*I Wrote You a Note* Lizi Boyd,2017-06-13 Simple text follows the path of a wayward note as each animal, Turtle, Duck, Spider, and many more, find it and use it for their own purposes.

**How to Take Smart Notes** Sönke Ahrens,2022-03-11 This is the second, revised and expanded edition. The first edition was published under the slightly longer title *How to Take Smart Notes. One Simple Technique to Boost Writing, Learning and Thinking - for Students, Academics and Nonfiction Book Writers*. The key to good and efficient writing lies in the intelligent organisation of ideas and notes. This book helps students, academics and other knowledge workers to get more done, write intelligent texts and learn for the long run. It teaches you how to take smart notes and ensure they bring you and your projects forward. The Take Smart Notes principle is based on established psychological insight and draws from a tried and tested note-taking technique: the Zettelkasten. This is the first comprehensive guide and description of this system in English, and not only does it explain how it works, but also why. It suits students and academics in the social sciences and humanities, nonfiction writers and others who are in the business of reading, thinking and writing. Instead of wasting your time searching for your notes, quotes or references, you can focus on what really counts: thinking, understanding and developing new ideas in writing. Dr. Sönke Ahrens is a writer and researcher in the field of education and social science. He is the author of the award-winning book “Experiment and Exploration: Forms of World Disclosure” (Springer). Since its first publication, *How to Take Smart Notes* has sold more than 100,000 copies and has been translated into seven languages.

**More Letters of Note** Shaun Usher,2015-10-01 More Letters of

Note is another rich and inspiring collection, which reminds us that much of what matters in our lives finds its way into our letters. These letters deliver the same mix of the heartfelt, the historically significant, the tragic, the comic and the unexpected. Discover Richard Burton's farewell note to Elizabeth Taylor, Helen Keller's letter to The New York Symphony Orchestra about 'hearing' their concert through her fingers, the final missives from a doomed Japan Airlines flight in 1985, David Bowie's response to his first piece of fan mail from America and even Albus Dumbledore writing to a reader applying for the position of Defence Against the Dark Arts Professor at Hogwarts. Including letters from: Jane Austen, Richard Burton, Helen Keller, Alan Turing, Albus Dumbledore, Eleanor Roosevelt, Henry James, Sylvia Plath, John Lennon, Gerald Durrell, Janis Joplin, Wolfgang Amadeus Mozart, Janis Joplin, Hunter S. Thompson, C. G. Jung, Katherine Mansfield, Marge Simpson, David Bowie, Dorothy Parker, Buckminster Fuller, Beatrix Potter, Che Guevara, Evelyn Waugh, Charlotte Brontë and many more.

**Note Book** Jeff Nunokawa, 2015-04-27 A moving and original literary approach to self-understanding through social media The hunger for a feeling of connection that informs most everything I've written flows from a common break in a common heart, one I share with everyone I've ever really known.—Note Book Every single morning since early 2007, Princeton English professor Jeff Nunokawa has posted a brief essay in the Notes section of his Facebook page. Often just a few sentences but never more than a few paragraphs, these compelling literary and personal meditations have raised the Facebook post to an art form, gained thousands of loyal readers, and been featured in the New Yorker. In Note Book, Nunokawa has selected some 250 of the most powerful and memorable of these

essays, many accompanied by the snapshots originally posted alongside them. The result is a new kind of literary work for the age of digital and social media, one that reimagines the essay's efforts, at least since Montaigne, to understand our common condition by trying to understand ourselves. Ranging widely, the essays often begin with a quotation from one of Nunokawa's favorite writers—George Eliot, Henry James, Gerard Manley Hopkins, W. H. Auden, Robert Frost, or James Merrill, to name a few. At other times, Nunokawa is just as likely to be discussing Joni Mitchell or Spanish soccer striker Fernando Torres. Confessional and moving, enlightening and entertaining, *Note Book* is ultimately a profound reflection on loss and loneliness—and on the compensations that might be found through writing, literature, and connecting to others through social media.

Draplin Design Co. Aaron James Draplin, 2016-05-17 A funny, colorful, fascinating tour through the work and life of one of today's most influential graphic designers. Esquire. Ford Motors. Burton Snowboards. The Obama Administration. While all of these brands are vastly different, they share at least one thing in common: a teeny little bit of Aaron James Draplin. Draplin is one of the new school of influential graphic designers who combine the power of design, social media, entrepreneurship, and DIY aesthetic to create a successful business and way of life. *Pretty Much Everything* is a mid-career survey of work, case studies, inspiration, road stories, lists, maps, how-tos, and advice. It includes examples of his work—posters, record covers, logos—and presents the process behind his design with projects like *Field Notes* and the “Things We Love” State Posters. Draplin also offers valuable advice and hilarious commentary that illustrates how much more goes into design than just what appears on the page. With Draplin's humor and pointed observations on the contemporary design

scene, Pretty Much Everything is the complete package.

The Zettelkasten method is the perfect way to harness the power of technology to remember what you read and boost creativity. Invented in the 16th century, and practiced to its fullest extent by a German sociologist who wrote more than seventy books and hundreds of articles, the Zettelkasten method is exploding in popularity. Writers of all types are discovering that digital tools make the method more powerful than ever, turning your digital life into an “external brain,” or “bicycle for the mind.” In *Digital Zettelkasten: Principles, Methods, & Examples*, blogger and nonfiction author David Kadavy shares a first-principles approach on how to adapt the Zettelkasten method to simple digital tools of your choice. How to structure your Zettelkasten? Kadavy borrows an element of the Getting Things Done framework to make sure nothing you want to read falls through the cracks. Naming convention pros/cons. Should you adopt the classic “Folgezettel” technique, or do digital tools make it irrelevant for your workflow? Reading workflow. The exact steps to follow to turn what you read into detailed notes you can mix and match to produce writing. Staying comfortable. Build a workflow to maintain your Zettelkasten without being chained to your computer. Examples, examples, examples.
