz, a highly respected authority on beer, on the rebirth of IPA or India Pale Ale – one of the most popular styles in today's craft beer revolution. Around the world, young brewers, with passion, reverence and commitment, are bringing flavour back to beer after

decades of domination by global giants and their bland products. Such is the fervour for IPA that the journey started by India Pale Ale in Victorian England is far from over. 1. How the revival started: Covers the fascinating events that caused IPA to take off in the early 1990s, both in London at seminars and festivals, and in the US. By 2014, IPA is the leading category at the annual Great American Beer Festival. The renaissance is now worldwide, with IPAs brewed in Australia, Belgium, Canada, Denmark, Germany, Italy, Japan and elsewhere. 2. The history of IPA – its rise and fall were equally spectacular: Starting out as a beer for India, the style was first developed at the turn of the 19th century by a small brewery, Hodgson's, in East London. A three or four month journey to India was ideal for the style of beer and soon other breweries were sending large supplies to India. But IPA's hey-day is brief. By the end of the century, American and German brewers were sending lager beer to India and supplying ice to keep it cold. British brewers retreated and classic Victorian IPAs were dead. 3. How IPA is made: Covers the 19th-century method of brewing IPAs in Burton; and other recipes from craft breweries now using Victorian recipes. 4. Classic IPAs: Classic IPAs from the 19th century – Ballantine's IPA in the US, Worthington's White Shield in England and McEwans in Scotland. 5. The great revival: The role of New World hops from the US and New Zealand in creating dynamic new aromas and flavours for modern IPAs. Country by country tasting notes and key recipes for some 250 of the world's best IPAs, including the US, Britain, Canada, Australia & New Zealand, Belgium, Denmark, Germany, Netherlands, and Japan. 6. New beers on the block: The worldwide popularity of IPA has led to imaginative spin-offs from the traditional style.
