📖 *Doctor Who: The Last Dodo* Jacqueline Rayner, 2010-10-31 After a trip to the zoo, the Doctor and Martha go in search of a real life dodo, and are transported by the TARDIS to the mysterious Museum of the Last Ones. There, in the Earth section, they discover every extinct creature up to the present day - billions of them, from the tiniest insect to the biggest dinosaur, all still alive and in suspended animation. Preservation is the Museum's only job - collecting the last of every endangered species from all over the universe. And for millennia the Museum has been trying to trace one elusive specimen: the last of the Time Lords... Featuring the Tenth Doctor and Martha as played by David Tennant and Freema Agyeman in the acclaimed Doctor Who series from BBC Television.

📖 *Media Archaeology* Erkki Huhtamo, Jussi Parikka, 2011-06-16 This book introduces an archaeological approach to the study of media - one that sifts through the evidence to learn how media were written about, used, designed, preserved, and sometimes discarded. Edited by Erkki Huhtamo and Jussi Parikka, with contributions from internationally prominent scholars from Europe, North America, and Japan, the essays help us understand how the media that predate today's interactive, digital forms were in their time contested, adopted and embedded in the everyday. Providing a broad overview of the many historical and theoretical facets of Media Archaeology as an emerging field, the book encourages discussion by presenting a full range of different voices. By revisiting 'old' or even 'dead' media, it provides a richer horizon for understanding 'new' media in their complex and often contradictory roles in contemporary society and culture.
