The Culture of Design Guy Julier,2012-06-21 Praise for the first edition: 'Julier provides an important contemporary account of how design disciplines act and interact in the world.... an important resource for the student of design... perfection as a cultural studies text' - European Journal of Cultural Studies Aimed at students of design studies, design history, cultural studies and sociology, *The Culture of Design*, offers a unique overview of design practice in contemporary culture and society. Drawing on a range of theoretical perspectives, Julier nevertheless foregrounds the everyday business and professional context in which designers work. The second edition of *The Culture of Design*, has been thoroughly revised and updated, and contains new case studies, including one on the iPod. In addition, the book now has a new introductory chapter that outlines academic approaches to 'design culture' and an extended final chapter which looks at the links between design and management studies and how the creative industries function in the context of urban regeneration and social participation.

Developing Materials for Language Teaching Brian Tomlinson,2023-07-27

Behind Closed Doors: What Company Audit is Really About V. Beattie,R.

Brandt,S. Fearnley,2001-03-13 This book takes us 'behind closed doors' to uncover the nature of the relationship between the audit engagement partner and the company finance director in major listed companies. Based on matched interviews with finance directors and audited engagement partners of six listed companies, the book uncovers both sides' perceptions of how contentious and non-contentious issues are resolved. New insights are provided about the workings of the audit process itself, how negotiation is conducted and the personal relationships and balance of power between the auditors and the board of directors.

Ann Walker Rebecca Batley,2023-02-22 Lesbian. Lover. Lunatic. These are just some of the words usually used to describe Ann Walker, the oft

overlooked wife of Anne Lister, better known by some as Gentleman Jack. Ann was one half of England's first same-sex marriage and yet the rainbow plaque that marks their historic union on the wall of the Holy Trinity Church, York, features Ann's name in a font only half the size of her wife's. Her story has been long forgotten. Born into wealth and privilege Ann was one of the most eligible heiresses in 19th century Yorkshire and the question on everyone's lips in 1830's Halifax was why a respectable young heiress, with property, fortune and connection risked everything, even her freedom, to become entangled with the notorious Gentleman Jack? The answer to this question reveals a woman of immense courage, faith, and determination, but her voice has remained silent...until now. Within the depths of Ann's diary - discovered by Diane Halford in 2020 - the answers to some of the above questions can be found, as can insight into Ann as an independent woman. The life of Ann is worthy of its own narrative and it is time for Ann to step out of the shadow of Gentleman Jack and tell her own story.

Creativity in Student Teachers T.R.S. Reddy,2004 Primary education occupies the most important place in the ladder of education. The teacher training Institutes of Primary level which are now called as District Institutes of Education and Training (DIETs) play an important role in producing quality teachers for primary schools. Are these institutions producing creative teachers? Then who is an effective teachers? What are the qualities or characteristics of a good teacher? What criteria should be followed in the selection of candidates for teacher training and which typed of educational programme should be given for them? A variety of such questions are to be answered with empirical evidence.

The Oxford Handbook of Publishing Angus Phillips,Michael Bhaskar,2019-04-11 Publishing is one of the oldest and most influential businesses in the world. It remains an essential creative and knowledge industry, worth over \$140 billion a year, which continues to shape our education and culture. Two trends make this a particularly exciting time. The first is the revolution in communications technology that has transformed what it means to publish; far from resting on their laurels and retreating into tradition, publishers are doing as they always have - staying on the cutting edge. The second is the growing body of academic work that studies publishing in its many forms. Both mean that there has never been a more important time to examine this essential practice and the current state of knowledge. The Oxford Handbook of Publishing marks the coming of age of the scholarship in publishing studies with a comprehensive exploration of current research, featuring contributions from both industry professionals and internationally renowned scholars on subjects such as copyright, corporate social responsibility, globalizing markets, and changing technology. This authoritative volume looks at the relationship of the book publishing industry with other media, and how intellectual property underpins what publishers do. It outlines the complex and risky economics of the industry and examines how marketing, publicity, and sales have become ever more central aspects of business practice, while also exploring different sectors in depth and giving full treatment to the transformational and much discussed impact of digital publishing. This Handbook is essential reading for anyone interested in publishing, literature, and the business of media, entertainment, culture, communication, and information.

A Christian Peace Experiment Ian M. Randall, 2018-03-14 This book examines part of the development of the Bruderhof community, which emerged in Germany in 1920. Community members sought to model their life on the New Testament. This included sharing goods. The community became part of the Hutterite movement, with its origins in sixteenth-century Anabaptism. After the rise to power of the Nazi regime, the Bruderhof became a target and the community was forcibly dissolved. Members who escaped from Germany and travelled to England were welcomed as refugees from persecution and a community was established in the Cotswolds. In the period 1933 to 1942, when the Bruderhof's witness was advancing in Britain, its members were in touch with many individuals and movements. This book covers the Bruderhof's connections with (among others) the Fellowship of Reconciliation, Dietrich Bonhoeffer, the Peace Pledge Union, the social work of Muriel and Doris Lester in East London, Jewish refugee groups, and artistic pioneers like Eric Gill. As significant numbers of British people joined the Bruderhof, its farming, publishing and arts and crafts activities extended considerably. But with the outbreak of the Second World War, German members came to be regarded with suspicion and British members became unpopular locally because they were pacifists. Although the Bruderhof was defended in Parliament, notably by Lady Astor, it seemed that German members would be interned as enemy aliens. The consequence was that by 1942 over 300 community members had left England. With Mennonite assistance, they began to forge a new life in South America. This book traces a remarkable Christian peace experiment being undertaken in a time of great political upheaval.

Understanding Art Education Nicholas Addison, Lesley Burgess, John Steers, Jane Trowell, 2010-01-04 What is distinctive about art and design as a subject in secondary schools? What contribution does it make to the wider curriculum? How can art and design develop the agency of young people? Understanding Art Education examines the theory and practice of helping young people learn in and beyond the secondary classroom. It provides guidance and stimulation for ways of thinking about art and design when preparing to teach and provides a framework within which teachers can locate their own experiences and beliefs. Designed to complement the core textbook Learning to Teach Art and Design in the Secondary School, which offers pragmatic approaches for trainee and newly-qualified teachers, this book suggests ways in which art and design teachers can engage reflexively with their continuing practice. Experts in the field explore: The histories of art and design education and their relationship to wider social and cultural developments Creativity as a foundation for learning Engaging with contemporary practice in partnership with external agencies The role of assessment in evaluating creative and collaborative practices Interdisciplinary approaches to art and design Developing dialogue as a means to address citizenship and global issues in art and design education. Understanding Art Education will be of interest to all students and practising teachers, particularly those studying at M Level, as well as teacher educators, and researchers who wish to reflect on their identity as an artist and teacher, and the ways in which the subject can inform and contribute to education and society more widely.

Structural Depths of Indian Thought P. T. Raju, 1989-06-15 No other work treating Indian philosophy on a comparable scale contains the illuminating

comparisons between doctrines of Indian schools and the thought of Western philosophy ranging from Plato to Sartre and Wittgenstein...It will, moreover, contribute to the understanding of Western philosophy by Indian thinkers and vice versa...Raju has an intimate acquaintance with a remarkable range of Western thinkers and this distinguishes his work from most of what has gone before...Raju, moreover, is himself a critical thinker and consequently, although he has written a history, he treats the ideas and doctrines in a philosophical mode and his assessments of positions are often original and illuminating. -- John E. Smith, Clark Professor of Philosophy, Yale University Purpose: To deal with Indian philosophy in a fashion reflecting the way the best German historians of philosophy deal with Western philosophy...The book is remarkable for its comprehensiveness in combination with extensive critical discussions...Raju's book...is more critical than Radhakrishnan's and more philosophical than Dasgupta's. Radhakrishnan's comments are far less philosophically sophisticated and interesting than Raju's....a monument to a senior Indian philosopher's lifelong study and thoughtful critical consideration of the great classical systems of his tradition. -- Karl H. Potter, Professor of Philosophy, University of Washington Raju's credentials are impeccable. He is one of the few scholars in the world who could presume to write a major work on Indian thought. Accordingly, his knowledge of the Indian schools is accurate and impressive. To the extent that one of his intentions is to cast those schools in terms which make them more intelligible to western readers, his work measures up very well. -- Harold H. Oliver, Professor of Philosophy, Boston University

Creative Justice Mark Banks, 2017-01-30 *Creative Justice* examines issues of inequality and injustice in the cultural industries and the cultural workplace. It offers a comprehensive and considered account of the state-of-the-field in cultural studies and sociological thinking about cultural and creative industries work, education and employment, and seeks to address fundamental questions about the constitution of equality and inequality in the creative industries.

Language and Creativity at Work Michael Handford, Almut Koester, 2024-03-29 *Language and Creativity at Work: A Corpus-Assisted Model of Creative Workplace Discourse* explores linguistic creativity at work as well as the role of language in creative processes in the workplace. Using a mixed-methods approach involving corpus linguistics and discourse analysis, this book: Provides a critical comparison of previous studies in language and creativity in a linguistic context as well as in the context of businesses and entrepreneurship, and considers the insights that can be gained from both approaches Argues the case for workplace creativity as a linguistic and discursive phenomenon in addition to a cognitive or relational one Presents a model of creative workplace discourse that integrates creative language, the creative actions involving language, and alignment between speakers Employs spoken corpus data from a range of workplace contexts recorded over a 20-year period; Examines professional practice and creativity in two different professional contexts: a residential care home and a small start-up company, and explores the roles of constraints, leadership and alignment in these contexts Critically interrogates the notion of creativity as an inherently positive phenomenon and analyses instances of problematic creativity in the workplace Demonstrates how corpora can be used to underscore assessments of creativity and its realisations in real dialogic contexts. This book fills an

important gap in the literature on creativity within both language and organisational studies, and as such will be key reading for students and researchers of English language, applied linguistics, communication studies and business management.

Evelyn & William De Morgan Margaretta Frederick, 2022-09-02 A lively and multi-faceted account of Evelyn and William De Morgan, exploring a unique artistic partnership that spanned several cultural circles including the Pre-Raphaelites and Arts and Crafts movement With a partnership spanning two centuries, the Pre-Raphaelite painter Evelyn (1855-1919) and Arts and Crafts potter and author William De Morgan (1839-1917) influenced several significant art movements in nineteenth-century Britain. Despite this, their impact has been relatively overlooked in comparison with their better-known contemporaries. Evelyn & William De Morgan is the first major publication devoted to the work of either artist and their unique relationship. It draws out each artist's individuality while providing a comprehensive view of the expanded cultural milieu in which they functioned, not least with regard to new attitudes towards Victorian marriage as a working partnership. The fully illustrated publication features numerous contributions which explore the reach of the De Morgans' partnership, their political and spiritual interests, and their immersion within several influential cultural circles of the day, including Pre-Raphaelite, Arts and Crafts, and Aesthetic Movement groups. The book presents a lively and multifaceted account of the De Morgans and their creative partnership. Published in association with Delaware Art Museum Exhibition Schedule: Delaware Art Museum, Wilmington October 22, 2022-January 29, 2023 Crocker Art Museum, Sacramento, CA September 17, 2023-January 7, 2024 Museum of Fine Arts, St. Petersburg, FL January 27, 2024-May 2024

Developing Creativity in the Primary School Jill Jesson, 2012-09-16 This informative book brings together theory, research and practice examples of creativity in primary schools, providing a scholarly yet accessible introduction. The book offers an overview for teachers looking for a concise guide to current thinking about creativity, particularly if your school is thinking of introducing or extending its practice. The book considers recent developments in the creative curriculum, and techniques embedded in approaches such as Philosophy for Children, Mantle of the Expert and Enterprise Education. Ideas for personalising teaching and creating independent and motivated learners are incorporated. Other key features of the book include: Examination of the major theories of creativity How to develop your own creativity as a teacher Focus on the difference between developing group and individual creativity Innovative ideas for creativity in subject teaching Practical examples and 'Creative Challenges' throughout The book draws on the author's many years of experience of working with children in schools, working on Creative Partnerships and Higher Education in the Arts (HEARTS) projects and ideas developed through working in initial teacher training. This book is essential reading for students in the early stages of their teacher training course as well as for practising teachers looking for innovative ideas and guidance on developing creativity in themselves and their classrooms. "This is an interesting book, which explores theory, practice and policy of creativity in the primary classroom. Jill Jesson links five key creative behaviours drawn together initially by (then) policymakers QCA, with what she identifies as six areas of creative endeavour. Primary

teachers committed to developing a 'creative curriculum' will find much material in this lively book that supports their personal and professional creativity, as well as suggestions for classroom practice in developing individual and group work." Professor Anna Craft, University of Exeter and The Open University, UK "This is a compulsory read for all those interested in developing the creative potential of young people in primary schools. It includes a useful overview of previous thinking on creativity and makes a convincing case for its importance across the curriculum. Above all, this book is jam-packed with practical ideas. Whether you are interested in creative approaches to maths or modern languages, developing group or personal creativity, or the challenges of assessing creative endeavour, you will find a host of strategies that have been tried and tested in the classroom."
