Rhythm Science Paul D. Miller,2004-03-19 The art of the mix creates a new language of creativity. Once you get into the flow of things, you're always haunted by the way that things could have turned out. This outcome, that conclusion. You get my drift. The uncertainty is what holds the story together, and that's what I'm going to talk about.—Rhythm Science The conceptual artist Paul Miller, also known as Dj Spooky that Subliminal Kid, delivers a manifesto for rhythm science—the creation of art from the flow of patterns in sound and culture, the changing same. Taking the Dj's mix

as template, he describes how the artist, navigating the innumerable ways to arrange the mix of cultural ideas and objects that bombard us, uses technology and art to create something new and expressive and endlessly variable. Technology provides the method and model; information on the web, like the elements of a mix, doesn't stay in one place. And technology is the medium, bridging the artist's consciousness and the outside world. Miller constructed his Dj Spooky persona (spooky from the eerie sounds of hip-hop, techno, ambient, and the other music that he plays) as a conceptual art project, but then came to see it as the opportunity for coding a generative syntax for new languages of creativity. For example: Start with the inspiration of George Herriman's Krazy Kat comic strip. Make a track invoking his absurd landscapes...What do tons and tons of air pressure moving in the atmosphere sound like? Make music that acts a metaphor for that kind of immersion or density. Or, for an online remix of two works by Marcel Duchamp: I took a lot of his material written on music and flipped it into a DJ mix of his visual material—with him rhyming! Tracing the genealogy of rhythm science, Miller cites sources and influences as varied as Ralph Waldo Emerson (all minds quote), Grandmaster Flash, W. E. B Dubois, James Joyce, and Eminem. The story unfolds while the fragments coalesce, he writes. Miller's textual provocations are designed for maximum visual and tactile seduction by the international studio COMA (Cornelia Blatter and Marcel Hermans). They sustain the book's motifs of recontextualizing and relayering, texts and images bleed through from page to page, creating what amount to 2.5 dimensional vectors. From its remarkable velvet flesh cover, to the die cut hole through the center of the book, which reveals the colored nub holding in place the included audio CD, Rhythm Science: Excerpts and Allegories from the Sub Rosa Archives, this pamphlet truly lives up to Editorial Director Peter Lunenfeld's claim that the Mediawork Pamphlets are theoretical fetish objects... 'zines for grown-ups.

Last Night a DJ Saved My Life Bill Brewster, Frank Broughton, 2014-05-13 “A riveting look at record spinning from its beginnings to the present day . . . A grander and more fascinating story than one would think.” —Time Out London This is the first comprehensive history of the disc jockey, a cult classic now updated with five new chapters and over a hundred pages of additional material. It's the definitive account of DJ culture, from the first record played over airwaves to house, hip-hop, techno, and beyond. From the early development of recorded and transmitted sound, DJs have been shaping the way we listen to music and the record industry. This book tracks down the inside story on some of music's most memorable moments. Focusing on the club DJ, the book gets first-hand accounts of the births of disco, hip-hop, house, and techno. Visiting legendary clubs like the Peppermint Lounge, Cheetah, the Loft, Sound Factory, and Ministry of Sound, and with interviews with legendary DJs, Last Night a DJ Saved My Life is a lively and entertaining account of musical history and some of the most legendary parties of the century. “Brewster and Broughton's ardent history is one of barriers and sonic booms, spanning almost 100 years, including nods to pioneers Christopher Stone, Martin Block, Douglas ‘Jocko’ Henderson, Bob ‘Wolfman Jack’ Smith and Alan ‘Moondog’ Freed.” —Publishers Weekly

Groove Music Mark Katz, 2012-05 It's all about the scratch in Groove Music, award-winning music historian Mark Katz's groundbreaking book about the figure that defined hip-hop: the DJ. Today hip-hop is a global phenomenon, and the sight and sound of DJs mixing and scratching is familiar in every corner of the world. But hip-hop was born in the streets of New York in the 1970s when a handful of teenagers started experimenting with spinning vinyl records on turntables in new ways. Although rapping has become the face of hip-hop, for nearly 40 years the DJ has proven the backbone of the culture. In Groove Music, Katz (an amateur DJ himself) delves into the fascinating world of the DJ, tracing the art of the turntable from its humble beginnings in the Bronx in the 1970s to its meteoric rise to global phenomenon today. Based on extensive interviews with practicing DJs, historical research, and his own personal experience, Katz presents a history of hip-hop from the point of view of the people who invented the genre. Here, DJs step up to discuss a wide range of topics, including the transformation of the turntable from a playback device to an instrument in its own right, the highly charged competitive DJ battles, the game-changing introduction of digital technology, and the complex politics of race and gender in the DJ scene. Exhaustively researched and written with all the verve and energy of hip-hop itself, Groove Music will delight experienced and aspiring DJs, hip-hop fans, and all students or scholars of popular music and culture.

How to DJ Right Frank Broughton, Bill Brewster, 2007-12-01 A “lucid, comprehensive guide” to becoming a club DJ “from beat matching to promotion to not going deaf” by the authors of Last Night a DJ Saved My Life (Rolling Stone). Bill Brewster and Frank Broughton wrote the definitive history of the DJ in Last Night a DJ Saved My Life. Now they share their extensive knowledge of the creative and technical aspects of Djing in this clear, accessible, entertaining guide for all aspiring jocks. How to DJ Right covers every aspect of Djing from establishing a music collection and a distinctive sound, to elementary record-spinning, to the complex skills of scratching, hot-mixing, and beat-juggling, as well as the unique art of creating an evening of sound that is perfectly timed, balanced, and unforgettable. Diagrams throughout make phrases, beat timing, and song structure comprehensible without a background in music theory. The authors also include recommendation lists on everything from the best (and most fun) songs to practice with, to the best sources for building a library of disks, CDs, and MP3s. For those who want to turn pro, the authors give sage advice on the vagaries of the club and music business. Enlivened by short quotes, anecdotes, and photos of famous DJs such as Grandmaster Flash and Derrick Carter, How to DJ is the definitive book for anyone who has ever considered becoming a DJ.

Talent Is An Asset: The Story Of Sparks Daryl Easlea, 2010-04-07 When LA musicians Russell and Ron Mael moved to Britain in 1973, they hit the pop world as Sparks and looked like oddballs, even in the context of the glam rock movement that made them welcome. Soon defined by their weird and wonderful 1974 single This Town Ain't Big Enough For The Both Of Us from the Kimono My House album, Sparks have now released 22 albums over four decades, each record inhabiting a bizarre world of its own. Their songs were peppered with puns and pop culture nods, as well as nostalgia and jokey images, all mixed up in a kaleidoscope of musical references ranging from rock to opera to disco. They remain one of pop music's truly original and uncompromising acts. The Sparks story is now celebrated in this unauthorised book, Daryl Easlea's exploration of their extraordinary drawing on hours of new interviews and research. Talent Is An Asset comes as close as possible to pinning down the quicksilver nature of two gifted musicians who have gone out of their way to remain unpredictable and elusive, forever entrenched behind a dazzling gallery of jokes, impersonations and musical eccentricities.
