12 Months to \$1 Million Ryan Daniel Moran,2020-05-05 This is the road map to a seven-figure business . . . in one year or less The word entrepreneur is today's favorite buzzword, and any aspiring business owner has likely encountered an overwhelming number of so-called easy paths to success. The truth is that building a real, profitable, sustainable business requires thousands of hours of commitment, grit, and hard work. It's no wonder why more than half of new businesses close within six years of opening, and fewer than 5 percent will ever earn more than \$1 million annually. *12 Months to \$1 Million* condenses the startup phase into one fast-paced year that has helped hundreds of new entrepreneurs hit the million-dollar level by using an exclusive and foolproof formula. By cutting out the noise and providing a clear and proven plan, this roadmap helps even brand-new entrepreneurs make decisions quickly, get their product up for sale, and launch it to a crowd that is ready and waiting to buy. This one-year plan will guide you through the three stages to your first \$1 million: • The Grind (Months 0-4): This step-by-step plan will help you identify a winning product idea, target customers that are guaranteed to buy, secure funding, and take your first sale within your first four months. • The Growth (Months 5 - 8): Once you're in business, you will discover how to use cheap and effective advertising strategies to get your product to at least 25 sales per day, so you can prove you have a profitable business. • The Gold (Months 9-12): It's time to establish series of products available for sale, until you are averaging at least 100 sales per day, getting you closer to the million-dollar mark every single day. Through his training sessions at Capitalism.com, Ryan Daniel Moran has helped new and experienced entrepreneurs launch scalable and sustainable online businesses. He's seen more than 100 entrepreneurs cross the seven-figure barrier, many of whom go on to sell their businesses. If your goal is to be a full-time entrepreneur, get ready for one chaotic, stressful, and rewarding year. If you have the guts to complete it, you will be the proud owner of a million-dollar business and be in a position to call your own shots for life.

One Million Hendrik Hertzberg,2009-11-01 Originally published in 1970, *One Million* has been out of print for some time, and its author, the highly esteemed New Yorker editor and columnist Hendrik Hertzberg, has been prompted by fans to create a new edition. Originally, the project was inspired by the author's journalistic impulse to try to make the newsworthy, large, and rather abstract number more concrete for people. To that end, he has created a book in which each of the 200 pages features five thousand dots, but on each page, a few of the dots are called out from their place in numerical order with a little piece of statistical information that add up to really bring the concept home. Fully updated and revised, Hertzberg's book is a fascinating compendium of random statistics, but the author's trademark intelligence and wit are on display through his choices and juxtaposition.

First Hundred Million E. Haldeman-Julius,2008-07-01 Every publisher dreams of selling 100 million books. E. Haldeman Julius made it happen. Year after year, publishers go under before they even see a fraction of that number. The reason is simple. Few publishers truly know what the American public wants to read. Fewer still know what key words in a title can trigger a buying frenzy. Be different and gain control of your publishing success by applying the results of E. Haldeman Julius's amazing, scientific experiment. He published thousands of books, all with the same cover design, size and price. The only thing that set them apart was the title. He discovered that a change of a single word literally could mean thousands more in sales. Gain an insight into the American public's buying habits without breaking the bank. Apply key words that trigger your buyers' insatiable appetites and be the next publishing success. Don't hesitate, because your competitors sure won't.

What I Learned Losing a Million Dollars Jim Paul,Brendan Moynihan,2013-05-21 Jim Paul's meteoric rise took him from a small town in Northern Kentucky to governor of the Chicago Mercantile Exchange, yet he lost it all--his fortune, his reputation, and his job--in one fatal attack of excessive economic hubris. In this honest, frank analysis, Paul and Brendan Moynihan revisit the events that led to Paul's disastrous decision and examine the psychological factors behind bad financial practices in several economic sectors. This book--winner of a 2014 Axiom Business Book award gold medal--begins with the unbroken string of successes that helped Paul achieve a jet-setting lifestyle and land a key spot with the Chicago Mercantile Exchange. It then describes the circumstances leading up to Paul's \$1.6 million loss and the essential lessons he learned from it--primarily that, although there are as many ways to make money in the markets as there are people participating in them, all losses come from the same few sources. Investors lose money in the markets either because of errors in their analysis or because of psychological barriers preventing the application of analysis. While all analytical methods have some validity and make allowances for instances in which they do not work, psychological factors can keep an investor in a losing position, causing him to abandon one method for another in order to rationalize the decisions already made. Paul and Moynihan's cautionary tale includes strategies for avoiding loss tied to a simple framework for understanding, accepting, and dodging the dangers of investing, trading, and speculating.

The Million Karl Schroeder, 2018-08-14 Futurist and award-winning author Karl Schroeder imagines infiltrating the elite of a marginal society in The Million. Every thirty years, ten billion visitors overrun Earth during one month of madness: partying, polluting, and brawling. In between, the world is ruled by the Million; the inheritors and custodians of all of humanity's wealth and history, they lead unimaginable lives of privilege and wealth, and they see it as their due. Gavin Penn-of-Chaffee is an illegal child—a visitor hidden among the Million. When the family that raised him in secret is torn apart, Gavin must impersonate a dead boy to survive. What he doesn't know is that his new identity is expected at the School of Auditors—the Million's feared police force, sworn to find and capture outcasts like him to keep the peace. In order to solve the murder of his adoptive father, Gavin must keep his disguise and his wits intact within the stronghold of those threatened by his very existence. The Last Million David Nasaw, 2021-09-14 From bestselling author David Nasaw, a sweeping new history of the one million refugees left behind in Germany after WWII In May 1945, after German forces surrendered to the Allied powers, millions of concentration camp survivors, POWs, slave laborers, political prisoners, and Nazi collaborators were left behind in Germany, a nation in ruins. British and American soldiers attempted to repatriate the refugees, but more than a million displaced persons remained in Germany: Jews, Poles, Estonians, Latvians, Lithuanians, Ukrainians, and other Eastern Europeans who refused to go home or had no homes to return to. Most would eventually be resettled in lands suffering from postwar labor shortages, but no nation, including the United States, was willing to accept more than a handful of the 200,000 to 250,000 Jewish men, women, and children who remained trapped in Germany. When in June, 1948, the United States Congress passed legislation permitting the immigration of displaced persons, visas were granted to sizable numbers of war criminals and Nazi collaborators, but denied to 90% of the Jewish displaced persons. A masterwork from acclaimed historian David Nasaw, The Last Million tells the gripping but until now hidden story of postwar displacement and statelessness and of the Last Million, as they crossed from a broken past into an unknowable future, carrying with them their wounds, their fears, their hope, and their secrets. Here for the first time, Nasaw illuminates their incredible history and shows us how it is our history as well.

One Million Trees Kristen Balouch, 2022-03-01 The real-life story of a family who planted 1,000,000 trees—yes, it's true!—to fight deforestation in British Columbia. When Kristen Balouch was 10 years old, her parents made a surprising announcement: their whole family was going on a trip to plant trees! Kristen, her sisters, and her mom and dad—and their pet, Wonder Dog!—flew from their California home to a logging site in British Columbia. There, they joined a crew working to replant the trees that had been cut down. In One Million Trees, Kristen reflects on the forty days they spent living in a tent, covered in mud and bug bites, working hard every day to plant a new forest. Young readers will learn a little French, practice some math skills, and learn all about how to plant a tree the right way! The kid-friendly, engaging text is paired with bold illustrations, full of fun details and bright colors. The story ends with a modern-day look at what Kristen's family helped accomplish: a stand of huge trees growing on what used to be an empty, muddy patch of bare stumps. An author's note shares more information on deforestation, sustainable logging practices, and the irreplaceable environmental benefit of old growth forests. . . . Plus, the amazing things even a small group of people can do when they work together. A fun story with an important environmental message, One Million Trees is bound to inspire kids to get their hands dirty to make our planet healthy!
